

SIDELINE STORIES OF GREAT NORTHWEST

COUNCIL AWARDS CONTRACT

Further Steps for Municipal Light Plant at Ashland.
(Special Dispatch to The Journal.)
Ashland, Or., Oct. 5.—The city council has awarded the contract for furnishing wire-wound wooden pipe for the municipal light power plant, which is to be installed in Ashland canyon, to the Washington Pipe & Foundry company at Tacoma. The total price to be paid by the city for laying the pipe is \$14,812.58. The bid in detail was 52 cents per lineal foot for 12-inch pipe, \$1.25 per foot for 16-inch pipe and \$1.64 for 24-inch pipe. The company agrees to complete the work by December 31.

E. Phipps, who has been employed as foreman to do that part of the construction work which is to be executed by the city, has commenced work and will endeavor to complete the city contract before the beginning of the winter season.

The A. E. P. & L. company, which is supplying the city with light and which has sued the city to prevent a municipal plant being built, has thus far failed to obtain an injunction. Decision of the matter is pending in court. Meantime, the city council has taken steps to submit an amendment to the charter covering the grant of power to the municipal plant.

The council will hold a special election called for October 26.

BARING AT BAKER CITY

Visit Believed to Have Bearing on North Pole Mine.
(Special Dispatch to The Journal.)
Baker City, Or., Oct. 5.—After spending several days at the North Pole mine in the Sumpter country, in which he is a heavy stockholder, Mr. Baring, the multi-millionaire London banker, passed through Baker City on his way to Portland and coast points.

He did not register at the hotel where he stopped, which would indicate that his desire was to make a quiet visit to the mining country, in which his business is to be done without much publicity. Mr. Meizer, manager of the North Pole mine, was with him.

The old North Pole mine four years ago has been one of the Oregon faithful producing mines. Its ownership is confined to a close corporation and its business transactions of the company have never been given to the public. Several weeks ago the North Pole closed down and it was stated at the time that the ore body had been exhausted and that no development work had been done of late. With this general understanding it is thought that Mr. Baring came to the property for the purpose of deciding what work shall be done in the way of developing more ore.

OAKLAND'S PROSPERITY.

Lively Town Shows That It Can Do Things Right.
(Special Dispatch to The Journal.)
Oakland, Or., Oct. 5.—An oakland band has been organized at Oakland, Or., with 15 pieces, Harvey J. Mahoney, director.

The Oakland Development league has commenced the work of getting up an agricultural exhibit for next year's state fair. It is hoped that other towns in Douglas county will fall into line.

The Meisick orchard at Oakland has shipped seven carloads of pears and one of prunes, and several cars of apples will be shipped from this orchard during the present season. This fruit is all from what was two years ago a much-neglected orchard. The present owner applied modern horticultural methods and has brought the trees to a stage of bearing a fine grade of commercial fruit.

The fruit-growers of Oakland have organized under the name of the Calapooia Fruit-growers' association, and filed articles of incorporation with the secretary of state.

The Phoenix Stone company near Oakland has a large force of men getting out a fine quality of building stone. The output of the quarry is about 1000 per day. The capacity of the plant will be enlarged in the near future.

BRIDGE TROUBLE SETTLED.

Work Will Proceed on Structure Over Hood River.
(Special Dispatch to The Journal.)
Hood River, Or., Oct. 5.—A controversy between the Columbia Bridge company, which is building a \$5,000 steel bridge across the river, and the Hood River city council, which has threatened to involve both parties in litigation was settled today at a special meeting of the council and representatives of the bridge company.

The bridge company had asked for \$100,000 for the bridge, but the council refused to pay the additional charge which ordered work stopped, notifying the company and its bondsmen that the contract was voided. The bridge company refused to stop work, and stated that it would complete the work in accordance with the specifications.

At the meeting today an agreement was reached and the bridge will be completed.

STEEL FOR RAILROAD.

Great Activity Along Line of Chicago, Milwaukee & St. Paul.
(Special Dispatch to The Journal.)
Pine City, Wash., Oct. 5.—There is great activity here now along the line of the Chicago, Milwaukee & St. Paul railroad. The steel has arrived and about three miles each day is being laid by the big crews of men at work.

