# POTATO TONE MUCH FIRMER

South Is Causing an Upward Movement Here.

WHOLESALE MARKET FEATURES. Big splurge in potatoes.
Chicken market the lower.
Eggs are weakening somewhat.
Butter is holding at drop.
Talking of cheese advance.
Quiet absorbing of hops.
Grain market is firmer.

While the movement of potatoes from this state is not very heavy as yet, inquiries from the south are increasing and during the past 24 hours a number of cars have been sold for southern California and San Francisco account. There is a much better tone in the California potato market and, while the object of the California people who are now boosting the price here is selfish, their boosting will be productive of good after all. Some time ago The Journal stated that from all appearances Oregon would not have scarcely enough potatoes to fill its own requirements, not alone shipping immense supplies to the outside, and conditions that now present themselves seem to fully confirm this view, made fully a month ago.

Want Select Stock in South. Potatoes Strengthen Suddenly.

Beer figures for September were a decided surprise, showing an increase of decided surprise, snowing an increase of 23,731 barrels over last year. They were 5,373,251 barrels, as against 5,-339,520. In the face of the big decreases over the summer, this increase was entirely unexpected. English and continental advices indicate little, if any, change in the general conditions from last reports." regular commissions:
