CRACK SHOTS TO USE BOTH RIFLES

Telescopes Aid Sharpshooters in Playing on Targets at Long Distance.

An interesting test of the new telescopic sight intended for use in the army was recently made by Captain K. K. V. Casey on the District of Columbia rifle range, under the auspices of the military publication "Arms and the Man."

Captain Casey is generally considered the best long distance shot in the country and his work with the telescope sight is pronounced wonderful. He used a model of 1903 rifle and shot at 1,760 yards, or just one mile, firing on a regulation C target at the 1,000 yards butts. Both the range and the telescope sight were unfamiliar to Captain Casey and the ground on which he lay was unsuitable to firing and approximated rough service conditions.

He got the range at the first shot and stayed on the target throughout a string of 20 shots with the wind about 22 miles an hour. In the course of a long and careful report Captain Casey says the sight as now placed on the gun is in a position that makes it practically useless from a military standpoint, so he moved it forward two and one half inches during the test. He advances a number of other criticisms of a technical character, but says: "It clearly demonstrated its practical value as a service sight, not only for the sharpshooter, but even for the general run of men in line of battle.

He also says: "It certainly will enable a man to be more certain of his hold and prevent errors of improper sighting. With the regulation service sight it was impossible, on account of intervening leaves and undergrowth, to see the target over the sights, but with the telescope sight the target could be seen sufficiently well to sight on, thus showing the advantages of the telescope sight in cover." Captain Casey is the present holder of the Wimbledon and Leech cups, the most famous trophies in the country for long distance shooting with the military rifle.

The idea of indoor rifle contests for schoolboys which resulted in interesting contests in New York and Washington last year, is spreading and Boston will have one during the coming winter. New York and Washington will renew their contests and it is hoped that similar shoots will be held in Baltimore and St. Louis. The regular military model .22 rifles are used and after training with these the boys go on the outdoor range and make excellent scores. The National Capital Rifle and Revolver club of this city, which handles the school boy shoot, expects to have an outdoor contest next spring for the school boys on either its own or the national guard range.

Although the Krag has been relegated to the rear by the new Springfield, the old gun is still a favorite with many marksmen, who claim that it is superior to the new arm. It was used in a number of matches during the summer and more than one prize was won by the Krag against the new Springfield. An interesting suggestion has been advanced that a match be arranged between Major C. B. Winder of Ohio, a noted shot, and a staunch advocate of the Krag, and Captain K. K. V. Casey, an equally celebrated shot and an advocate of the new gun. Such a match would excite the greatest interest in the rifle world.

In the annual report to the war department, Brigadier-General Frederick D. Grant, commanding the department of the east, makes some interesting recommendations concerning rifle practice. He recommends the use of moving targets, single figures and groups, in all army small-arms work, in place of stationary targets, as in war almost all targets would be moving. He notes that the nearest government ranges to the troops stationed at Washington, New York and Boston are 474, 330 and 108 miles distant, respectively, so urges the acquiring of suitable ranges near all three cities. He suggests that if a school of musketry be established in the east, similar to the one at Monterey, Cal., it should be located at Fort Ethan Allen.

STEPHENS SCHOOL TAKES FIRST GAME

The Grammar School Athletic league opened yesterday when the Stephens school defeated the Brooklyn school 10 to 0. Superior teamwork and weight on the part of the Stephens school was responsible for their victory. Scores of juvenile rooters watched the game, which was played at East Thirteenth and East Davis streets. Fathers and mothers and big sisters and big brothers were also there to lend their support to the nervous youngsters.

Seven minutes after the play began, the Stephens school scored a touchdown. The second touchdown was made later in the same half. In the second half Brooklyn braced, and on several occasions came within striking distance of the goal line, only to lose the ball on fumbles or downs to their heavier opponents.

Brooklyn's star players were Quarterback Wilson, Rufner, Adams, Selberts, Mathiot, Agnew, Hule and Rasmus. Stephens' best players were Morrow, Phillips, Lancaster, McLynn, Elliott, Temple and Phillips. The lineup was as follows:

Stephens.		Brooklyn.
Roy Rufner	L. E. R.	Agnew
Livingston	L. T. R.	Thompson
Hanson	L. G. R.	Hule
A. Rutherford	C.	Smith
Phillips	R. G. L.	McDonald
Lancaster	R. T. L.	Rasmus
Temple	R. E. L.	Mathiot
Morrow	Q.	Wilson

HONOLULU LIKE OTHER CITIES NOW

(United Press Leased Wire.)

Honolulu, Oct. 27.—After the approaching election the city of Honolulu will be an incorporated municipality, with a mayor, board of aldermen and all incidentals of American city life, such as political machines and civic problems. The charter, which was granted by the last legislature, was held up for several months, but the supreme court has recently decided that it was valid.

ACADEMY LOSES TO ASTORIA MEN

Cobb's Beautiful Drop Kick Saves Teammates From Coat of Kalsomine.

Portland academy played poor ball when they were defeated by East Side High school last Wednesday, but the quality of ball played by them yesterday was 10 shades worse, and Astoria High school won, 12 to 4. The only redeeming feature of the Portland boys' playing was the pretty drop kick which Earl Cobb, the academy quarter, made from the 25-yard line near the close of the game.

