GOSPEL'S FLAME BURNS BRIGHTER

Congregational Missionaries Report New Light in Heathendom.

(Special Dispatch to The Journal.) New York, Oct. 13.—The annual meeting of the American board of commissioners for missions of the Congregational church opened this afternoon in the Clinton Avenue Congregational church in Brooklyn. The visitors were greeted by the Rev. Albert J. Lyman, and the response was made by Dr. Samuel B. Capen of Boston, president of the board. Routine business was followed by the reports of Rev. Dr. Cornelius H. Patton, secretary of the home department, and the Rev. Dr. James L. Batorn, secretary of the foreign department.

Cleanliness in the Dairy.

To have healthful milk and butter, absolute cleanliness is necessary, as nothing will absorb impurities so quickly as milk. Milk buckets, strainers, etc., should first be rinsed with cold water to remove the new milk, which will curdle if brought in contact with hot water; then wash in warm water to which a teaspoonful of Gold Dust washing powder has been added. Rinse and scald thoroughly with clear hot water and leave in the air and sun for at least twelve hours before they are used again. Have plenty of clean cloths and a soft brush especially for the dairy and wash and scald them in the same way as the utensils.

WOMAN SUFFRAGISTS GATHER AT BUFFALO

(Special Dispatch to The Journal.) Buffalo, Oct. 13.—From across the woman suffragists are already arriving in considerable numbers and committee meetings are being held in preparation for the fortieth annual convention of the National American Woman Suffrage association, which will open in this city Thursday. As a preliminary to the convention of the national body the annual meeting of the state organization convened today. The sessions of both gatherings are to be held in the Y. M. C. A. auditorium.

WOMAN SUFFRAGISTS GATHER AT BUFFALO

The sessions of the national organization will continue six days and will be presided over by the Rev. Anna Howard Shaw. A fine array of talent has been obtained to address the various meetings, consisting of prominent men and women who have become famous for their devotion and labor along different lines of human activity. Among the scheduled speakers are Miss Jane Addams, Mrs. Florence Kelley, Mrs. Charles Edward Russell, Mrs. Stephen S. Wise, Rev. Amos A. Brown, Dr. H. H. Wood, Mrs. C. M. Thomas, Mrs. E. M. B. Thomas, Mrs. M. C. Harris, and Mrs. J. M. Harris.

JOIN HANDS FOR PROJECT CAUSE

Malheur Residents Seek Revival of Irrigation Scheme.

(Special Dispatch to The Journal.) Ontario, Or., Oct. 12.—The citizens and land owners of Malheur county are taking the initial steps in an organized effort to secure a revival of the old Malheur irrigation project, surveyed by the government about four years ago. The government has believed that the project of arid lands is now available for use in Oregon to the amount of about \$6,000,000, and it is believed that the prospects for renewing the Malheur project are excellent. If immediate steps are taken to bring the matter before the proper authorities, meetings are being held throughout Malheur county to arouse interest among the land owners and petitions are being prepared which

Malheur Residents Seek Revival of Irrigation Scheme.

will be presented to the secretary of the Interior asking that the department again take the project under consideration. The project includes lands lying along the Malheur, Snake and Owyhee rivers, surrounding the towns of Ontario, Vale, Nyssa and Wellso. Fifteen thousand acres are embraced in the project as surveyed by the government about four years ago. At that time the estimates on the work were completed, and if it had been taken up it would only be necessary to begin where the former work left off. The first meeting to consider this matter was held at Ontario Thursday night, and was followed by a similar meeting at Vale Saturday. At both meetings large numbers of interested farmers were present and sentiment was unanimously in favor of petitioning the government to take up the work. The meetings were addressed by Walter Griffith of Caldwell, secretary of the Payette-Boise Water Users' association, and D. R. Hubbard, treasurer, both men of wide experience in this work. Resolutions were adopted at these meetings signifying the desire of the people of Malheur county to do all in their power to bring about a revival of the project here. Several hundred dollars were raised by subscription to secure the services of men who can carry the matter forward until it is placed before the government. It is probable that Mr. Griffith will be selected to do this work. He will be busy for the next thirty days holding meetings in every country school-house in the county. It is believed that the project will be carried through successfully.

ANOTHER MASON RECOVERS

The recovery is reported of Mr. Z. Lawton, of 264 Fifth avenue, San Francisco. The case is especially interesting, due to the fact that the books declare chronic Bright's Disease incurable and five city physicians had passed on the case and diagnosed it as Bright's Disease. That it was in the chronic stage may be known from the fact that it was of several years' standing. The usual symptoms found in extreme cases were reported—excessive drooping, enlarged heart, and towards the last the patient could only sleep sitting up. For six weeks he slept in a chair. His weight dropped to 120 pounds. Mr. Lawton had a cousin, Mrs. W. E. Hoover, of Auburn, Cal., who also had an advanced case of Bright's. She had been tapped three times when she heard of Fulton's Remedy Compound, sent for it and made a fine recovery. This interested Lawton in the treatment and resulted in his recovery also. While he does not consider it yet complete the droopy has been eliminated and he has regained his lost weight and has been back in business for some time. He is a Mason, a member of Excelsior Lodge, and he has been called upon to recite his serious predicament and that they thought they would be called upon to purchase the Fulton's Remedy Compound, 121 Third street.

It is believed that the project will be carried through successfully.

ONE HUBBY DAYTIME; ANOTHER O' NIGHTS

(Quoted From Leased Wire.) New York, Oct. 13.—By the ingenious duplicity of Mrs. Catherine Stroebel, a dashing brunette, she for many years led each of two men to believe she was his true and loving wife. The revelation that the woman kept house part of every 24 hours for each came with the granting of a divorce to Philip Stroebel by Judge Aspinwall yesterday. The evidence adduced convinced the court that Mrs. Stroebel was the spouse of Stroebel during the day and the wife of Jacob Valusek, a clerk, when his day's work was done. Stroebel was employed as an engineer and worked at night. By clever excuses and manipulations the woman was able to fool the two men on Sundays, the only time when both were not working. Stroebel owes his enlightenment to the observant habits of his sister, Mrs. Matty Myers. The sister became suspicious and was able to verify her doubts, which resulted in the exposure of Mrs. Stroebel.

ONE HUBBY DAYTIME; ANOTHER O' NIGHTS

NEW BORAX CONCERN TO BUCK THE TRUST (Quoted From Leased Wire.) San Francisco, Oct. 13.—The announcement is made that a new corporation known as the Sterling Borax company has been formed for the express purpose of fighting F. M. Smith, the "borax king," of Death Valley, and a battle royal for supremacy in the borax world is looked for. The new concern is a consolidation of the American Borax company, the Stauffer Chemical company, the Brighton Chemical company and several allied corporations and has acquired valuable borax holdings in Death valley that are said to rival in wealth those owned by Smith. The Sterling company and Smith have clashed already in an effort both are making to purchase the Borax Properties, Limited, an English corporation.

SHOT IN HEART; YOUTH IS DEAD

Rifle Is Accidentally Discharged by 11-Year-Old Glen Kays.

(Special Dispatch to The Journal.) Sprague, Wash., Oct. 13.—Glen Kays, 11-year-old son of J. R. Kays, manager of the Supply company's lumber yard, and another lad of about the same age were hunting today with a 22-caliber rifle, a mile east of town toward Lake Colville. They drove a groundhog into a hole and the Kays boy began poking the butt of the gun into the aperture, when it exploded, the ball piercing his heart and killing him instantly. The parents of the lad are prostrated with grief. This accident follows within a week of the accident to Mr. Kays, when a circular saw caught his arm and nearly severed it.

United States Court of Appeals May Get to It Yet This Week. (Quoted From Leased Wire.) Chicago, Oct. 13.—It is announced that on account of the great pressure of court business the decision by the United States court of appeals in relation to the government's petition for a rehearing in the \$29,000,000 Standard Oil case, will not be handed down today, as had been expected. The opinion will probably be given the latter part of this week. Electric railways of the United States have attained a trackage of over 40,000 miles, nearly one fifth that of the steam lines.

There is scarcely any one, no matter how vigorous and healthy, who does not need a tonic sometimes. Little physical irregularities upset the system, the appetite fails, digestion is poor, the body feels tired and worn out, and other unpleasant symptoms give warning that the system is disordered and needs assistance to ward off, perhaps, some serious sickness or ailment. S. S. S. is recognized everywhere as the best of all tonics, nature's medicine, made entirely of healing, cleansing, invigorating roots and herbs, a systemic remedy without an equal. S. S. S. has the additional value of being the greatest of all blood purifiers. It re-establishes the healthy circulation of the blood, rids the body of that tired, worn-out feeling, improves the appetite and digestion, and brings about a return of health to those whose systems have been weakened or depleted. S. S. S. acts more promptly and pleasantly than any other medicine, and those who are run down in health should commence its use at once. It will thoroughly purify the blood and tone up the system. S. S. S. is admirably suited for a systemic remedy because it is free from minerals; it may be used without harmful results by persons of any age, and no unpleasant effects ever follow.
