O'CONNELL WINS POINTS RAGGLER

Grapplers Struggle an Hour and a Half Before Clubman Seizes Only Fall.

For nearly an hour last night Strangler Smith and Eddie O'Connell struggled on the mat in Merrill's hall before O'Connell was able to get a successful toe hold and half Nelson that downed the local champion.

O'Connell's longer reach and length, combined with a superior knowledge of the finer points of the game, spelled victory for the easterner.

O'Connell a Wonder. O'Connell is a wonder at the wrestling game. There are few points that he is not familiar with.

Uprour Greets Mon. There was a great uproar as Smith entered a ring a few moments after the conclusion of the preliminary.

EAST SIDERS WIN FROM SALEM TEAM

East Side high school yesterday won a well played and exciting game from Salem high school, 5 to 0.

East Side team probably outlasted the East Side team when it came to making yardage on regular formations, but won a good punter, Jones' long spirals and Cornell's runs with the ball on Salem's kicks proved too much for the Salem side.

East Side's score was made possible by Everett's recovery of a punt in the second half to Cornell.

Jones, after two downs had netted 5 yards, sent a long punt to the 10-yard line and Everett, who was well down the field caught it on the first bounce.

On the next play, Stanford was given the ball on the 10-yard line and made 5 yards more before being driven down to the 5-yard line.

Coach Blanchard and Captain Borkle of the Whitman team, which is in the city waiting to play Multnomah tomorrow, officiated in the game and gave every satisfaction.

Coach Flemming's men are weakened by the absence of Smith and Larsen and by several of the team suffering from minor injuries acquired in the recent strenuous practice they have been having.

Pacific will probably have the better of the game, but the Indians have greatly improved and are 100 per cent better than they were two weeks ago.

STANFORD TEAM MEETS OLD RIVAL

(Special Dispatch to The Journal.) Stanford, University, Cal., Nov. 13.—When the Stanford rugby team lines up against the 15 from the University of California tomorrow afternoon at the Berkeley field for the big intercollegiate contest there will be three Portland men wearing the Stanford suits.

These men are J. R. Holman, W. Koerner and C. E. Ganong. All of these men are veterans at the game and are among the strongest of the Cardinal players.

Since the introduction of rugby in the two California universities Holman has held down the position of wing on the Stanford team and has proved himself to be one of the fastest and surest men on the back field.

Koerner has long been a familiar name on the Stanford football field. Last year he captained the Stanford varsity which defeated the favored team from across the bay, 21-11.

Ganong will be seen in the back field by the side of Holman, where the two make an unequalled pair in rushing the ball for the Cardinal team.

Since the last game with Vancouver the team has been given light practice. Coach Freesey drilling them in the finer points of the game and putting on the finishing touches.

Stanford has not been defeated in the last five years and every Stanford man is now filled with confidence in the 15 men who are to represent them in the big contest Saturday afternoon.

A big rally will be given the team on Thursday night and on Saturday the men accompanied by Coach Freesey and Trainer Moulton, will take the usual trip into the mountains where all thoughts of the coming struggle will, so far as possible, be forgotten.

ICUREMENT. "I claim to know a great deal about a few ailments, rather than a little of all human ills." Different doctors have different ideas in regard to cures. Some call a suppression of symptoms a cure. They dose for drug effects and claim that nothing more can be done. But the real ailment remains and will bring the real symptoms back again, perhaps the same as before, but very likely leave the patient in a much worse condition. I claim that nothing less than complete eradication of disease can be a real cure. I treat to remove the disease, and not merely the symptoms. I search out every root and fiber of the ailment, and I cure to stay cured. I not only cure all weak conditions promptly, but I employ the only treatment that can possibly cure such disorder permanently. It is a system of local treatment entirely original with me and is employed by no physician other than myself. This may seem a broad assertion, but it is just as substantial as it is broad. I Cure the Cases That Others Cannot Cure. A bold statement, but just as true as it is bold. Not all cases that others fail to cure are curable by my methods, but fully 90 per cent of them are. The way to learn whether your case is curable is to consult me. I know exactly what can be done in every instance. I treat by my methods, but I have done nothing else other than treat men's diseases for twenty-five years. If your case is curable I will treat you. If it isn't I will not. If I treat you, and if you so desire, MY FEE FOR A CURE IS \$10. You Pay When Well. Varicocele. A thorough cure without pain or cutting. Every case of Varicocele treated by my method, my mild and harmless method, and the folly of resorting to surgery. In most instances it is even unnecessary to detain the patient a single day from his business. The treatment I employ is distinctively my own, and can be had at my office only. Do not submit to the knife and hospital expenses, when a complete and permanent cure can be had without the loss of time, and without pain or cutting. Specific Blood Poison. Others dose the system with mineral poisons scarcely less dangerous than the disease itself. The best they hope to do by this treatment is to keep the disease from manifesting itself, its presence upon the surface of the body. Under my treatment the entire system is cleansed. The last faint varicose appear no more. I employ harmless blood-cleansing remedies. They are ready to hand, and are known in the treatment of this disease. They cure by neutralizing and absolutely destroying the poison in the system. Such cures cannot be obtained through complete and permanent.
