

# ASKS COURT TO PREVENT FLOOD

## California Town Wants the Dredge Stopped Before Mischief Is Done.

(United Press Leased Wire.)  
San Francisco, Oct. 20.—Whether a given deposit of tailings from gold dredging operations would be responsible for a flood or not is the question that is to be settled before the United States circuit court in the case of the City of Oroville against the Indiana Gold Dredging company, which is operating in the upper Feather river. The case is being tried today before Judge Frank S. District of Boise, who is noted for his decisions handed down in mining cases in the middle west.

Attorney Ralph Harrison for the mining company contends that a flood is a visitation of God and cannot be charged to any act of existing conditions nor prepared against.

United States District Attorney Devlin, who is attorney for Oroville, claims that if the present mining operations are carried on the town of Oroville will be endangered because of the filling up of the channel of the river with tailings. And the consequent spreading out of the volumes of flood waters over the lower sections of land.

It has been a struggle to get before the people the dangerous facts, the hidden underground facts, relating to the plans for control of the liberties and affairs of the common citizens by the adroit managers of the huge "Labor Trust" known as the American Federation of Labor.

These managers are seeking power even superior to that of the president of the United States.

When I first started publishing these articles discussing labor matters, nearly the entire list of papers published them, but there were a few afraid to print them although offered full pay.

Fair Union Men  
To the credit of the Typographical union let it be said the majority of its members are too intelligent to refuse to set type on either side in discussion of a principle, realizing that the columns of a newspaper must be unhampered.

Honest Union Men Helpless.  
Let an honest union man raise his voice in protest at a union meeting and the "men of violent tendencies" cry "him out of window" and if he don't shut up he may expect to be violently and effectively shut up.

Have You Noticed.  
Reader, how adroitly the Leaders of the Labor Trust work to gain more and more control over the liberties of the people?

Threats are made to City, County, State and National officers and public men, either of defeat or violence for judges and jurors, and the number of citizens assaulted or murdered and property destroyed in an active Labor Trust year exceeds by far the amount of violence which ever occurred in any one year during pro-slavery days.

Uncle Sam's Way.  
If only ten Americans had been slugged and maimed and one killed in a foreign port, ample apology would have been made and ample funds exacted for the support of the injured families at the expense of Uncle Sam's 11-inch guns, or some people and some things would have been blown off the face of the earth.

Paris, Oct. 19.—The esteem in which the American inventor Wilbur Wright is held here is indicated by a movement begun today to obtain for the aviator the decoration of the Legion of Honor as a reward.

What Are Injunctions.  
"Now what is an injunction" some one asks. When it becomes known that the trust leaders plan to have their sluggers waylay other workmen and assault them, or picket and spit on and insult or attack American citizens going to or coming from work, or plan to destroy some machinery, blow up a factory, mine or workman's home or do any other act of violence or crime, the courts established by the people and for their protection can issue a "restraining order" or "injunction" ordering these men not to do the acts they intend, until the court can have time to inquire into the rights in the case.