The class of ball put up by the Astoria boys was very good, the work of Upshur and Morton being especially noticeable. Upshur was a star in every department of the game. He made frequent and telling gains with the ball, tackled fiercely and as the punter of the team outclassed Cookingham. Morton, as end, was in every play and when carrying the ball in and end-around-end play made several long gains.

Cobb's drop kick made near the end of the second half was a beauty and more than made up for a disastrous fumble by him early in the game. An outside kick had worked the ball down to the 25-yard line from the center of the field, but in two downs the academy backs failed to gain an inch. Cobb dropped back for the kick and in the face of poor support from his line made the goal.

Five Men Closing In.

There were at least five men closing in one him and he just did get the ball away in time. The ball sailed squarely between the posts and high enough to have been good from the 40-yard line instead of the 25. This was Academy's only score.

Astoria scored twice, once in the first and once in the second half, the first touchdown coming within three minutes after the whistle blew for the kickoff. P. A. kicked off 25 yards to Rogers. Parker, the Astoria fullback and captain, made four yards on a straight line plunge. Upshur made seven yards and Short 14 yards on two cross bucks, but on the next two downs the academy line held and Astoria kicked. The kick was a beauty and carried clear to the goal line. Cobb in his eagerness fumbled and Morton, the Astoria left end, fell on the ball for the first touchdown. There was no further scoring in the first half.

In the second there was little doing till near the the end, when both Academy and Astoria scored. Astoria's score came through a long run by Morton and the recovery of a fumble back of the line by Simes, the Astoria center. The man had a clear field when he recovered the ball and easily made the touchdown. The lineup.

RED HOT GOSSIP FOR RABID FANS

Seven no-hit games were played in the American association during the season just closed. Jess Stovall, the former northwest player, pitching for Louisville, beat Minneapolis April 28, 2 to 0, being the first game. The seventh was won by Rube Marquard of Indianapolis, now of the New York Giants, who beat Columbus, 7 to 0.

Ban Johnson, president of the American league, is after the scalp of Joe Cantillon, manager of the Washington team of the American league. Cantillon accused some of his players of laying down to Detroit in the concluding series with Cleveland. If Joe can't prove the assertion Johnson threatens to chase him out of the league.

* * *

Napoleon Lajoie has the distinction of being the only player in the American league to take part in every game. He participated in 157 games, and is credited with 582 times at bat. He batted .289, getting third in the number of base hits, with 168. He scored 76 runs.

Today the Beavers line up against the Angels for the last week of play of the Pacific coast league. All that Portland has to do to cinch second place is to win one game of the series. However, the Beavers will try to take as many games as possible from the southerners just to show them a few things.

Jap Navy Builder Dead.

Tokio, Oct. 27.—Viscount Enomoto, one of the founders of Japan's modern navy and one of the most distinguished statesmen in the empire, died at his home here today at the age of 73. A public burial is to be accorded and it is expected that a state funeral will be arranged.

JIM CORBETT MAY REFEREE TOURNEY

James J. Corbett, former world's champion, but now a Broadway favorite, who comes to Portland next week with his theatrical company, will be asked to officiate at the Seattle-Multnomah interclub boxing and wrestling tournament, Friday night, November 6, provided he can find time. Corbett is always willing to assist in amateur affairs and if he can possibly get away from the theatre will reach the club in season to referee the last boxing bout.

Two preliminary bouts are on the card and the ones who will go the four-round route will be selected Wednesday night. A large number of candidates are trying for the preliminary events and competition will be keen. For the principal events Henry Neicken will represent the club in the 125-pound boxing match and Ralph in the 145-pound event. Edgar Frank will be the 125-pound wrestler and E. D. Smith the 135-pound grappler. This quartet will meet the Seattle four in the interclub tournament.

SOLOMON LEADS IN POOL TOURNAMENT

Henry Solomon, the local pool champion, increased his lead over the young California challenger, Hueston, 21 points last night in the general total. The play for the evening resulted 125 to 83 in Solomon's favor. Both players were even at 80 balls but Hueston broke badly and Solomon pulled away.

The first night's play, Saturday, resulted in a victory for Tueston, 125 to 99, while on the second night, Sunday, Solomon made up lost ground, beating the Californian 125 to 120. Play will be resumed tomorrow night, Friday and Monday nights.

BOILER EXPLOSION; TWO FATALITIES

(United Press Leased Wire.)

Redding, Cal., Oct. 27.—Louis W. Start, a boilermaker, formerly employed by the Moffett sawmill at Siskiyou, died today as the result of injuries received yesterday when a boiler at the mill exploded, killing Louis Neeley, the night watchman, instantly. The mill is one of the largest in this section of the country between Edgewood and Weed. The boiler had been leaking and Neeley called Start to mend it. He told the boilermaker that there was but 30 pounds of steam, and he went to work.

A few minutes later a terrific report was heard. When the workmen arrived the boiler was found to be a twisted heap of scrap iron and the boiler-house a wreck. Neeley's body, with the head severed, was found over 200 feet away.

Start was found under a traction engine 50 yards from the boiler-room. The front part of his skull was crushed and he was unconscious. He lived until this morning.

JAP PERIL ALARMS WINTERS MERCHANTS

(United Press Leased Wire.)

Winters, Cal., Oct. 27.—Business men here are alarmed by the perusal of figures gathered from the leading orchardists and farmers of the community regarding the labor situation. According to the figures, there are not more than 70 white laborers employed in the whole district. Many of the orchards and farms are owned by Japanese and all those owned by white men employ Japanese help. It is stated that during the pruning season, which has just closed, the Japanese contractors employed white men and women. The business men say the Japanese patronize their own stores and that the influx of the brown men is bad for white merchants.

Rare Coins to Be Sold.

(Special Dispatch to The Journal.)

New York, Oct. 27.—Coin collectors from all parts of the United States are in town to bid for the many rare pieces to be sold by Walter S. Scott at the Collectors' club today and tomorrow. The collection to be dispersed embraces many gold coins of rare types and varieties. Almost a complete list of dates of $3 gold pieces is to be offered, which range from 1854, the first year of issue of the denomination, up to and including 1889, when the coinage was abandoned. Other coins in the collection include 30 specimens of the $5 gold piece, dated from 1795 to 1849, and showing many of the coins of this denomination struck at the branch mints of New Orleans, Dahlonega and Charlotte. Sixty tiny gold dollars, representing almost every year of issue of this smallest of United States gold pieces, also will be offered.

Important Meeting of Miners.

(Special Dispatch to The Journal.)

Pittsburg, Pa., Oct. 27.—Important matters affecting 40,000 coal miners in Pittsburg and vicinity will be discussed and acted upon at the district convention which opened here today. While there has not been any serious rupture between the operators and the miners, the latter are dissatisfied with some of the working conditions, especially the checkoff system, and will take steps to remedy them.

Orphan Girl Disappears.

(United Press Leased Wire.)

Los Angeles, Cal., Oct. 27.—Detectives are trying to find Lorraine Moody, a 16-year-old orphan, who mysteriously disappeared from the home of her foster-mother, Mrs. K. Churchill, last Saturday. Until recently the girl had been employed as an operator in the Home Telephone Exchange. Sunday she told Mrs. Churchill she was going to look for work in some private family. Since then she has not been heard from.

HIGH SCHOOLS TO PLAY TOMORROW

East and West Side in Second Annual Championship Game.

The second annual football game between East Side and West Side High schools will be played on Multnomah field tomorrow afternoon at 3 o'clock. Both schools are in a state of great excitement and all are hoping that the present perfect football weather may continue till after Wednesday. It used to be the Portland academy and West Side High game which attracted all the attention, but East Side seems to have taken academy's place now and for the second time will line up against the rival high school tomorrow.

At West Side the students have held regular yelling practice almost every Wednesday night since school opened and under Yell Leader Kenny McAlpin, have developed a fine bunch of rooters. Tomorrow afternoon they will form on Fourteenth street 500 strong, and armed with megaphones, will march to the grounds. Unless it is East Side there is not another school in the city which supports a team so loyally as does the old High school.

The fighting spirit has not been with the students alone, but every member of the West Side team is confident that his team will win. The boys have been practicing hard and under Coach Jordan's guidance are now traveling at top speed. They worked out on Multnomah field for several weeks until scouts from the east side kept them from practicing anything new there. Since last week they have been perfecting new plays on West End field, about two miles from town.

East Side Works Hard.

East Side, too, has been working hard, both team and students. Under Herbert Cooke the rooters have been practicing for some time, while Coach Rader has been working the team at a fast clip all week. East Side will go into the game with practically the same lineup as she used against P. A. and is confident that she can win. West Side outweighs the east siders about 13 pounds to the man and is fast as well. This does not bother the east siders, however, for they have every confidence in their team, since they defeated P. A. so decisively and expect them to duplicate on West Side.

The teams will line up as follows:

West Side.		East Side.

S.S.S. CURES SKIN DISEASES

When the blood is pure and healthy, the skin will be soft, smooth, and free from all blemishes and eruptions; but when some acid humor takes root in the circulation, its presence is quickly manifested by some form of skin disease. The skin receives its necessary nourishment and strength from the blood. When, however, this vital fluid becomes a humor-laden stream, it can no longer preserve the healthy, natural appearance of the skin, but by its acrid, impure nature continually irritates and inflames the delicate tissues and fibres and keeps the cuticle in a diseased and disfigured condition. External applications cannot reach the blood, and therefore are beneficial only for their ability to reduce inflammation, and assist in keeping the parts clean. To cure any skin trouble the blood must be purified of the humors that are causing the trouble. S. S. S. drives out the humors from the blood so that the skin, instead of being irritated and diseased, is nourished by a healthy, cooling stream. S. S. S. goes down into the circulation and removes every particle of impure matter, all acids and humors, and restores the blood to its normal, pure condition, thereby curing every form of skin disease or affection. Book on skin diseases and any medical advice free to all who write.
