ER INJECTS PERSONALITY AND O CAMPAIGN FOR REPUBLICAN CANDIDAT

Declares an Understanding Has Been Reached Between Republicans and Standard Oil Concerning Prosecution of Rebating.

(Special Dispatch to The Journal.)

New York, Oct. 30 .- Democratic National Chairman Mack this morning charged John D. Rockefeller with having announced that he will support Taft and having turned over to the national Republican committee a large sum of money to further the Taft campaign. Rockefeller admits this much of the charge. Mack said that the support and the contribution was due to a promise of the Taft managers to modify the big fine levied against the Standard Oil company in Chicago. Mack's declaration has created a sensation and has set Republican speakers and the Standard Oil interests to making denials, which, however, are more in the nature of explanations than contradictions of Mack's allegations.

In a statement issued by John D. Rockefeller he declared for the Republican presidential nominee in what he terms a "campaign of personalities." Rockefeller declared that the party lines on various issues were not clearly defined by either candidate and the

turing plant has been secured for Vancouver and work will begin on the buildings at once.

The plant will cost between \$150,000 and \$200,000 and should give employment to 200 men. It will be located on what is known as the Hidden property, east of the garrison. Excellent water frontage and railway trackage is afforded and the site is believed to be ideal for such an enterprise.

The bill for lumber with which to construct the main building will be placed with the DuBois Lumber company today or tomorrow and an agent of the company yesterday wired from the east that he was about to contract for a partion of the machinery.

J. M. Judson, who will bead the company, predigts an excellent future for the plant and believed it is only a quastion of a few years before a number of such concerns will locate at Vancouver.

Walter Wellman Confesses the Guessing Has Got Beyond Him.

(United Press Leased Wire.) Chicago, Oct. 30 .- Warning to be prepared for an election day surprise was

given by Walter Wellman in the Rec-ord-Herald today.

"Surface indications now are that Tait will win New York and with New York the presidency. By the same in-dications it appears that Chanler will defeat Hughes for governor of New York," says Wellman.
"Under the surface are factors which cannot be measured. In view of these I feel that it is my duty to warn the readers of the possibility of an election day surprise.

The possible, though improbable, that Bryan will carry New York. It is more probable that both Taft and Highes will win in that state, the latter by a slender majority.

The conditions are not unlike those of 1888, when the Republicans won New York for the presidency by 13,000, but lost in the contest for governor by 13,000,"

Has Hig Tatt Roll.

Omaha, Neb., Oct. 30.—Charleg F. Smith, an Idaho ranchman, arrived here today with \$10,000 to bet that Taft will be elected president next Tuesday. Smith waved his money, all in green-backs, before a big crowd of Democrats and offered to bet any amount up to \$16,000. The best he could do was to accept a bet of \$200 at odds of 2 to 1. He then offered the whole roll at 2 to 1, but found no takers.

W. Scriber, La Grande Bank Wrecker, Loses His Jaunty Manner When Behind Prison Bars-Nothing to Story of Lynching.

J. W. Scriber, the defaulting cashler, whose peculations wrecked the Farmers & Traders National bank of La Grande and who is now confined in the Multnemah county jail on a federal charge, has not yet made up his mind whether he will plead guilty to the charges placed against him or fight the case, "I don't know yet what I will do, said Scriber this morning. "I have not engaged an attorney and don't know whether I will engage one or not."

The Scriber who was talking was very different from the debonair man who .Wednesday was walking the streets of La Grande, apparently as free as air. The huoyant appearance of health, the abounding self-confidence that were the chief factors enabling him to win the confidence of his many victims, are gone. His face is sallow and lines have been etched in the countenance overnight. He was coatless and collariess, his hair was disheveled, and he appeared the embodiment of discouragement. He seemed to realize at last that the game had been played out and that he had lost.

Scriber admitted, however, that his nephew was cashier of the wrecked bank of Sumpter. It is the theory of those who have been investigating the La Grande bank failure that Soriber spent a great deal of the bank's funds to keep his nephew from going to the penitentiary.

What he did with the money that is missing Scriber refuses to say. But he says he did not get away with a dollar himself. It all went somewhere, "The bank did a good business," he said, "but times were hard. I did the best I could."

PLENTY OF RAW MATERIAL

"Let the people of Oregon call for home manufactured products in every line and it will be surprising to see how rapidly this community will forge to the front," said Will Albers, manager of the Albers Bros. Milling Co. "Oregon has every advantage and all the necessary raw material to make it one of the great manufacturing centers of the country. If the local consumers would demand local manufactured products there is not a factory of any nature in the state but would be compelled to double its capacity, thereby doubling

There is one thing that the local manufacturers should pay more attention to, and that is in advertising their goods making prominent the fact that their products are of local production, as many consumers are not familiar with the many lines of manufactured articles made here in Oregon.
