

# EXPECT 200,000 PEOPLE TO ATTEND ROSE SHOW

### Festival Association Managers Much Encouraged by the Liberal Contributions From Business Men—Aim to Raise Fund of \$100,000 for the Carnival.

Portland's Rose Festival in 1909 will be the greatest event of the kind the city has ever known. This much may be said even as early as this, though the Rose Festival association has only recently begun its work. It takes money as well as energy to make a success of Portland's annual festival of the roses, and it is the fact that the money is coming in so well that encourages the officers of the association to make the statement that the festival next year will surpass in magnificence any in the number of people it will bring to Portland the show or any previous year.

There is no doubt but that the association will have a much more plentiful supply of money to spend next year than it has had before. The value which the business men in the city attach to the Rose Festival is demonstrated by the fact that nearly all of them are greatly increasing their annual subscriptions. Two of the big department stores, Meier & Frank, and Olds, Worton & King, have notified President Ralph W. Hoyt that they will double their former contributions.

They do this both from civic pride and for business reasons, knowing that the Rose Festival, which has made Portland known all over the world, brings thousands of people to the city and costs more than repays the money it costs.

Other department stores besides those mentioned above are expected to increase their former subscriptions, but have not yet made known the sums they will contribute. Virtually all the business men have promised that they will contribute much more liberally this year than heretofore. Last year, in account of the tightness of money resulting from the panic, the association was obliged to get along with only \$50,000. The result attained by the expenditure of that amount demonstrates what may be expected next June.

The officers of the association are confident that the Rose Festival next year will attract not less than 200,000 people to Portland. This estimate is based on the large number of people that already are being received from all parts of the United States and even from Europe in reference to the festival.

The Alaska-Yukon-Pacific exposition at Seattle opens just a week before the first day of the Rose Festival in Portland and the cheap rates to the exposition are to be extended to Portland during the Rose festival. Thousands of people coming to the coast to go to the Seattle fair will undoubtedly take advantage of the opportunity, to see Portland's flower show.

President Hoyt has determined to offer prizes for the most effective and artistic designs for the Rose festival in advertising the Rose Festival. At a conference yesterday between Assistant Passenger Agent Charlton of the Northern Pacific and Ralph W. Hoyt, president of the Rose Festival association, it was decided that the best plan for advertising the festival would be to have posters designed and printed to be hung up in all the railroad depots and similar places.

The posters are to be large ones, drawn to bring out the spectacular features of the big event. In order to obtain the best designs it was decided to solicit them from all over the country, telling of the

## LOW SILVER WEAKENS

### Price of Metal Breaking All Low Records and Flour Sales Are Therefore Smaller—Little Hope Is Given for the Near Future by Our Consuls.

Vice Consul-General E. G. Babbit of Yokohama sends the following extract from a Japanese paper regarding the flour situation:

According to an estimate furnished by a reliable authority, the total quantity of flour imported for this year will not exceed 800,000 sacks, which is less than one third the quantity imported in 1906. All the flour merchants are suspending new orders and are endeavoring to clear their stocks as quickly as possible, even at a loss.

Up to 1902 the quantity of foreign flour annually imported was 100,000 sacks or thereabouts. Subsequently the sudden expansion of the purchasing power of the market on account of the war and the rise in silver resulted in a great increase in the import of flour.

With the fall of silver and the resumption of a normal condition of exchange, however, the importation of flour has begun to decline, resulting in the existing dullness of the trade. In view of the scale of living prevailing in Manchuria, it is believed that the demand for a quantity of imported flour cannot be expected in the near future.

The rise in the price of flour owing to the fluctuation of exchange has been great, as may be seen from the fact that a new brand was quoted at Mukden at \$2.30 (Chinese) currency, equal to 98c gold per sack in January last year which is now sold at \$2.35 (\$2.25). In such circumstances it is not surprising that the foreign flour trade in Manchuria should experience such a depression as at present.

### AMERICAN FLOUR IS MUCH BETTER THAN ORIENTAL MAKE

The following information, as given in a Newchwang newspaper, shows the present condition of the flour trade in that city. It is furnished by Consul Thomas E. Heenan, of Newchwang:

The stock of flour in Newchwang is small, and the imports are equally

### The Perfect Woman Is Not a Fat One

Artists say the ideal proportion of weight in a woman is 25 pounds for every foot of her height. This would make a woman of 5 feet 4 inches weigh 135 pounds 5 ounces.

