

TARS' ALLY HERE TONIGHT

Furuseth Will Tell Union Men of Portland Why Taft Should Be Defeated by the Vote of Every Thoughtful Working Man.

Organized labor will protest against the candidacy and possible election of William H. Taft to the presidency of the United States at a mass meeting at the Armory tonight at 8 o'clock.

H. G. Parsons, president of the Central Labor body of Portland, will preside at the meeting, which will be addressed in chief by Andrew Furuseth of San Francisco, one of the best known leaders in the ranks of the American Federation of Labor.

Better Sailors' Condition.
Mr. Furuseth has for the past 15 years been a member of the legislative committee of the American Federation of Labor. In that time he has done more for the amelioration of the conditions among the sailors of the United States than any other one man. Himself a sailor at one time, he was aroused at the evil conditions and lack of legal protection which the sailors struggled

against. He began a campaign for the betterment of these conditions which resulted in the enactment of federal legislation which has put the sailor among the ranks of free men, where formerly they were virtually slaves. Mr. Furuseth is a noted speaker, sharp and forceful in his utterances and logical in the presentation of his subject. He also is deeply grounded in the subject which he will treat tonight and it is expected that his address will be not only interesting, but very instructive.

Why Opposed to Taft.
In his address the speaker will outline the position of the American Federation of Labor in regard to the presidential campaign and will tell why it is that the organization is exhorting the union labor men of the country to defeat Taft for president.

Short addresses will be delivered by C. O. Young, general organizer of the American Federation of Labor for Oregon and Washington, and by George H. Howell, ex-president of the Typographical union of Portland. A band furnished by the musicians' union will provide music for the meeting.

URGE EAST SIDERS TO PURCHASE TICKETS

At a short and, owing to the inclement weather last night, lightly attended meeting of the United East Side Push clubs in the clubrooms in the Sargent hotel, a set of resolutions was adopted endorsing the Portland Country club in its efforts to sell season tickets for next year and urging all residents of the east side to purchase tickets. The club was unanimous in praising the work of the Country club.

Dr. C. H. Rafferty, a member of the water board, outlined to the members the work of the board as to the new pipe line to the Bull Run river, the meeting was changed from Tuesday to Thursday and the question of a banquet was discussed but laid on the table. The meeting then adjourned. But little important business could be attended to owing to the absence of so many members.

Take your mid-day lunch at the Perkins Grill. Music.

BOZORTH WINS TILLAMOOK SUIT

The case of George W. Elliott against Scott Bozorth and John Waterman involving title to certain land, appealed from Judge William Galloway's court in Tillamook county, was reversed in opinion by Commissioner Slatter at Salem. This gives Mr. Bozorth absolute title to the premises.

In May, 1906, Bozorth purchased from John Waterman 145 acres of land, being a part of the peninsula separating Tillamook bay from the Pacific ocean which has since been purchased by the Potter-Chapin Realty company in connection with several other tracts. Bozorth procured an abstract of title and his attorneys examined it, finding the record title to the premises to be vested in John Waterman, but was surprised a few weeks later to receive a demand from George Elliott, the former owner of the premises, claiming the land on the ground that a warranty deed which Elliott had executed to Waterman was intended as a mortgage and making the further claim that Elliott still retained possession of the premises.

Mr. Bozorth investigated these claims and being satisfied that they were unfounded in fact paid no further attention to them until a suit was brought in the circuit court for Tillamook county by Elliott in which he sought to have his deed to Waterman declared a mortgage and asked leave to redeem. Waterman defended the suit on the ground that the warranty deed was intended as a bonafide sale of the fee simple title of the premises while Mr. Bozorth defended the defense of a bonafide purchaser.

LAY MAINS BEFORE PAVE

City Will Save Thousands of Dollars to Property Owners—City Engineer and Water Engineer Will Hold Conference.

Consideration of reinforced concrete as material to be used in the construction of water mains and the conduits of the second Bull Run pipe line took up a large part of the water board's time at its meeting yesterday afternoon. No action was taken pending further investigation, as it was shown that the value of concrete is a somewhat uncertain quantity according to report of the government engineers who have made extensive tests.

A plan evolved by Mayor Lana will, it seems, be soon put into practice by the board, and will save property owners many thousands of dollars annually. This plan is for water mains to be laid ahead of street improvements, thus obviating the tearing up of pavements and other expensive work.

The water engineer and the city engineer under this regulation will hereafter confer with each other before taking any steps to make an improvement. Whenever a street is about to be paved the city engineer will notify the water board and mains will be put in before the street work is begun.

A resolution made by R. B. Lanson was adopted. This calls for an opinion of the supreme court altering the former practice of the board in this respect.

A written report was received from the city attorney advising the board that it had no legal authority to pay for special counsel in the Mount Hood railway case.

The board ordered plans to be prepared for the erection of a water office on the east side to cost nearly \$20,000.

MAKES APPEAL FOR REPUBLICANS
Will H. Thompson of Seattle, firm champion and stump speaker for Bryan in the campaign of 1896, then trial attorney for the western district of the Great Northern and now firm champion and stump speaker for William H. Taft, delivered an address last night at the Armory in behalf of his present choice for president.

There was not a very large attendance at the meeting last night which was planned by the state central committee to be the second largest Taft rally of the campaign. The slim attendance was charged up by the management to the rain which continued throughout the evening.

Judge Thompson is an eloquent and a forceful speaker and held the attention of his audience well last night. He is well known throughout the northwest

and Taft. He said that Roosevelt had done more in one day than Thomas Jefferson did during three months of his administration. In discussing the administration of Taft in the Philippines the speaker contended that no nervous or excitable man could have accomplished what he did.

The speaker then took up the discussion of Mr. Bryan and contended that the candidate never had advanced a principle of government which would bear the scrutiny of a thinking man.

"Has he ever favored a measure," asked the speaker, "but that either in theory or practice has not proven a failure?"

Mr. Taft, the speaker said, was a great lawyer, a great judge and a great secretary of war. Every task he had been set to do he had accomplished.

In closing his address Judge Thompson made an eloquent plea for the support of the Roosevelt administration by the election of Taft. He will speak tonight at Forest Grove.

FRANK L. SMITH MEAT COMPANY

"FIGHTING THE BEEF TRUST"

226 Alder Street, Bet. First and Second Streets
