CHURCH MUST HAVE MESSAGE

Cannot Fill Modern Needs Otherwise Says Dr. Heppe

Says Dr. Heppe. "If the church of today is to meet researt-day needs, it must have a true, can cut evangelical message." said Rev. W. H. Happe at Grace Methodist piscopal church yesterday. "The needs of the hour are so big with destiny that the church, to be equal to the demands, must deliver a message that will fit into our period, and reach and transform the thought and heart. Sunnyside Church. The two most difficult tasks in a minister's life are saying good-bye to an old congregation and preaching the first sermon to a new one, according to Rev. W. T. Euster, who delivered his first sermon at the Sunnyside Metho-dist church yesterday morning. The new pastor asked his audience that he wished to have a heart-to-heart talk with them. He wanted his congre-gation to aid in making the church a broad-gauge institution, he said. All the railroads are broad-gauged, now, where they were once narrow, and churches must work on the same prin-cipal, he said.

THINKS BONE SHARK

SWALLOWED JONAH

Captain John Ell, who spoke at a men's meeting held in the Y. M. C. A. auditorium yesterday afternoon, is cer-tain that Jonah was swallowed by a big fish. The only part of the Old Testament story which is discredited by Captain Ell, who has spent the greater part of his life at sea, is that Jonah was swallowed by a whala. "There are no sperm whales in the Mediterranean sea," said Captain Ell. "Jonah must have been swallowed by a bone shark. This shark is sometimes 50 feet long and has a throat big enough to swallow the largest New York city alderman without the least difficulty. "Or all the things that a 'whale' ever tackled," he continued, "that back-sliding preacher was the limit. Al-though a natural scavenger of the sea, the best that famous old bone shark could do was to hold him down three days."