If you weigh more than this in proportion you are on the danger line and are likely to get too fat in a few years. Check it by taking a teaspoonful after meals and at bedtime of this recipe: 3/4 ounce Marmola, 1/2 ounce Fluid Extract Cascara, 1/2 ounce Fluid Extract Senna, 1/2 ounce Fluid Extract Licorice, 1/2 ounce Fluid Extract Marshmallow. Get the Marmola sealed home. This mixture is harmless, will not cause wrinkles, and has been known to take off seven pounds of fat a week without any but a little exercise or dieting. It is inexpensive.

# SUIT BARRED BY STATUTE

### Attorneys for Jacobs Family Demur to Young Wife's Damage Complaint.

An effort to defeat the \$200,000 suit for alienation of her husband's affections filed by Mrs. Suzanne D. Jacobs against wealthy relatives of her husband in Portland, was set on foot yesterday through the filing of a demurrer to Mrs. Jacobs' complaint. Dolph, Mallory, Simon & Gearin, representing the defendant, Mr. and Mrs. Isaac Jacobs, Alfred G. Jacobs, Gaston G. Jacobs, Garry B. Jacobs and Mrs. Lillian Lang, filed the pleading.

The most significant part of the demurrer is a declaration that the suit cannot be maintained because the time within which such an action can be brought under the statutes of Oregon has expired.

In the complaint it is charged by Mrs. Jacobs that her husband, Morton D. Jacobs, was enticed away from her in 1903 through subtle connivances, coaxing, money inducements and threats of dishonour on the part of the defendants, with other and unnamed mother, brothers and sister of Morton D. Jacobs. For these alleged acts the deserted wife asks for \$100,000 actual damages and \$100,000 more as punitive damages. But under the law of Oregon actions involving damages must be brought within two years from the time of the injury complained of. As the enticement is alleged to have been effected in this case in 1903, the defendants hope to shut Mrs. Jacobs out of court before she gets started with her sensational suit.

Morton D. Jacobs was married in New York in July, 1899, to Miss Suzanne D. Munsey. His parents in Portland and the rest of the family were released by the alliance, the principal ground of objection being, it is said, that they had hoped he would marry a Jewish girl and thereby bring honor and wealth to the family. Mrs. Jacobs says that she lived happily with her husband for several years, but that the members of the family intermeddled and threatened to dishonour him until he was turned against her.

The complaint was prepared in the east by New York and Chicago lawyers employed by Mrs. Jacobs, and was filed by a local attorney associated with them. The struggle will open in earnest with the argument on the demurrer presented in behalf of the defendants, which will be the effect of throwing the case out of court if it is sustained. The date for the argument has not yet been fixed.

Tomorrow and Tuesday positively last days for discount on west side gas bills. Don't forget to read Gas Tips.

## FLATTERING ACCOUNT

Report of R. W. Eames, C. M. E., Upon the Malheur Oil District.

Malheur district promises to be one of the largest oil producing fields in the United States, if not in the world.

Malheur district promises to be one of the largest oil producing fields in the United States, if not in the world. The delay in complying with your request for a report on this field, was caused by the lack of time, and the unfinished condition of my report, which contains something over 10,000 words, and has taken three months of actual labor in the field.

As I understand you, a condensed form of this work and its important relation to your holdings here, is about what you require, and without going into details that may tend to confuse the amateur, I will give you in brief of my work.

I will confine myself to what is termed the Vale quadrangle, which includes 48, 44 and 28 south, ranges 43, 44 and 45 east.

The geological structure is simple in theory, though complicated enough in detail. A few past this giant basin contained an inland sea, in which sedimentary, marine and erasial debris were laid down covering two and perhaps three distinct periods of formation, consisting of successive layers of sandstone, clays, shales, conglomerates, calcareous oolites, diatomaceous shales, petroliferous shales and clays, fossiliferous sandstones, gypsum, and shales, and erosional debris of every degree, and texture, color and thickness, from a few feet to many hundreds of feet.

