

RAILROAD SUBJECTS TO RESTRICTIONS

Huber Succeeds in Getting the Weight of Streetcar Rails Reduced.

"You might as well cut out further reading of that ordinance. We don't propose to be at the mercy of the council for the next 18 years. We don't do business that way."

ALL TURNING TOWARD BRYAN

"I believe that Mr. Bryan will be elected our next president and that when the votes are all counted many will even be surprised at the magnitude of the victory."

Such is the belief of Clarence E. Eddy, an Oregonian, well known for years in the newspaper and mining fields of Idaho, Utah and Nevada, who is now in Portland. Mr. Eddy says that everywhere there is a great sentiment for Bryan and comments as follows:

"The time has at last arrived for a Democratic modification of our political and social conditions. As surely as there is progress Mr. Bryan will be our next president. I could name no less than 40 strong points of evidence to this effect. There is a strange quiet but sweeping trend in this direction everywhere. I have talked with hundreds of people throughout Nevada, California and Oregon the past three months, and the Bryan sentiment is almost unanimous."

"Recently I stopped at Roseburg, in southern Oregon, which locally is supposed to be Republican. As an instance in point there was a crowd in a big phonographic supply store listening to Taft and Bryan records. Finally they got to talking politics and were for Bryan to the last man. Even the proprietor, a big, portly fellow, who looked like Taft, was radically for Bryan. He said he had not sold a Taft record, because there was no call for them, but that he had sold a Bryan record. He was the one on immortality, he could not get them fast enough to supply the demand."

"Mr. Bryan has the largest personal following that any living man has ever had in the history of the world. He has made the cause of a man and humanity his creed. By the power of his principles he has grown stronger through all defeat. In 1896 he was handicapped by the hard times which occurred under Cleveland and were charged up to the Democracy. In 1900, owing to our foreign wars the military spirit was prominent and not propitious to international reforms. In 1904 the conservative element of the Democracy had its fling and has now come over and fully joined forces with Bryan."

"Every great predatory interest has been powerfully arrayed against Mr. Bryan. Very often in the past they have supported him politically, but in Bryan's own words, 'There is no grave so deep that it can hold a righteous cause. As surely as the world moves, this great noble-hearted champion of the people should and will be elected the next president of the United States.'"

Patterns a Help For Christmas

Beginning tomorrow, The Journal will publish weekly a pattern supplement of transfer patterns for embroidery which will be eagerly welcomed by the many women who wish to embroider undergarments, dainty baby clothes, collars and cuffs, monograms for linens and all the little trifles which make such acceptable Christmas gifts.

That is, if you are a woman, you will find in this offer of The Journal a woman may obtain a good stock of patterns for her embroidery work without additional expense or loss of time. Full directions are given with each pattern so that the needleworker who lives out of town is as well able to do the work as one who is in close touch with the city shops.

EX-COUNCILMAN CALLED TO ORDER

The street committee decided yesterday afternoon at its meeting to appoint viewers for the opening of East Third street from East Market street to the Willamette river. George Sopher, attorney for the Inman-Poulson company, which has the property through which the street must be opened, objected to this, and in so doing became so vociferous that the committee called to order by Chairman Russholt. Shepherd declared that Counselman Kellaher and Russholt were the only ones on the committee who wanted to see the street opened.

The race is not to the swift, but to the competent. Keep well and strong on

GRAPE-NUTS "THERE'S A REASON"

WEALTHY GET THE POOR GOLD FOR THE WEALTHY-- THEY GET RICH AT GORDON FALLS

ONLY 28 1/2 MILES FROM GORDON FALLS

The town that is soon to be the scene of such wholesale activity in the manufacture of woollens and interests that the whole country--not merely our immediate surroundings--will read with amazement the monster transformation that will take place upon these powerful and splendid waterfalls have for centuries wasted their energies when they should have been improved. We shall make the thing that the people want--such a quality of cloths as are strange to present domestic manufactures--and in such abundance as to supply the demands of trade how-

ever great. We shall have the latest and most improved machinery. We shall "unite skill and capital in order to carry on a business of some magnitude," as Mr. Rockefeller wisely put it, and that our profits will be the equal of any similar enterprise of the country there need be no doubt, because we are in the center of the wool-growing region of the west; have terminal rates for freights on two transcontinental railroads and water transportation to all parts of the civilized world.

WE ARE ADVERTISING FOR PARTNERS in this GREAT ENTERPRISE. We want to let them in "on the ground floor," so to speak. We want them to place their money with us NOW, that its FULL EARNING CAPACITY may reward them. We want them to OWN STOCK IN THE THING THAT MAKES THE PROFITS! We want them to SHARE IN ALL THE FRUITS OF Gordon Falls--to plant their seed NOW--in the Springtime of

Gordon Falls--to begin with us--to get away from "digging potatoes at six bits per day"--to be machinery starters--to hold their purses for the first flow of gold--to grow with us as the child grows from its helplessness in the cradle to all the splendor of strong and robust manhood!

WE WANT YOU, READER, TO BUY ONE OR MORE BONDS WE ARE SELLING NOW

The price is \$100 each, and you may pay for them \$10 down and \$10 per month. They will pay you interest at 5 per cent, which is 2 per cent better than the best you can get at any bank, but if this were all we had to offer we would not pay The Journal for this space to tell you about it. With every bond we give you free FIFTY SHARES OF OUR CAPITAL STOCK, and measured by the profits of similar shares in similar enterprises now in operation in the New England States, this will add 10 to 25 per cent interest to the \$100 you pay for the bonds. Measured by prices of New England mill stocks, within five years these shares will be marketable at as much as

\$100 each. This will make them worth \$5,000! Suppose, then, the reader should invest \$1,000 with us now, and that our shares should go up to the figure named, he or she could in five years step out with FIFTY THOUSAND DOLLARS as the reward of his or her present enterprise. But in addition to this interest on the bonds, profits of the business payable to stockholders, the 50 shares worth \$5,000, owners of stock will participate in the income arising from rentals, the sale of electrical power to other mills and factories, the revenue derived from an excellent plant we shall install, and

THE TREMENDOUS SUMS TO BE REALIZED FROM THE SALE OF LOTS WHEN THE TIME SHALL COME THAT THESE 840 ACRES WILL BE DISPOSED OF

This will amount to hundreds of thousands of dollars--and each share of stock is a claim upon its share of the proceeds of this transaction. It is therefore

difficult to tell how rich Gordon Falls will make its people, but there is one thing certain,

INVESTORS OF TODAY WILL FIND THEMSELVES IN THE MIDST OF AN INCOME THEY HAD NEVER THOUGHT POSSIBLE UNTIL THE DEVELOPMENT OF THE TEXTILE TOWN OF GORDON FALLS

In other advertisements we have printed the present market values of stocks in eastern textile mills, the prices ranging from \$100 to \$1,000, \$1,325 and as high as \$1,950 per share for Otis Mills. Well, if Gordon Falls should go to pay \$100 per share, the 840 we give free with each bond would be worth a comfortable little fortune in themselves. But if our stock should equal Otis shares, then each holder of a bond would receive what he could sell at NINETY-TWO THOUSAND SIX HUNDRED AND TWENTY-FIVE DOLLARS! But let us step down to \$500 per share, and these 60

shares would be worth \$30,000, and at only \$800 per share, \$15,000 could be had for this free stock. As the power to operate our mills will cost us nothing; as we are in the center of the great wool-growing district of Western North America and as we will have no fuel to buy or expensive engineers and firemen to hire, together with the lowest freight rates possible, it can not reasonably be otherwise than that we will make at least as great profits as the New Englanders, compelled to operate by steam and secure their wools from the Pacific coast.

CAPITALISTS, BUSINESS MEN, LABORING MEN, HERE IS YOUR OPPORTUNITY

Do not let it escape you. If you cannot pay for your bonds all at one time, get them on our easy payment terms of \$10 down and \$10 per month per bond. If you cannot afford more than one, buy one, but scrip a little and secure as many as you can. A

little later and you will not have to scrip--won't have to stifle your desires. The profits of your investment will support you--handsomely on a couple of bonds--sumptuously with four or five.

BONDHOLDERS DESIRING WORK HAVE PREFERENCE OF EMPLOYMENT

Let us mail you the Gordon Falls Gazette, Free, that you may know all about it.

