We Attach A Bridge

Which works perfectly and chews your food as well as the natural teeth. A well-made bridge is one of the greatest blessings it is possible for a skilled dentist to provide his patient. A well-placed bridge lasts a lifetime and never causes annoyance of any kind.

Drop in and let me tell you what is needed. You can have the work done to suit your convenience and pocketbook. Our terms are the most reasonable in Portland, considering the high-grade work always supplied.

Teeth Without Plates

According to this system, all missing teeth are supplied with or without plates. This advanced bridgework is the greatest triumph of modern dentistry. The above illustration shows an ordinary case, such as is handled every day in this office. A couple of firm teeth is all that is needed. They will chew your food perfectly, cause no discomfort whatever and improve your appearance beyond description. We only advise plates when you are toothless. This is the home of advanced dentistry. No charge for examinations.

OUT OF TOWN PEOPLE

Should remember that our force is so organized that WE CAN DO THEIR ENTIRE CROWN, BRIDGE AND PLATE WORK IN A DAY if necessary. POSITIVELY PAINLESS EXTRACTING FREE when plates or bridges are ordered. WE REMOVE THE MOST SENSITIVE TEETH AND ROOTS WITHOUT THE LEAST PAIN. NO STUDENTS; no uncertainty—but SPECIALISTS who do the most scientific and careful work.

Plates Made and Fitted

I give my personal attention to this branch of the work and can guarantee the best possible results. There is a great difference in plates, and unless they fit perfectly are a constant source of annoyance. If you need a plate we will extract useless teeth or decayed stumps without causing you the slightest pain, and supply a plate or bridge on the same day, if necessary. Remember, you cannot be too particular about your plate; the best is a comfort, and the other kind almost worse than nothing.

Absolutely Painless Methods

Every painless method and modern instrument known to dentistry is here. We employ none but graduates of the best dental colleges, who have had their college training supplemented by years of experience. No experimental work here.

All Instruments Thoroughly Sterilized

Another feature of this office—there's no danger of infectious disease. Every instrument is carefully sterilized by an expert attendant every time it is used.

DISEASED GUMS

Are your gums red, sore, bleeding and shrinking away from the teeth, our specialist in that line will PERMANENTLY CURE YOU

We make a specialty of treating bad teeth. No piece of dental work is too delicate for us to handle. With our force of skilled dentists—every one a specialist in his particular line—we can give you the best service in the city.

Our methods are absolutely painless.
