It, and my business standing and bank refer-succes assure the patient that my guarantee is absolutely binding. I do not think I can show better faith in my ability and methods than my unqualified offer to patients. Many a youth of splendid promise has failed because of some weakness, the nature of which made him delay seeking medical aid until it had become serious, and greatly in-jured his life's opportunities. I have seen thousands of these cases, and have heard the story of their suffering. Usually there is also a history of incompetent treatment by family doctors, patent medicines: electric belts and unprincipled medical institutes and so-called "specialists."

over 25 years.

"specialists."

for

so-called

Driscoil, you know well that there are certain reasons why we don't." After the excitement had somewhat subsided the committee went on with its business. No one knows yet what bearing the heated remarks of the se-lochimen had on the question before the committee.

RESULTS ARE THE ONLY TEST

I make definite claims for my methods of treating Men's Diseases, I claim originality, distinctiveness, scientific correctness and unap-proached success. Every one of these claims is backed by substaintial proof. The best evidence of superiority are the cures themselves. My treatment cures permanently those cases that no other treatment can cure. This test has been made over and over again, and a majority of my patients are men whe have failed to obtain issting benefit elsewhere

Can any reasonable man desire a more fair test of my methods than to let me cure him first and to pay the bill when he is well? No man could be fairer than that. I take all the risk. You take none whatever. You have everything to gain and absolutely nothing to lose.

WEARNESS

VARICOCELE. By varicocele we understand a twisted, hardened and knotted con-dition of the veins carrying the blood. This is a very common complaint and is produced by vari-ous causes. It seldom causes any-rapid decline, but undermines in-sidiously and weakens the suffer-er in both mind and body. The stagnant blood in the affected veins seriously interrupts the blood supply of the organs, and often is the cause of reflex symp-toms which are not easily recog-nized. The ordinary physician ad-vises an operation for varicocele, and knows of no other treatment. The sufferer must pay a good fee, besides the loss of time and the extra hospital bills. By my im-proved methods I use no knife, I have a treatment for men's weakness which is entirely out of the line of the stimulants and tonics which for a long time was the only help that physicians had to offer for such condition. Being all the treatment known to the ordinary physician and all that was mentioned in medical text-books ordinary physician and all that was mentioned in medical text-books from which such disorders were studied. Its frequent failure to give help caused many honest and well-meaning physicians to admit that there was nothing to help a man whose virile power.swas de-clining. But my exhaustive stu-dies in the specialities of Men's Weakness proved conclusively to me that this class of disorder in about nine cases out of ten is due to an affection of the nerves or the prostate gland, or to a disproved methods I use no knife, cause no pain nor loss of time from business. My treatment is scientific, thereauch prostate gland, or to a disfrom business. My treatment is scientific, thorough, permanent and never fails. It will pay every man suffering from varicocele to inves-tigate before considering other treatments. turbance of the blood supply. Treatments must be given to the affected part. It must be local and direct. Then the result is never in doubt for a minute, and the cure is as permanent as it is absolute.

Hubbard, lots 2 and 3, block 134, and lot 1, block 141, Wood-stock The western high pressure area now occupies the Rocky mountain states, and the barometer is relatively lower over western Washington. No rain has yet fallen on the Pacific slope, but cloud-iness has increased in British Columbia and northern Washington. A small low pressure area is central over Saskatche-wan, and the barometer is relatively low over the Great Lakes, the middle Atlantic and New England states. Light rain has fellen in the upper Mississippi valley and the lake region, and heavy rath has fallen in New England and the eastern portion of the middle Atlantic states. The temperatures are below normal in the Atlantic states from Maine to Florida.

The indications are for increasing cloudiness in this district, followed by rain or snow Wednesday in eastern Washington and western Oregon. Temp. Temp.
