

WHALE SKELETON A FAIR FEATURE

One of the greatest wonders to be seen on "The Furrow" during the Grange fair week at Greesham, beginning October 4, will be the skeleton of a whale, 120 tons in weight. Such an animal must have been 700 years old. The tent space required for such a skeleton is 150x150 feet. As an educational feature, such an opportunity does not come as an average once in a lifetime.

The premium list for the Grange Fair association is being sent out. It is a very neat piece of work and reflects credit on its publishers and the persons who arranged the prizes. Nine departments are arranged: Agricultural, horticultural, drying, livestock, including horses and breeding cattle; poultry, domestic science, industrial, educational and art. A large number of special prizes are included in the list, running in value from \$25 to \$50.

WILL SHIP APPLES WITHOUT BOXES

(United Press Leased Wire.)
Walla Walla, Wash., Oct. 2.—Shipping apples in bulk, in carload lots, is a new idea here being tried out this season, with splendid results so far. Buyers are in the field trying to arrange for quick delivery fall apples for shipment east in bulk, refrigerator cars being used, without boxes. It is said that apples, carefully picked and packed in boxes, transferred to the cars, there dumped on a heavy cushion of straw and given plenty of ventilation, will go to Chicago in good condition.

WELLS-FARGO OBJECTS TO JONES' COMPLAINT

(Salem Bureau of The Journal.)
Salem, Or., Oct. 2.—Wells, Fargo & Co., through Attorney Wallace McCamant, objects to the manner of the complaint of E. F. Jones of Independence because Jones in a recent petition to the railroad commission charged that all the express rates in Oregon were unlawful, unreasonable and excessive. The Wells, Fargo Express company has about 20,000 separate rates in force in this state and Mr. McCamant contends that it is impossible to include them all in Jones' complaint.

Yates—The Model Kitchen, 1905.

DYNAMO BREAKS LOOSE AND MILL IS WRECKED

(Special Dispatch to The Journal.)
Hood River, Or., Oct. 2.—Failure of the governing machinery to work on the big dynamo of the Oregon Lumber company at its power plant at Dee yesterday caused the dynamo to break loose and wreck the plant. Part of the 10-ton flywheel was thrown across the river, a distance of several hundred feet. One hundred and fifty men are out of employment as a result of the accident.

Pianos for Rent.

If you are only temporarily settled and want a good piano to while away a part of the time, let us send you a fine toned piano for \$4 a month. This rent goes on purchase price if you decide to buy. Reed-French Pianos, Sixth and Burnside.

Although many men were employed in the vicinity of the plant, no one was injured. The plant cost \$50,000 and was the first electric power plant to be used in operating a sawmill on the coast. The accident is a doubly expensive one to the company as, in addition to the loss by damage to the power plant, it is expected that the big mill, which was cutting from 15,000 to 20,000 feet of lumber a day, will have to remain idle a month before repairs can be made.

Portland's Finest Exposition OF FALL CLOTHING FOR MEN

You Are Invited

To inspect what is unquestionably the finest assortment of

Suits and Overcoats

In Portland and Oregon.

"Collegian" Suits
Have No Superior and Few
Equals.

"Collegian" Overcoats

Need no introduction or comment. For elegance of design, thoroughness of workmanship and for beauty and dependability of fabric "Collegian" Clothing heads the procession.
