

REGIONS FOR PRIZE

Ellis or Hawley Might Head Rivers and Harbors Committee—Cushman's Job.

By John E. Lathrop.
Washington, D. C., Nov. 10.—The membership of the house committee on rivers and harbors will be open to some Pacific northwest representative when Congressman Jones of Washington leaves the house for the senate, March 4. Owing to the assurance that there will be a special session immediately following this session, when the new committee assignments will be effective, the scramble has begun, and the measure has already been put on Speaker Cannon, since it is commonly expected that he will be re-elected. It seems unlikely that the speaker who succeeds Jones, could procure Jones' present place on the rivers and harbors committee, and because Idaho will have a new member there is no chance for Idaho. Humphrey of Washington is the ranking member of the merchant marine and fisheries committee, now that Littlefield of Maine is out of congress, and Humphrey is known to have made a specialty of the ship subsidy bill. Hence he is likely to remain on that committee until he gets the chairmanship.

Ellis or Hawley of Oregon may have an opportunity to procure the rivers and harbors membership, though it is almost certain that such a position at this time would be made only in return for an agreement to "go easy" on tariff revision, it being known that Speaker Cannon will use all the influence of committee assignment to forefend against material changes in the tariff schedule.

Cushman's Assignment.
Representative Cushman stands in line for the chairmanship of the house committee on private land claims. The present chairman, Thomas Marshall of North Dakota, will not be a member of the Sixty-first congress. Cushman is the ranking member of the committee. The chairmanship is regarded as a fairly good assignment. The committee has spacious quarters in the new house office building on the second floor, and holds weekly meetings, on Wednesdays. The chairman has an extra clerk, and is allowed all the usual allowances. Cushman has been recognized as a staunch supporter of Speaker Cannon, who is prone to regard those who stand by him. Whenever a question arises as to ordinary qualifications, the ranking member of any committee is given the preference as chairman if the speaker has no grudge to pay off. In this instance Cushman may lay claim to the application of the regular rule of precedence, backed by a record of undeviating loyalty to Cannon. Cushman's well known opposition to material changes in tariff schedule will probably give him a closer stand in with the speaker to land the position if he desires it.

GOMEZ LIKELY TO BE CHOSEN CUBA'S LEADER

General Jose Miguel Gomez, who was nominated by both the Gomez and the Zayas liberal conventions as the liberal candidate for president of Cuba, probably will be chosen at the election November 14, for he has for the first time the united support of his party, and his political and personal popularity. A year ago he was the candidate of the liberal party, but was defeated by President Palma, the Conservative head of the government who resigned, owing to a controversy over the elections. General Gomez was arrested when the revolution against President Palma broke out in August, 1906, but was soon released. His followers are known as the "Migueleistas." Liberals General Menocal, the nominee of the Conservatives, is the opposition candidate. The United States administration of the island through Governor Magoon will be ended by the elections of this month and affairs of all kinds turned over to the new government.

The elections. General Gomez was arrested when the revolution against President Palma broke out in August, 1906, but was soon released. His followers are known as the "Migueleistas." Liberals General Menocal, the nominee of the Conservatives, is the opposition candidate. The United States administration of the island through Governor Magoon will be ended by the elections of this month and affairs of all kinds turned over to the new government.

LOW VITALITY

A Dangerous Attendant Symptom of Anaemia.

Many Serious Disorders May Result from Impoverished Blood but Dr. Williams' Pink Pills Prevent and Cure Them.

Besides the thinning of the blood in anaemia there is a low vitality which is a matter for serious consideration because it gives opportunity for any latent trouble to develop. Thus, anaemic bloodless people have a tendency to fear consumption, and the blood failing to give proper nourishment to the nerves, debility, neuralgia, and even some form of paralysis may result.

Mrs. R. L. Harrod of 413 South Ohio avenue, Muncie, Ind., recommends Dr. Williams' Pink Pills because they restored her to health when all other medicines failed. "Fifteen years ago," she says, "when I was living at Bellefontaine, Ohio, I was suffering with anaemia. I was pale and had a wax-like color and was so short of breath that I couldn't go up stairs without stopping to rest or couldn't stand the least little exertion. I was run down and very thin, didn't feel like eating and didn't want to talk to or see anyone. My heart would palpitate so that I would feel when I couldn't sleep well coughed constantly and had pains under my shoulders. I was so miserable that I wanted to die."