Enchanting the soul with her glory, The heart is as awed in its dreams, Her mountains--oh, rapturous story!-- What a picture!--those valleys and streams!

How Would You Like to Be Worth \$500,000,000? How Would You Like to Begin On a Capital of 75c Cents and Accumulate So Vast a Sum?

HOW ROCKEFELLER DID IT

In a recent interview reported in the New York Journal, John D. Rockefeller has given one of the important principles which has helped him to achieve the most gigantic fortune known to modern times. In that interview Mr. Rockefeller, who is now 67 years of age, said he was digging potatoes for a neighbor at the munificent rate of 15 cents for a day of 10 hours. He said he had a little money in hand and decided upon one day, "that if I could invest what I had saved at 7 per cent, which was the

legal rate at that time, I would soon get more than I could earn at digging potatoes, and not have a bachelorette, either. I was very deeply impressed then with the advantage of having your money work for you, and I added characteristically, "I have never forgotten that." Never forgotten it, indeed! Today Rockefeller has a fortune of FIVE HUNDRED MILLIONS OF DOLLARS to bear witness of the constancy of the thought in his mind.

FOOD FOR REFLECTION

But--and this is the point to remember--Rockefeller not only learned that money earns money--that it is as good for an owner as a man working for him constantly--but he also learned that per cent was in

his day) the minimum earning ratio of money. He learned that it could earn more--enormously more--and the realization has made him a multi-millionaire.

THE ART OF MONEY-MAKING

Some men get rich. Others remain poor. The difference is simply a difference in the way they use their money, but let the saved funds earn nothing for them. Other men save money, and let the saved funds earn a little for them by depositing it in a bank at 3 to 4 per cent. Thus, the case of Rockefeller, when digging in the potato patch he had \$3,500 and

had put it at interest at the rate of 7 per cent, letting it accumulate for 40 years, he would have had \$193,354.15. Tom Lawson, in his recent attack on Rockefeller, tells us that Mr. Rockefeller made, in 45 years, not \$154.15, but FIVE HUNDRED MILLIONS OF DOLLARS--the life earnings of 150,000 people.

ROCKEFELLER PUT HIS MONEY TO WORK

The oil king is, of course, a phenomenon. Such instances of great individual success are comparatively rare, but the point is that as Rockefeller got rich he made others, thousands of others, rich with him. Like success began in 1865 when Mr. Rockefeller, Mr. Andrews and Mr. Flagler united as a firm, the cause leading to the combination, to quote Mr. Rockefeller's own words, being:

"To unite our skill and capital, in order to carry on a business of some magnitude and importance in place of the small business that each had separately carried on."

THE EARNING POWER OF MONEY

When money and opportunity get in touch the combination has tremendous breeding possibilities. An astounding prolific crop of dollars is the result. Some men look at the opportunity but do not perceive it. Others--many others--do. Those who recognize the opportunity will have it, firmly seize her, and are swept onward to great fortune.

From this combination sprang the Standard Oil Company, which in 24 years has earned for its stockholders over \$90,000,000, enriching its early stockholders in the "beyond the dreams of avarice."

For example: If Rockefeller, say, in 1865, not having learned that deposits at interest represent the minimum earning power of money, as length of childhood represents the minimum power of man--if, we say, not having learned this--he had bought in 1865 a 3 per cent certificate of deposit in the Chemical National bank of New York, his money to date would have earned him 3 per cent per annum, while, if he had BOUGHT SHARES OF STOCK in the Chemical

National bank in the same year, his money WOULD HAVE EARNED HIM 150 PER CENT PER ANNUM! Why, then, will men and women rent out their money? The bank will pay 3 to 4 per cent rental for its use. Enterprise pays the bank 7 to 10 per cent. Then enterprise invests the loan in such projects as Gordon Falls and is started on the road to fortune. In London, for example, the big banks lend to smaller private banks, the private bankers to note brokers, note brokers to merchants and time-check shavers, and these to merchants of the less conspicuous classes. Money, therefore, earns its smallest mites for the original depositor and scatters its earning capabilities along until it has ended its usefulness in enriching the man who puts it into the channels of his business.

FUNCTIONS OF A CORPORATION

A corporation, like a bank, is formed under corporation laws. Like a bank it issues and sells stocks, and like a bank it has shareholders and officers, and, like a bank, it is formed for the purpose of making money. We form a corporation as Mr. Rockefeller formed his.

EARNINGS MUST NECESSARILY BECOME THE MORE STUPIDOUS! Find something that people want--then manufacture it. The world will beat a pathway to your door."

to unite skill and capital, in order to carry on a business of some magnitude and importance, in place of a small business hitherto carried on."

But above all, we readers of The Journal must remember that we live in America, the magic land where people poor yesterday are rich today--a land of millions and millionaires. We are residents of the greatest country beneath the sun, and in a part of that country which is the equal of which is nowhere else to be found on earth. If we lived in China, the land where initiative is frozen, we might face the hopeless future, fully content to live and die--poor as the poorest of the harem of the earth. If we lived in tyrant-ridden Turkey, or lethargic India--lands with their future behind them--their pall of inaction could well chill our hearts and our souls. WE LIVE IN AMERICA--IN OREGON--IN PORTLAND--and

THE EARNING POWER OF MONEY IS LIMITED ONLY BY THE DEMAND OF THE PUBLIC FOR THAT PRODUCT! IF SUCH PRODUCT BE IN WIDE DEMAND,

WARRANTS WAIT TILL CURB RIGHT

Isaac Sweet, chairman of the curbing committee, asked yesterday afternoon at a special meeting that the executive board reconsider the curbing of Thompson street curbs from East Tenth to East Twenty-sixth street. Mr. Sweet will make a written recommendation to the board later that it take this action.

AT THE THEATRES

Amy Leslie on "The Clansman." Amy Leslie of the Chicago News said of "The Clansman" that "it palpitates with bold, dynamic truths that come straight from the shoulder from an energetic fighter without malice or cowardice." She added that the audience in McVie's theatre went wild over the play with a partiality which marked the majority as supporters of the stars and bars in the new drama.

The Pacific Bridge company originally had the curbing of Thompson street, and it is now the curbing to Miller & Bauer. This company will have a lot of work to do before it can get the city warrants which Mayor Lane was just about to sign when he received reports of the defective sidewalk. Other streets it is expected, will be affected, and many contractors are looking doleful.

Minstrel Comedian at the Orpheum. Arthur Deming, who is at the Orpheum this week, is one of America's best known minstrel-comedians, and he has won his way to the hearts of Portland audiences through his pleasing personality, which appeals to all. A great many of the old minstrel songs and "darky" tunes were written by Mr. Deming.

Interfere with a verbal battle between representatives of the Gamewell and Star fire-alarm companies, both of which are seeking to business in the city. The companies will give a demonstration to the executive board this afternoon before the curbing is opened.

Operatic Treat at Pantages. A rare treat is in store for patrons of Pantages theatre next week. The Zingari theatre next week. The Zingari theatre next week. The Zingari theatre next week.

The three newest members of the board--Messrs. Sweet, Montag and Smith--were appointed a committee by the mayor to buy a site for the proposed water tower.

Mystery Puzzles Pantages Audience. Is it a true saying that there is nothing new under the sun? For 3,000 years the world has had theatres and men and women have spent their lives in winning the plaudits of the public. It is never before has an act been staged like Madame Atra, the bullet proof woman, the mystery of mysteries, at Pantages.

OPENS THIS EVENING

The Pantheon, Under Management of J. D. Elder, Throws Doors Open in New Splendor.

Baker Company's Greatest Success. Another full week for "The Girl of the Golden West" is announced at the Bungalow, and that will make three straight weeks of unparalleled success for this most beautiful and fascinating play. Standing room only has been the motto for the past two weeks.

C. D. Elder, formerly of Seattle, has again shown his confidence in Portland by purchasing from Rothchild Bros. the Grant Scott place, known as the Pantheon, of 130 Third street. Immediately upon taking possession of the place, Mr. Elder put a force of carpenters and decorators to work remodeling and decorating the interior. The workmen have finished their task, and the doors of the Pantheon will be thrown open to the public Saturday evening, October 10.

Minstrels Tomorrow. The first minstrel show of the season will open a week's engagement at the Baker theatre tomorrow afternoon. This is the famous Richards & Pringle show, which for 29 years has been making thousands and thousands laugh.

Mr. Elder has shown his ability in managing a gentlemen's resort in the creditable manner he is running the Board of Trade buffet. The Pantheon will be run on similar plans, which are sure to meet the approval of the general public. All are invited to attend the initial opening.

"Isle of Spice" Tonight. The last Portland appearance of the gorgeous musical comedy "Isle of Spice," will be at the Baker Y tonight. This is the best attraction that has been seen at the Baker this year.

Y. W. C. A. DOMESTIC ART CLASSES POPULAR

Interest is growing in the domestic art classes of the Young Women's Christian association. Day and evening courses are being offered, for adults, under the supervision of Mrs. C. W. Dressmaker and millinery. Little girls are taught to sew upon dolls' clothes on Saturday mornings.

Musical Comedy Tomorrow Night. The attraction at the Hellig theatre, for four nights beginning tomorrow Sunday, will be the big new musical comedy, "A Knight for a Day." Included in the cast of this excellent organization is Bobby Barry, last seen here in "Little Johnny Jones." Seats are now selling at theatre.

In response to a demand for a school girls' class in shirtwaists, one will be organized at 2 P. M. Saturday to meet each week. Miss Waring will be glad to confer with any ladies in regard to the work.

Last Time Tonight at Hellig. The last performance of the famous political drama, "The Man of the Hour," will be given at the Hellig theatre tonight at 8:15 o'clock. This interesting play has been pleasing big audiences the past two nights. Seats are now selling.

WOUNDED PORTER KEEPS LIPS SHUT

With a gash in his throat five or six inches long, Joe Willmore, the day porter at the corner of Fifth and Burnside streets by Sergeant Kleinlin, was taken to the hospital and the wound dressed by City Physician Magler, who says the man will recover. Willmore refuses to tell who cut him, although he says he is running the department, and an effort will be made to get Willmore to divulge the name of his assailant.

The Four Corners of the Earth. "The Four Corners of the Earth," the new Kliment & Gaxiola spectacular melodrama which is playing at the Star theatre this week, appeals strongly to all lovers of a thrilling and different stage story. It is so attractive dramatically that it appeals to all well constructed play.

GRAPE-NUTS "THERE'S A REASON"

WHEN YOU CATCH COLD... Do not take chances on it wearing away or experiment with some unknown preparation which may leave the bronchial tubes and lungs weakened and susceptible to attack from the germs of Pneumonia or Consumption. FOLEY'S HONEY AND TAR... not only stops the cough but heals and strengthens the lungs and prevents serious results from a cold. Contains no opiates. Be Sure You Get Foley's Honey and Tar. There are substitutes made to sell on the good name of Foley's Honey and Tar. Beware of them. You should have confidence in a cough cure that has been sold with universal satisfaction for thirty-five years. The genuine Foley's Honey and Tar is in a yellow Package. See that you get it. Three sizes--25c, 50c and \$1.00. The 50-cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much. A Mother Testifies. This is to certify that my daughter was down for almost one year with a cold. The doctors finally pronounced it consumption. We had given up hope for her recovery. I was given a sample bottle of Foley's Honey and Tar. I gave it all to her in about three hours. It stopped the cough, and gave her rest. I sent her next day and bought a 50c. bottle and began giving it. In three months' time she was well. There can not be too much said in favor of Foley's Honey and Tar. It saved my child's life. Mrs. George Bateson, Fountain Grove, Mo. SOLD AND RECOMMENDED BY ALL DRUGGISTS

Oregon City Trains Portland Railway, Light & Power Co. Beginning Saturday, October 10, 1908, Oregon City trains will leave First and Alder streets as heretofore. Cazadero trains will leave East Morrison and Water streets. Passengers can take any car operating over East Morrison or Madison street bridges. Last Time for Salome Dance. Tonight will be the last opportunity to see Nedra Lannacome at the Oregon City. She has been the talk of all Portland for the past two weeks and those who have missed it have neglected their opportunities. Companies Incorporated. (Under Laws of The Journal) Salome, Tel. 18--Articles of Incorporation.
