S.S.S. A CURE FOR RHEUMATISM. Rheumatism is caused by an excess of uric acid in the blood, which is carried through the circulation to all portions of the system. Every muscle, nerve, bone and joint absorbs the acid, pain-producing poison, causing aches, inflammation, stiffness and other well known symptoms of the disease. Permanent relief from the pains and discomfort of Rheumatism cannot be expected from the use of liniments, plasters, and other external treatment which does not reach the blood, where the cause is located. Such measures give temporary relief, but in order to cure Rheumatism the uric acid and inflammatory poison must be expelled from the blood. S. S. S. cures Rheumatism because it is a perfect blood purifier. It goes down into the circulation, neutralizes the uric acid and drives it from the blood. S. S. S. expels the irritating, inflammatory matter which is causing the pain, swelling and other discomfort, enriches the weak, sour blood, and permanently cures Rheumatism. In all forms of Rheumatism, whether acute or chronic, S. S. S. will be found a safe, vegetable remedy, possessing the properties needed to cure, and at the same time a medicine that builds up the entire system by its fine tonic effects. Book on Rheumatism and any medical advice free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Reducing the Force. It's the same old story the world over, when it comes to "reducing the force" of the "head on" to first. The business world demands results today. Many a man is thrown out of employment on account of his inability to get up and hustle, due to a lack of energy and ambition. It's the ambition to "do or die," coupled with nerve power—vitality that wins success. It's the ambition of a man who is kept down by lack of energy, backwardness, dependency, lost vitality or weakness of any kind, and I will make a new man out of him by filling his nerves with the fire of life—electricity. Your treatment has cured me of rheumatism and I am feeling like a new man. I certainly consider Electro-Vigor a good investment, and thank you for your interest in my case. BLAZING BORDERS ON MURDER CASE

Lexington, Ky., Oct. 6.—After being bound, gagged and left to die in a freight car, by hangers, William E. Smith, a student of the Kentucky State college, has disappeared. The facts became known today and hundreds of railway men are searching the cars of the system in the faint hope that he may yet be found alive.

UNWRITTEN LAW GOOD IN IDAHO. (United Press Leased Wire.) Boise, Idaho, Oct. 6.—After two hours' deliberation the jury in the case of John Ennis, tried at Pocatello on the charge of murdering his old-time friend, Evan Davies, July 31 last, returned a verdict of not guilty. Both Ennis and Davies were past 60 years old. While Ennis made the nominal plea of emotional insanity, his real defense was the "unwritten law." Evidence showed that the young daughter of Ennis con-

To Male Readers of This Paper. A few months ago a man came to my offices and told a story of his experiences which is so typical of what the average patient goes through before coming to me that I wish every man could read it. In the first place, this man was of strong and healthy appearance, and began by telling me he was never sick in bed for a single day as far back as he could remember. His symptoms were lack of ambition, vim, energy and power to concentrate his mind. He felt conscious of a state of physical imperfection, which embarrassed him and made him feel unfit to enjoy society, and, as he expressed it, he was "played out all over."

CAUSE OF THE TROUBLE. Questioning him as to what he thought caused his trouble, he admitted excesses in early life, and confessed to a slight disorder contracted some five years past. By advice of well-meaning friends, he tried prescriptions, which helped to a certain point, but failed to go beyond that. His next step was to consult a doctor, and he sought out one with a large general practice and good reputation. The doctor cheered him with the assurance that he would undertake the treatment of his case, asked him a few questions and prescribed medicine, both for local and internal use. For the first few weeks he improved so much that he discontinued his visits to the doctor to stop the drain on his purse. A little later he had a relapse, which was very discouraging, especially as he felt the weakness coming on, which caused pains in the back, sleeplessness and general lassitude. He sought help from a specialist for disorders like his own, but soon realized that he was in incompetent hands. The specialist, who had been in business but a short time, closed his offices and went away. Following this, the sufferer was attracted by the claims of a doctor who told him that he must get next to Nature, and that Nature was sewed up just inside of his electric belt. It cost him about \$100 to find out that electricity would not help a bit. In a very skeptical and hopeless frame of mind this man came to me. I examined him in a manner that he admitted he was never examined before. I found the exact cause of the whole trouble, explained it fully to him, together with my plan of treatment, and guaranteed him a perfect and permanent cure, and offered to let him PAY WHEN CURED. Last week he said he felt as good, sound and healthy, as strong in vigor, as he ever had in his life.

SECRET OF MY SUCCESS. I proved to this man that the whole secret of my success in curing WEAKNESS, VARICOCELE, HYDROCELE, CONTRACTED DISEASES, was knowing definitely what treatment was indicated and how to give it. There is no mystery about my methods or my medicines. My knowledge of the human system and its ailments is superior because I have devoted all my time for the past twenty years to this one branch of the human machinery.

My Fee in Uncomplicated Cases YOU PAY WHEN CURED. I Cure All Contracted Disorders. The serious results that may follow neglect of contracted diseases could scarcely be exaggerated. Safety demands an absolutely thorough cure in the least possible time. I have treated more cases of contracted disorders than any other physician upon the Pacific Coast. My cures are thorough and are accomplished in less time than other forms of treatment require in producing even doubtful results. I employ remedies of my own devising, and my treatment is equally effective in both recent and chronic cases.
