

BRYAN WAITS FOR FULLER RETURNS

(United Press Leased Wire.)
Lincoln, Neb., Nov. 4.—Bryan slept soundly last night and arose today at 8 o'clock, apparently refreshed and in good spirits. After reading the morning papers he said he would await more complete returns from Indiana, Ohio, West Virginia and Nebraska before commenting on the outcome of the election.

BRYAN CARRIES HIS HOME STATE

Nebraska Gives the Commoner Plurality of 10,000—Anti-Cannon Feeling.

(United Press Leased Wire.)
Lincoln, Nov. 4.—Figures at 11 o'clock showed that Bryan had carried Nebraska by a plurality of 10,000. It is believed that the strong anti-Cannon feeling throughout the state has played an important part in the result.

OREGON REMAINS

(Continued from Page One.)
Taft 871, Bryan 518. Taft's majority will be over 300.

(Special Dispatch to The Journal.)
La Grande, Or., Nov. 4.—Seventeen out of 21 precincts, incomplete, give Taft 1,313, Bryan 1,217.

High Schools Only for Girls.

In the November American Magazine Dr. William Lee Howard makes the high schools boys and aft in an article entitled "Helpless Youths and Useless Men." He says: "From the first year at high schools the boys begin to drop out. They are dissatisfied. After the second year there are about three girls to one boy. In one school whose graduating exercises I attended last spring there were fourteen young women and one anaemic, sleepish youth. What training do you think that had obtained for a start in life? Of course he had heard enough to become a milliner or a dressmaker, but that's about all. "If a woman had come to you four years ago and suggested, that you send your boy to a girl's school you would have sat up and taken notice. The average high schools are girls' schools, to which a few boys are, unfortunately, sent."

No Coal for Young Married Folks.

From the present indications all of the young married folk of Reno who have not secured their coal for the winter will have to burn wood, gas, electricity or oil unless they happen to be friendly with a soft-hearted coal dealer. The dealers of the city have considerable coal on hand, but according to the brides they refuse to sell any coal except to their old customers. One young married man was seen going home today carrying a two-gallon jug of wood alcohol. He said that he would use it for fuel, as the coal dealers had refused to sell him coal.

No Imitation for Anty Drudge.

Grocer's boy—"The boss told me to tell you he was just out of Fels-Naptha, but that this soap is just as good, and he's sure you'll like it."
Anty Drudge—"Just out—is he! Well, he's going to be out some more. If he thinks I'm going to use an imitation of Fels-Naptha, just so's he can get a bigger rake-off, he's got another think coming. Some other grocer will get my trade in the future."

Any invention that saves time and labor is bound to come into universal use. Witness the sewing-machine, the telephone, the electric light and scores of others. They were received with doubt at first; now every intelligent person takes advantage of them.

So Fels-Naptha soap will some day be used by every woman in this country who washes clothes. More than a million now make it save them time, bother and hard work, and the number is growing every wash-day. If you are not one of these million modern women, you will be some day—just as soon as you have courage enough to break away from old-fashioned methods. Every week your delay means another half day of backbreaking labor, coal or gas wasted, danger of colds from steam, unnecessary wear and tear on clothes.

With Fels-Naptha you can wash in cold or lukewarm water without hard rubbing, and in half the time it takes by the wash-boiler method. Follow closely the directions on the red and green wrapper.
