

BIDS BEWARE OF GULEFUL JAP

Hobson Says United States Doomed Soon as Fleet Leaves the Pacific.

(United Press Leased Wire.)
 San Francisco, Oct. 28.—A few thousand Democrats in San Francisco were told last night by Captain Richmond Fearnson Hobson that Japan is eagerly seeking war with the United States at an early date and that only the presence of a big fleet in the Pacific will prevent conflict.

Hobson was sailing along smoothly discussing the campaign issues with fervid speech when a voice in the audience asked him to enlighten his hearers on naval affairs.

The congressman, who is a member of the house committee on naval affairs, readily complied. He asserted that Japan had borrowed more than a billion dollars to be used in a war with the United States. The overtures of peace on the part of Japan, said the speaker, were to delude this nation into returning the battleships to the Atlantic so that Japan could seize strategic points in the Pacific and on the western coast of America and by commanding the mountain passes could prevent relief from the east. He told his hearers that there are now in the United States 65,000 good Japanese soldiers and the Japanese are continually inciting the Filipinos to insurrection. He also discussed the Japanese school question and concluded with the assertion that only a fleet on the Pacific would insure peace.

The early part of Captain Hobson's speech was a plea for the election of William J. Bryan to the presidency. He declared that Bryan was the only logical choice of the people on issues that vitally affected their interests, and that the Republican leaders for their conduct of the nation's affairs.

Scriber is still out on bonds today. Mrs. T. N. Murphy, who it is rumored, is engaged to him, has \$12,000 up on his bond. Scriber turned the money to Murphy was told by Scriber a week before the crash to take her money out of the bank.

Friends are working hard in the interests of Scriber.

When it became known that the shortage was \$100,000, F. C. Coolidge, one of the bondsmen, for \$2,000, had Scriber arrested on an embezzlement charge in order to get his name off the bond.

TRIPLE SUICIDE PACT OR MURDER

(United Press Leased Wire.)
 Chicago, Oct. 28.—What was either a suicide pact between three persons or a triple murder was discovered by the police here today. Anna Foudras, 53 years old, and Charles Jachinack, 53, were found dead and Alexander Mades, 45, was found lying in a room filled with gas from the rest of the saloon. The body of the woman was found at the entrance to the bedroom and that of Jachinack was lying face down across the foot of the bed. Mades was found lying face downward in a room several feet away.

"Let There Be Light"

Speaking at Denver, October 18, Mr. Bryan took for his text: "Let there be light," and said in part:

The Republican policies are without form and void. Darkness covers their plans. The awakened conscience of an aroused people calls out: "Let there be light." What influences are marshaled behind the Republican ticket? What debts are being contracted? What mortgages are being given? Let there be light. The Democratic committee has set the example. For the first time in our national history a national committee has taken the nation into its confidence and given forth a list of its contributors. This is in the interest of honest politics and honest government. It opens a new era. Will the Republican leaders dare to defy a universal sentiment and maintain the secrecy that has given predatory wealth its hold upon the government?

The Republican national convention deliberately voted down a plank pledging publicity and the Republican candidate insists that the contributions should not be known until after the election, when the information can be of little service.

We demand the election of senators by the people, and this is in the interest of honest government. Let senatorial elections be held in the daylight, and not behind closed doors in secret caucuses, where corrupt influences can cheat the people out of representation. The Democratic convention declared for the popular election of senators. The Republican convention, by an overwhelming vote, rejected the idea and the Republican candidate has merely expressed a personal inclination toward this reform.

The public demands light on the tariff question. The Republican platform deals in generalities. The language employed may mean anything or nothing, and the speeches of the Republican candidate intensify the gloom that the convention threw over the subject. Let there be light, that the people may know whether the tariff laws are to continue to be made by a few beneficiaries in their own interest, or by the people's representatives for the people's good.

What do the Republican leaders intend to do with the trusts? Let their plans be stated. Let their remedies be made known. Let there be light on this question also. We have seen one of the greatest of the trusts obtaining executive permission to absorb a rival. Is this to be continued as a settled policy of the Republican leaders? It is not sufficient to find fault with Democratic remedies. What is the Republican remedy? The people are entitled to know.

What are the Republican leaders going to do on the labor question? Here again there is need of light. The Republican leaders claim to be the friends of labor. Let them define the friendship that they intend to show. If they are going to oppose needed labor legislation, let them boldly declare it and not betray the toiler with a kiss.

What are they going to do on the Philippines question? They have enormously increased the appropriations for the army and navy in preparation for wars that ought never to come. They have boasted of possessions in the orient, while the Filipinos clamor for an announcement of the nation's policy. Let there be light. Let their national purposes be proclaimed, that the world may know that we have not surrendered our ideals or abandoned the principles of government that have given us preeminence among the nations.

What are the Republican leaders going to do for the restoration of confidence, among the depositors? What assurance are they going to give that the savings of the people will be protected from loss? On every question the Democratic party announces its plan and sets forth in detail the remedies which it proposes. The Democratic party takes the people into its confidence and submits its policies to their judgment. Let the Republican party be equally candid and open its books and plans; let there be light.