The doctors told me that my blood was turning into water, and that I was going into a decline and asked me if there had been any consumption in my family. They didn't help me at all and I had read so much about Dr. Williams' Pink Pills that I decided to try a box of them. They helped me so much that I gave up all other medicine and pinned my faith to them alone. I took several completely restored to health. I became strong and healthy and was able to work again. Dr. Williams' Pink Pills saved my life and I heartily recommend them."

A helpful booklet "Diseases of the Blood" giving more information about anaemia will be sent free upon request. If you are suffering from impoverished blood you cannot afford to wait another day before giving Dr. Williams' Pink Pills a thorough trial. They are sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

ing a bad check on an east side saloon, was released yesterday as he had made good the check before taken into custody. Taylor, when questioned as to how he obtained several blank checks, said that while working in a saloon he had had a few of the checks as they came from the press.

EMPLOYMENT OFFICE LOSES ITS LICENSE

The doctors of Charles Jones and G. H. Wiaschussen who conduct the Sailors' Employment office at 191 Burnside street under a special permit from the city, but in violation of the state law, was recommended for revocation yesterday afternoon by the license committee of the council.

W. W. Mr. Wiaschussen admitted that he might furnish sailors as well as other kinds of laborers, he said he had not done so yet. He declared that it is not necessary for his company to take out a state license because it does not operate a boarding-house for sailors in connection with the employment agency.

LARGE PREMIUM OFFERED FOR BONDS

Bids for the improvement bonds to the extent of \$200,000, received by the city council yesterday. The premium offered was more than 1 per cent necessary for a decided upward tendency in the bidding.

Gamma Phi National Convention.

(Special Dispatch to The Journal.)
An. Nov. 19.—The national convention of the Gamma Phi Beta sorority began in this city today and will continue in session until Friday. About 100 delegates are in attendance. The Gamma Phi is one of the oldest college fraternities for women in America. It was founded at Syracuse university in 1874 and has a membership of more than 1,200.

New Method of Reducing Fat

A news item from Paris informs us that the American method of producing a slim, trim figure, is meeting with astonishing success. This system, which has made such a wonderful impression over there, must be the Marmola Prescription Tablet method of reducing fat. It is safe to say that we have nothing better for this purpose in this country. Anything that will reduce the excess flesh a pound a day without injury to the stomach, the causing of wrinkles, the help of exercising or dieting, or interference with one's meals is a mighty important and useful addition to civilization's necessities. Just such a catalogue of good results, however, follow the use of these pleasant, harmless and economical little fat reducers. We say economical, because Marmola Prescription Tablets (made in accordance with the famous prescription) can be obtained at any druggist or the makers, the Marmola Co., Detroit, Mich., for seventy-five cents the large case, which is a decidedly economical price considering the number of tablets each case contains.

GREAT PLANS FOR WHITMAN

Friends of Walla Walla Institution Plan to Enlarge Its Scope.

An educational congress is to be held at Whitman college, at Walla Walla, Wash., November 17 and 18, for the purpose of promoting a plan to enlarge its scope and facilities of the institution with a view to making it the great seat of learning of the Pacific northwest. Invitations to this congress and to a banquet to be given in honor of Dr. D. K. Pearsons have been received in Portland.

Whitman college is one of the progressive educational institutions of the northwest, being now, after years of struggle on a sound financial basis, offering a complete course leading to the degree of bachelor of arts, and having an attendance of 400 students. This is regarded as a good foundation upon which to build a college that shall be for Washington, Oregon and Idaho what Ann Arbor is to Michigan or Yale and Harvard to the sections of the country from which they draw the majority of their students.

But it takes money to build a great school. Whitman now has buildings and grounds valued at \$300,000, and is endowed for a similar amount. This is a starter, and it is proposed to add to this a million dollars to be raised in the Pacific northwest and possibly as much again, to be contributed by friends of learning in the east. Walla Walla, the home town of the institution, has already promised to raise a quarter of a million dollars for the school, and there is no doubt that other cities will contribute in proportion.

It is for the purpose of starting the movement under proper auspices and working along systematic lines that the educational congress is to be held. This will be attended by representative citizens from the three states, and there is every reason to hope that the meeting will be successful and that a start will be made toward making Whitman as great as Stanford and more efficient.

