## MARKET MOST LINES ARE DOING BETTER

### PRICE SHOWS A SHARP UPWARD SWING WITH BIG RISE IN NEW YORK OF LATE.

Portland Wholesale markets: Mixed tone in egg market. Sugar advanced 20 cents today. Cabbage market is weaker. Frost-killed onions are spoiling. Easy tone in potato market. Chicken demand is steady.

**Sugar Advanced 20 Cents Today.**

An expected advance of 20c per 100 pounds in the price of refined sugar occurred in the Portland and other Pacific coast markets today. The advance was quoted by the Portland Western Sugar Refining company and the California & Hawaiian Sugar company. By the shipping trade the advance has been expected since Wednesday. The second of a very sharp advance occurred in eastern sugar prices. While some of the advance was due to a surprise owing to the record-breaking crop in the Hawaiian islands, the fact that other world's producing sections shows a decrease, was what tilted the scale of the market upward.

**Mixed Tons in Egg Market.**

There is a mixed tone in the local egg market. While those who receive eggs occasionally from the western stock are able to secure 40c a dozen or strictly fresh local stock, those who secure most of the shipments say they are unable to get 40c. Their regular trade refusing to purchase because they stated they could buy elsewhere at lower figures. Some of the trade expected others of substituting eastern stock for Oregon eggs and thereby cutting prices on the day. In any event all the money in the egg business at the present time is being made by the handlers of eastern stock.

**Red Blood is Flowing Again.**

"Good, red blood is flowing again in the veins of the livestock market with the possible exception of steers, which are extremely dull and lower," says S. P. Gould of Gould & Benson today. "The demand for those who wanted just what the improvement in tone is easily noticed. Cows are in excellent inquiry and top prices are still secured for select lots."

**Chicken Market is Steady.**

There is a steady tone in the local chicken market. While the receipts were somewhat better than expected last week, the demand was sufficiently increased to take up all offerings at 12 1/2c for mixed lots. Those who wanted to clean up at this figure could have done so, but some expected a higher price but did not secure it. There were carried over some coops from Saturday.

**Frost-killed Onions are Spoiling.**

According to a prominent onion grower, a large portion of the onions shipped from some weeks ago, are not spilling and are already unfit for market. Some of the shipped onions are being sold at right prices to immediate consumption. This means therefore that somewhat over one-half of Oregon's onion crop is being sold at a loss for market when the expected southern demand materializes.

**Very Quiet in Potato Market.**

With larger offerings of potatoes and an active abundance of outside demand, the local potato market is very quiet at this time. A large per cent of the city demand is being filled by farmers who are selling at a profit. Supplies of local celery are still quite liberal and stocks from California are therefore not in a condition for market when the expected southern demand materializes.

**Yard's Representative Sales.**

The following prices are representative of the largest transactions in the yard's market, and indicate the extent of the demand for the various grades and weights with the prices therefor:
