

SUPPERS PREFER PORTLAND ROUTE

Oriental Liner Nicomedia Brings Large Overland Freight.

MEANS BUSINESS FOR LONGSHOREMEN

Instead of Discharging Freight Destined for Points East at San Francisco, Liner Will Bring Bulk of It to Portland.

The German steamer Nicomedia of the Portland & Asiatic line will bring 1,300 tons of overland freight when she arrives here next Friday or Saturday from the orient.

This will be the largest overland freight cargo brought here since Manager Schwinn of the Harriman water lines concluded to have the Portland & Asiatic line call at San Francisco coming this way, and would probably not have come through here but for the continuous consignments to have it routed via Portland, which they consider the most advantageous.

The steamer was ordered to call at San Francisco for the purpose of bringing as much rail business as possible to the southern Pacific out of San Francisco, but consignees and shippers alike immediately set up a protest because of the new arrangement affording them poorer service. Some even threatened to transfer their patronage to other lines unless their wishes in the matter be given some consideration.

ALLAN WARDNER DEAD

Typhoid Fever Claims Employee of Portland & Asiatic Line.

Allan Wardner, who for the past four months was connected with the office of the Portland & Asiatic Steamship company, died at St. Vincent's hospital last night of typhoid fever after an illness of five weeks. The remains will be shipped to Windsor, Vt., where his parents reside.

LARGE FREIGHTERS LEAVE

Steamers King George and Nevada Off for Destinations.

Two large freight steamers left Portland harbor today for their respective destinations with valuable cargoes, one going to Europe and the other carrying goods destined for the Atlantic coast of the states, transshipment to be made at Salina Cruz by way of the Tehuantepec railroad.

WIRELESS AT EVERETT

Electrician Installs Apparatus for Handling of Messages.

Everett, Oct. 16.—Harry P. White, a local electrician, has perfected a wireless apparatus, secured permission to erect a mast on top of the American National Bank building, and is preparing for commercial business. At his experimental station he has been for some time by communication with steamships and land stations along the coast.

ALONG THE WATERFRONT

The steamer George W. Elder sailed last night for San Pedro and way ports. The steamer Homer sailed for San Francisco last night carrying freight and passengers. The barkentine J. M. Griffith which reached Astoria yesterday is booked to go to Seattle to load railroad ties for Guzman, Brazil.

Want Every Weak Man

To know that I guarantee to cure him before he needs pay me one cent. I KNOW that I can cure any case of Men's Diseases

That I accept for treatment. I have two good reasons for making the above statement. First, my treatment will positively cure any curable case. Second, under no circumstances will I attempt to treat any case that I am not positive I can cure. When I refer to incurable cases I do not mean cases that other doctors have failed to cure, or that have been pronounced incurable by others. I mean cases that I know to be incurable. I readily cure 90 per cent of the cases that other specialists fail to cure. Therefore I want you to call and let me examine you and determine the extent of your ailment. I will be frank and honest with you in every particular. Remember, that very few cases indeed are incurable by my treatment. See me without further delay.

I Cure the Cases Others Cannot Cure. I claim to cure cases that are beyond the possibility of aid by ordinary forms of treatment, to cure every case I undertake, and to cure permanently and in less than the usual time required. All these things I actually do, and that is why I am known as the foremost specialist treating men's diseases, and why my practice is the largest of its kind west of Chicago. You can depend absolutely upon every claim and promise I make, because my reputation is at stake, and I am morally, legally and financially responsible in all my endeavors.

You Can Pay When Cured Varicocele Cured Without Cutting

The time was when every man afflicted with varicocele had no choice other than to allow the disease to go on undermining his power and health or to submit to a surgical operation. Now he can choose a thorough cure by painless treatment. I cure varicocele in one week, and it is seldom necessary that the patient be detained from his business even a single day. My method is original with myself, and it is the only safe and successful treatment for varicocele ever devised.

My Successful Treatment of Weakness

Dosing the system, with powerful stimulants and tonics in an effort to restore functional vigor can have but one final result. The condition is rendered worse than before. "Weakness" is merely an indication of a low form of inflammation, and this inflammation is but aggravated by stimulating remedies that excite temporary activity. I employ the only scientific and fully effective treatment for "weakness," which effects a permanent cure. I obtain complete results in every case I treat.

In Uncomplicated Cases My Fee Is Only \$10.00

You Pay When Cured SPECIFIC BLOOD POISON. No dangerous minerals to drive the virus to the interior, but harmless blood-cleansing remedies that remove the last poisonous taint.

FREE VARIICOELE

Absolutely painless treatment that cures completely in one week. Investigate my method. It is the only thoroughly scientific treatment for this disease being employed.

FREE EXAMINATION FREE

I offer not only FREE Consultation and Advice, but of every case that comes to me I will make a Careful Examination and Diagnosis without charge. No ailing man should neglect this opportunity to get expert opinion about his trouble. If you cannot call, write for Diagnostic Chart. My offices are open all day from 9 a. m. to 9 p. m., and Sundays from 10 to 1.

WEATHER REPORT

The western disturbance has developed into a large and deep oval depression, the center of which extends from Colorado northeastward to Minnesota. During October 12-14 hours the barometer has risen very rapidly over the north Pacific states. The eastern high pressure area has remained nearly stationary. Light rains have fallen in the Pacific states as far south as San Diego, and in the Rocky mountain states as far south as Wyoming and northern Utah. No rain of consequence has fallen anywhere in the eastern states. It is much cooler in California, Nevada, Utah, southern Idaho and Wyoming, and correspondingly warmer in Pennsylvania and New York. The first snow of the season in the Sierras occurred yesterday afternoon, and snow was also reported this morning in southern Utah. The indications are for generally fair weather in this district tonight and Saturday. It will be cooler tonight in southeastern Idaho, and light frost may be expected Saturday morning in the interior of western Oregon.

The statement of the curious pathological effect of cholera upon persons in the case of the same thing during the yellow fever epidemic in the southern states, was said to be a very young girl, who was excited and frightened when the people that towns were put under military law and persons were forbidden to stop in the streets and chat. Women were forbidden to wear yellow ribbons, yellow gowns, or any other thing that might excite a panic. It was a very young girl, and when the fever broke out in one of the towns, she was taken to a city further west. When she reached the city the authorities found the case of cholera, and she was taken to the hospital. She was sent back to her home in the town she reached there, and she died. The only one left of her entire family—they had all died with the cholera.