Two or more systems of disturbances, causing faulting and tilting and a puncture of the formation in several places, producing at least two very prominent peaks, viz.: Round mountain, at Vale, and Double mountain in the southern part of the territory, besides numerous mud and hot water geysers, most of which are extinct, with the exception of the hot water spring at Vale.

Altogether I believe an ideal condition for the forming of an immense pool of oil and storing it.

Evidence in fossiliferous sandstone and shales, that will retort oil gas, are found exposed in many places over the field, and especially at springs, oil on water from wells and springs.

Several hundred prospect wells from 50 to 100 feet deep all show oil and gas in ponder quantities over the territory.

# Shoes FREE

A pair of Ladies' or Men's Fine \$4.00 Shoes given FREE with every suit sold this week. Shoes are vicci kid; patent leather, patent colt; Blucher, lace or button, high or low tops, Cuban or common-sense heels. First-class shoes from our regular \$3.50 and \$4.00 stock.

## TO INTRODUCE OUR NEW SHOE DEPARTMENT

We are making this big special offer and at the same time force upon the attention of the people of the East Side the fact that we sell wearing apparel of the very best quality and style lower than most West Side stores. Giving this premium, worth \$4, is a new method of emphasizing the reduction we are making in a fine line of New Fall Suits—not shop-worn goods, but the freshest novelties direct from the leading fashion centers.

## SALARIED PEOPLE

Will find our Confidential Credit System greatly to their advantage. It will enable them to appear always well dressed at the sacrifice of very little money at a time—and TO BE WELL DRESSED is a very important asset to any person occupying a public position, whether department store clerk or office man.

## YOU ARE WELCOME TO CREDIT

You are welcome to credit. And you will find our plan of easy payments a very convenient method of keeping yourself well and comfortably dressed. This plan appeals especially to people of modest incomes. A good appearance is often made the means of promotion. Make a small cash payment, then

Only \$1.00 That's All —That's Enough

Ladies' and Men's Suits Overcoats Cloaks, Etc.

# Big Eastside Store

Corner E. Burnside and Union Avenue.

## WIN A PRIZE AND DO IT SO EASILY

Six Prizes Offered for the Correct Reading of Want Ads.

Today The Journal announces its second series of prize ad questions. Three in coin will be awarded as a first prize and five other prizes of \$1 each, \$5 in all, will be given for the correct answers to the following questions:

- 1—What useful piece of office furniture do you buy for cash as advertised in today's classified ads? Only phone gives.
- 2—Which firm advertises with the heading, "To see these is to buy them"?
- 3—What does "E-547" want?
- 4—What firm needs a small safe?
- 5—What is going to take place at the "Selling-Hirsch" hall tomorrow evening?
- 6—What will you have to pay for 160 acres of apple land near Collins Springs?
- 7—Where is there a woodyard for sale?
- 8—Where can you buy a \$100 electric piano?
- 9—What has C. J. Owen for sale in the new wholesale district?

## \$1 A WEEK WILL DO

### Diamonds, Watches Jewelry and Silverware

Sold on Easy Payments and You Wear the Goods While Paying for Them.

Nickel Watches, one year guarantee ..... 75¢  
Ladies' small Enameled Chatelaine Watches ..... \$4.00  
Gents' Waltham or Elgin Watches in a 20-year guaranteed case ..... \$9.50

## STANDARD JEWELRY STORE

189 THIRD STREET, BETWEEN YAMHILL AND TAYLOR

Every article that leaves our store guaranteed

The above questions will be easily answered by a close reading of the classified or want ads of today's issue. It is not a puzzle but one of the many means employed to engender interest in ad reading.

Arriving at who are entitled to the prizes all answers are on Wednesday morning thrown into a basket and shaken up thoroughly and the first answer taken at haphazard that is correct wins the \$1 reward. The next five

## CHINESE EMPEROR IS SERIOUSLY ILL

Washington, Nov. 7.—William W. Rockhill, minister to China, today informed the state department officials that he had been advised of the serious illness of the Chinese emperor, Kwang Su.

## Death of Insurance Man.

(United Press Special Wire.)  
New York, Nov. 7.—Dr. Walter R. Gillette, former vice-president of the Mutual Life Insurance company, died today from the effects of intestinal cancer. He was convicted of burglary in connection with the famous "yellow dog" fund, but afterward the appellate division of the supreme court reversed the conviction and quashed the indictment.