Made Good the Check.
D. F. Taylor, the young prospector who was arrested Saturday evening for passing

SUITER MUST PAY OWN FEES

At the meeting of the judiciary committee of the council yesterday afternoon an opinion from City Attorney Kavanaugh holding that the city can force the Southern Pacific to remove its steam locomotives from Fourth street, was read. No action was taken on the matter. The council will, it is believed, give the railway an extension of time in which to change from steam to electricity.

COMMODITY RATES TO BE INCREASED

Important changes in freight rates to and from the Pacific coast will be made by the new transcontinental tariffs that are to go into effect January 1. All points on the Pacific coast between San Diego, Cal., and Vancouver, B. C., will be affected by the changes. It is said that the tendency will be to increase commodity rates under the new tariff. Some increases as high as 10 per cent are intended, although the average will be from 5 to 10 cents on the hundred. Class rates, it is said, will be slightly reduced. Miller of the Harriman lines said this morning that the changes would not seriously affect Oregon shippers and were only such as the railroads felt were demanded by changed conditions in shipping.

A PECULIAR WRENCH.
Of the foot or ankle may produce a very serious sprain. A sprain is more painful than a break. In all sprains, cuts, burns and scalds Ballard's Snow Liniment is the best thing to use. Relieves the pain instantly, reduces swelling, is a perfect antiseptic and heals rapidly.
Price 25c, 50c and \$1.00.

WOULD BANISH HOLY ROLLERS

East Side Neighborhood Up in Arms Against Colony of Fanatics.

Holy Rollers are not considered desirable citizens on the East Side and property owners and people living in the immediate vicinity of East Twelfth and Pine streets are taking steps to force the rapidly increasing colony of this sect that has located in this district to find another home.

It is contended by the owners of houses nearby that the value of their property is depreciated by the presence of this band of religionists, known to themselves as members of the "Apostolic Faith." The school, which is located at East Twelfth and Pine streets where 30 of the younger members are taught the mysteries of the peculiar religion in addition to reading, writing, arithmetic, etc. This morning the pupils gave vent to their feelings in piercing yells and shrieks which were heard as part of the routine duties of the school.

The school is conducted by Brother and Sister Treadway of Pennsylvania for the purpose, according to the brother, of giving the young apostles a place to assemble in which they can be the same time be free from the taunts of other children who attend public schools and who are called "Holy Rollers." The clan is presided over by John Glasgow, a negro, and meetings are held nightly at the corner of Front and Burnside streets and in the Park Home at East Thirteenth and Pine streets. The hall on Front street is open to all sinners, but the home is private, unless the visitor wishes to kneel in prayer and take active part in the services. The young apostles are found eating breakfast at the table in the home of seven rooms this morning.

Sometimes the neighbors say, as many as 20 of the faith spend the night in the small house and it is the general belief, while few have ever been past the threshold, that under such conditions are not as they should be inside. The wash tubs have admittedly been emptied out of the windows and the lawn is no credit to the city.

This is explained by Mrs. Abbie Payne, the housekeeper, as something that has nothing to do with the next world. "We are serving God," she said this morning, "and we don't care what the neighbors may think."

The house is carpetless and without window curtains and the occupants are poorly garbed. This, together with the fact that none of the members are ever seen at work, is one of the great faults found by those who live near the home. Everyone comments unfavorably on the appearance of the men and women who are seen coming to and leaving the house.

The house is leased to the sect by Buchtel & Kern, East Side real estate dealers, who have been persuaded to raise the rent to \$25 from \$20 in an effort to rid the neighborhood of the religionists, but the occupants have no signs of moving out. Since they were notified of the increased rent they have put in considerable more furniture and many of the faith come there to wash. There were 13 present when the roll was called this morning. Mr. Kern says that the rent is always paid promptly and in advance.

Brother Treadway says that they ask no one for money. All appear for well fed, but Mr. Treadway was the only member in sight who was decently dressed. He called the hostile feelings of the neighborhood.

CONSERVERS WANT TO SEE CHAMBERLAIN

By John E. Lathrop.
Washington, D. C., Nov. 10.—Much inquiry is heard here as to the probability of Governor Chamberlain's attending the national conservation meeting here, December 15. Governors are expected from all the states. Owing to the prominence that Chamberlain has attained throughout the country lately, the promoters of the coming conference hope that he will attend. It is generally recognized that this meeting, in the same week with that of the National Rivers and Harbors association, will be one of the most important ever held and will have an influence on congress in its provision for waterways improvement. Several governors will send the same representatives to this meeting as attended that held last spring.

The Most in Value