Work in this section has been somewhat delayed owing to the scarcity of steel and this also caused the railroad company to change their plans of the big bridge across the "Hole in the Ground," using wood instead of steel, as had been previously planned. Work will now be pushed as rapidly as possible until the cold weather sets in and if it is an open winter the work will be pushed all through the winter months.

Land values are rising on account of the great wheat fields of this territory being traversed by this great transcontinental railroad.

NIXON'S BODY FOUND

Picked Up About a Mile Below Scene of Drowning.
(Special Dispatch to The Journal.)
Harrisburg, Or., Oct. 5.—The body of J. F. Nixon, who was drowned in the Willamette last Monday, was found by Clarence George about a mile below where the boat was overturned. A bridge and creek were found within a few feet of where the body was discovered.

REAL ESTATE ACTIVE.

Palouse Country Farms Are Sought by Land Investors.
(Special Dispatch to The Journal.)
Garfield, Wash., Oct. 5.—There is greater activity in real estate in this section of country than for many years and thousands of acres of land are changing hands. The Palouse country raised a big crop of wheat this season and it is practically the only part of eastern Washington that has done much

toward filling the wheat bin of the country.

The Garfield Land company has recently sold \$100,000 worth of Palouse farms and are receiving inquiries by every mail from people who are coming here to locate. This company sold the Frank Hollinger farm two miles from Garfield. This last week for a consideration of \$100 an acre. This farm is in a high state of cultivation, has splendid improvements and is well watered by a creek and a well. There is a large orchard on the place that will bring the owner from \$2,500 to \$3,000 a year. The purchaser is from Indiana. He has returned east since buying and will move here in about two months with his family.

TRAPP'S TRIAL OPENS

Believed That Alleged Murderer's Plea Will Be Insanity.
(Special Dispatch to The Journal.)
Baker City, Or., Oct. 5.—That D. R. Trapp's defense to the charge of murdering "Bill" Jasper in Huntington several weeks ago will be insanity is the general opinion around the courthouse. Whether it will be temporary insanity, "dementia Americana," or just plain loss of mental powers is not known.

A considerable difficulty was experienced in securing a jury for the trial. Twenty-four hours were consumed before the 12 men were selected. The jurors are: Bird Spaulding, J. C. Travin, Walter Boyles, Flavius Perkins, James Cavin, D. W. Holman, J. J. Grady, N. C. Love, Sylvester J. Jones, S. Miles, Sam Willett and William Elliott.

The trial beginning to end the trial is expected to be hard fought.

STAGING NEARS END

Halls on California Northeastern Near Klamath Falls.
(Special Dispatch to The Journal.)
Klamath Falls, Or., Oct. 5.—The rails are expected to be laid to navigable water in 30 days. At the time staging into Klamath county will be at an end.

The engineers on the California Northeastern state that they expect the roadbed through the marsh, as far as the straits, to be ready for the rails in 30 days, at which time a terminus will be established at Holland, the station at the straits.

Rush orders have again been received from the chief engineer of the railroad crew just south of this city is throwing up grade at a rapid rate. Contractor Senon is in charge of the work, but the reputation of being the fastest road builder on the coast and is living up to his reputation.

SYND OF OREGON.

Representatives from Presbyterian Churches Will Meet at Ashland.
(Special Dispatch to The Journal.)
Ashland, Or., Oct. 5.—The synod of Oregon, which includes all the Presbyterian churches in the state, will convene here Thursday, October 8, in the Presbyterian church of Grand Ronde will meet Tuesday evening, October 6, and the Presbytery of southern Oregon will convene Wednesday, October 7.

Several distinguished men from the east and visitors from Washington and California will be present. Every effort is being exerted to make this a notable event in church circles.

Moving sessions will be devoted principally to routine business; in the afternoon there will be committee reports and interesting discussions of live themes.

BETTER LIBRARY DESIRED

The Dalles' Citizens Will Ask Andy for \$15,000.
(Special Dispatch to The Journal.)
The Dalles, Or., Oct. 5.—The city council has ordered advertisements for bids for the foundation of the contemplated Carnegie library. The city has a long and expensive battle to build a \$10,000 library.

If possible, the city will get a \$15,000 building from Carnegie, as a great many citizens feel that the Dalles ought to have a better building than the one contemplated. The lots purchased for the building are on Fourth and Washington streets.

SAND IS DISCOVERED

Railroad Graders Uncover Large Bed Adjacent to Klamath.
(Special Dispatch to The Journal.)
Klamath Falls, Or., Oct. 5.—The railroad graders have uncovered a large bed of very fine grade sand three miles south of this city.

Sand is very scarce in this country, and up to this time has only been found in Wood River, 40 miles north of Klamath Falls, necessitating a long and expensive haul.

The sand just discovered is on the ranches of H. E. Willard and A. C. Lewis, and within easy hauling distance.

LAWYERS NOW ON OPPOSITE SIDES

William C. Bristol and James Cole, formerly United States district attorney for Oregon and assistant district attorney respectively, appeared on opposite sides in the federal court this morning in a case of R. S. Howard Jr., receiver of the Title Guarantee & Trust company, against Theodore Rowland and Walter Fortner, who is alleged to have intruded on a copyright belonging to the company.

Mr. Bristol represents the complainant. Some time ago it seems a map of the city of Portland was issued by the Title Guarantee & Trust company, and Rowland and Fortner started to issue one of their own. The company claims that the map being printed by Rowland and Fortner is an infringement on the copyright on the city map issued by the company.

Judge Wolfenden will hear the case Wednesday afternoon to decide whether a temporary injunction should be issued as is requested by the complainant.

WORKER OF JAPAN AT Y. W. C. A. ROOMS

Miss Stella Fisher of Japan is the guest of the Young Women's Christian Association for a few days. Miss Fisher has been student secretary at Tokio as the special representative of the Pacific coast association.

Tuesday evening Miss Fisher will speak at the Y. W. C. A. rooms, Sixth street and Franklin. Following her address a class for the study of practical sociology will be organized under the direction of Mr. E. H. Mossman. This class is open to men as well as women.

AND ABSOLUTELY RELIEVES AND CURES INDIGESTION AND DYSPEPSIA QUICKLY.

SPECIALIST'S VIEWS

Spoonful Said to Excite Ravenous Appetite and Digest Any Meal Eaten.

Dr. Spear, the noted stomach specialist, says that any healthy person can call the time of day by their stomach. He explains by saying that it is a sub-conscious feeling due to the activity of the healthy nerves of the stomach calling for food. He says dyspepsia or indigestion is a condition of the stomach, not a disease of the system. When questioned as to the prevalence of stomach disorders, he stated that probably fifty per cent of adults and twenty per cent of all children have dyspepsia in some form. The symptoms are distressing after eating, flatulence, heartburn, heart palpitation, headache, dullness, languor, weakness and nervousness. No better treatment can be found than this relieving quickly and supplying plenty of digestive fluids: Get two ounces of syrup of Ginger, two ounces of essence of Peppermint, one ounce Comp. essence Cardiol. Mix, shake thoroughly and take one or two teaspoonfuls after each meal. A spoonful before eating will induce a good appetite. Very fine for old people and children with weak stomachs. Can be used freely without creating any drug habit. Stomach nostrums contain opium, but this is pure extracts and essences.

GET TOGETHER FOR THE COAST

Coast Cities Represented at Important Meeting at San Francisco.

(United Press Leased Wire.)
San Francisco, Oct. 5.—For the purpose of uniting the Pacific coast cities in an effort to obtain a solid Pacific coast delegation at Washington to work for the interests of the far western states, representatives of 13 commercial organizations of San Francisco, Oakland, Los Angeles, Portland, Seattle, Tacoma and Spokane met today at the chamber of commerce rooms to effect an organization.

The meeting was attended by prominent business men from those cities and the spirit of harmony was prevalent. The desire was expressed that the coast cities forget rivalries, make the interests of the coast paramount and unite in issues and present a united front at the next session of congress.

C. B. Yandell, secretary of the Seattle chamber of commerce and former Governor John H. McGraw of Washington, headed the Seattle delegation. Yandell made an address recommending unity. He criticized especially the policy of the government's sending coal from the Atlantic to the Pacific coast in clipper boats. He read letters from Senator Samuel H. Piles and Senator-elect W. L. Jones of Washington.

"Since my entrance into the United States senate," said Senator Piles in his letter, "I have realized the need of some concerted movement on behalf of the interests of the Pacific coast, and while I have always found a willing spirit on the part of each member of the foreign delegation, I have always been a lack of united and organized work."

Congressman W. L. Jones, in his letter, said:

"I fully realize the importance of the commercial delegations from the Pacific coast working together on all matters of special interest to the coast. I shall cooperate with the delegates from other states in every way possible to promote our interests."

The delegation from the Portland chamber of commerce is composed of the following: E. C. Gilmer, J. N. Teal, George M. Cornwall, R. J. Holmes and L. Q. Swelland.

MANY TOPICS AT CONVENTION

The twenty-fifth annual convention of the Woman's Christian Temperance Union of Oregon will be held this week for four days beginning tomorrow, in Taylor Street Methodist church.

Sessions will be held mornings, afternoons and evenings of the four days. The president's report will be read Wednesday afternoon. Selection of officers will be held Friday morning. During the convention the various departments of the work will be heard from, including the following: Work among foreign speaking people, Sunday school, temperance literature, labor, institutes, parliamentary usage, evangelistic propositions and systems of living, penal and reformatory, work among lumbermen and miners, physical culture, work among soldiers and sailors, Sabbath observance, mercy and peace, moral education, social and red letter days, floral mission, school savings banks, lecture bureau, franchise, non-alcoholic medication, scientific temperance instruction, health and heredity, press work, union Signal reporter, work among colored people.

The program for tomorrow is as follows: Morning, 10:30, general officers' meeting; afternoon, 2:30, official board meeting; a executive session; 7:30, devotion, Rev. Eugene St. John, in addresses of welcome, five minutes each city. Mayor Lane; fraternal societies, Rev. Mr. Knapp; 8:30, Daniel; W. C. T. U. country, Mrs. Ella G. Himes; local, Mrs. L. M. T. Hiden; churches, Rev. Benj. B. Johnson; Rev. Clarence True Wilson; response, Mrs. Henrietta Brown. Following the program there will be a reception at the home of Mrs. O. P. M. Jamison, 542 Main street.

LONDON SUBWAY TRAFFIC BLOCKED

(United Press Leased Wire.)
London, Oct. 5.—Employees of the electric generating station at Chelsea are working today to clear the Chelsea transportation tube service, which was tied up by an explosion of turbine engines last Saturday. Trains were stalled and passengers were led to safety by trainmen carrying lanterns. Although the traffic was heavy, some was injured. No trains were run through the tubes yesterday.

The Grange fair at Gresham, October 6 to 10, will be a fair of the real old time country type.

SHOW RING OPEN TO EXHIBITORS

The advance guard of the exhibitors to the second annual horse show to be given by the Portland Hunt club is beginning to arrive at the stables on the Lewis and Clark exposition grounds. A number of horses, vehicles and men took possession of the stables this morning, and J. W. Cruthers, who is allotting the stable room, expects that full half of the stalls will be taken by the middle of the week. Mr. Cruthers has finally rushed the work of getting the show ring ready and it will be thrown open to exhibitors today. The electric lighting has also been established and while the horses are getting accustomed to the ring, the lights will be turned on so that when it comes to showing them at night they will not be frightened by the lights.

The reserved seat sale began this morning and a line of ticket buyers was waiting at Rowe & Martin's drug store. There will be no season seats sold for the coming show. Those wishing to have the same seats throughout the

show can buy them by buying seats in the boxes which have been especially set aside for this purpose. The boxes have eight seats each and those wishing to buy seats in these boxes can do so and if they desire they can have the seats throughout the show.

The class of children riders will again be a splendid feature of the show. The little riders are taking keen interest in the coming show. They are hard at work drilling, and they will give the grown-ups in the High school class some work to show better riding and all around horsemanship than the youngsters.

Patents have been granted in Germany and the United States for a machine that makes glass telegraph wires, which are being extensively used in several sections of Europe, where wood is scarce.
