IDAHO'S ELEVEN HOLD'S PULLMAN

Both Inland Teams Get Field Goal—Halm Put Out of Game.

(Special Dispatch to the Journal.)
State College, Pullman, Wash., Nov. 14.—In the hardest fought exhibition of football that was ever played on Rogers' field and in the presence of 4,800 spectators from Pullman, Spokane and all towns in eastern Washington, W. S. C. and the University of Idaho yesterday fought to a draw with the score of 4 to 4.

The game was characterized by spectacular kicking, terrific line plunging, crashing and plays. During the first half in a rapid series of kicks, Idaho got possession of the ball within 20 yards of the W. S. C. goal posts. Small succeeded in kicking the ball between the goal posts. Immediately following the play W. S. C. got possession of the ball and in a terrific series of line bucks, W. S. C. worked the ball 60 yards straight through Idaho's terrific line and when on Idaho's 10-yard line Halm kicked goal.

The turning point of the game came in the second half when Idaho's Rogers, a former student of the University of Idaho, accused Halm of W. S. C. of running into the line. Rogers stated that seeing Rogers out on the field wearing an "I" sweater he mistook the linesman for a student of the university who has no right to go beyond the side lines. He offered his apology to Rogers on this score, but the latter, also Captain Sawyer, refused to accept the apology or continue the game until Halm left the game.

With Halm out of the game, Jack Pomeroy of Seattle, who is regarded as the best of the W. S. C. eleven could do to adopt the kicking tactics which Idaho began early in the game. He worked within striking distance of the Idaho goal line, but failed to get between the goal posts. The game opened on Idaho's 85-yard line, with Idaho in possession of the ball and preparing to kick.

COLUMBIA AND WEST HIGH FAIL TO SCORE

"Prep" Schools Fight Out Bitter Game—Ludlum Stars at End.

Fifty minutes of fast football, with neither team able to score during that time, was the treat handed to the football fans of the city yesterday afternoon, when West Side High school and Columbia university met on Multnomah field. There was not an uninteresting moment in the game and the 800 spectators certainly received their money's worth during the 50 minutes of play.

Columbia probably had the better of the contest as far as ground gaining ability was concerned, but West Smith, the High School captain, outplayed Ennis, and this, together with masterful work by Ted Ludlum, High School's star end, kept the Columbia line from scoring. At that had Quarterback Seufert depended more upon the trick plays which he had and which were worked for good gains time and again, he might have scored, but whenever the Columbia team neared the goal straight football was resorted to, breaking up the High School line became a waste of time. At one time in the first half Columbia had first down on the four-yard line, but three successive line bucks netted them only a scant yard and a half and the ball went over to High School. Twice after this Columbia got within the 10-yard line, but each time the High School line became impenetrable and the ball passed over to West Side on downs.

There is nothing too good that can be said in praise of the work of Ludlum, West Side's little end. He is undoubtedly the best man at his position that has been developed in the high school league in years, and the college which secures him when he finishes high school will have a mighty valuable player. He has already been only added to the many laurels which this plucky little player has already obtained.

Played With Injury.
On the second down in the first half yesterday, Pomeroy was sent around Ludlum's end and in the process the Columbia halfback received a severe kick in the groin. Time was taken out for another player on the field, but no one noticed that he was hurt, but on the next two or three plays it was apparent that he had slowed up considerably. He came back, however, and played wonderful ball all the rest of the game. However, as soon as the strain of the game was over and he had nothing to stir his mind off of himself he collapsed entirely and had to be carried to the High School's dressing-rooms, where the usual medical attention secured. He revived soon after, but was kept at the club overnight and this morning it was announced that he was much better. Pomeroy played beautiful ball last season, but has been handicapped all season by an injury received while working in the last game of last season. This year his work has been but a semblance of his last season's form and this may be attributed to his injury. He will probably be kept out of the game the remainder of the season if not for good.

The second half was a punting duel throughout, with first Smith and then Ennis having the best of the argument. Ennis had at one stage tried a trick formation similar to the Idaho sweep brought out by Middleton last season, and this play made good yardage for the Columbia team, but the punting duel was once more resumed.

The lineup:
Columbia Position West Side
J. O'Brien L. E. R. Dabney, Streibig, Billeaux, L. T. R. Smith
Aya, Pomeroy, L. C. Cochran, Har, C. C. Gerlach
Kelleher, R. G. L. Arnold

BANNER DAY FOR BIG FOOTBALL CONTESTS

New York, Nov. 14.—Rattling good gridiron contests are promised in every section of the country today for the critics of the game to witness and ponder over. The University of Pennsylvania eleven has journeyed to Ann Arbor to tackle the University of Michigan in this section of the game. Scheduled on Princeton, where Yale meets the Tigers. Harvard will keep one eye on the afternoon game between the other will be on the game between the Yale and Princeton.

West Point would have little trouble in disposing of the Washington and Jefferson eleven. But the navy may have a hard time of it in the contest with Penn State victorious. Dickinson and Bucknell clash for supremacy, and it will probably be a game worth watching.

In the middle west, Cornell meets Chicago at Chicago, which will be the real test of the Illinois strength. Illinois and Iowa meet at Urbana, Minn. Wisconsin and several of the others have their games open on Saturday. On the Pacific coast California and Leland Stanford come together for their annual battle, and the Oregon and Washington colleges will clash at Corvallis. In the south there will be several games of importance. Alabama and Georgia meet at Birmingham, Georgia and Tennessee at Knoxville, Virginia and Georgetown at Washington, South Carolina and Georgia at Columbia, North Carolina and South Carolina at Chapel Hill.

WILLAMETTE SHAKES HERSELF FOR GAMES

Willamette University, Salem, Or., Nov. 14.—Though having suffered numerous defeats at the hands of teams believed to be inferior both in the knowledge of the game and experience, the Willamette university football eleven will meet the strong, swift team of Whitworth college at Tacoma Saturday, November 21, and with hopes of winning. Willamette will then have had three rest since their last game this week with Albany college. Also on Thanksgiving Willamette university will meet Pacific university in Salem and almost a month later will meet the college championship of Oregon.

Willamette has entered every game this season more or less handicapped. As a result interest has lagged at the university and the team itself does not play with the spirit a winning team should always display on the field. All the students do not approve of the present conduct of the team.

The game with Albany Tuesday is an example. The game was scheduled for today, Saturday, November 14, but on account of a larger bonus having been offered by Albany college, the game was played during the apple fair, the team was sent to Albany within three days after it had come out of the apple fair, and the game was played at agricultural college at Corvallis. This defeat on top of several preceding ones has almost shattered athletic interest at Willamette.

Coach Kirby has labored heroically against great odds in trying to build up the team at Willamette university. He has met with discouragement and disaster at every game where the remnants of his team has appeared. Every man who is eligible will be trained for the game with Whitworth next week and the subsequent game with Pacific university on Thanksgiving day.

WATER MONOPOLY TO FIGHT LONG

San Francisco Will Ask Congress to Keep Franchise Alive.

(Special Press Leased Wire.)
San Francisco, Nov. 14.—Following the overwhelming vote cast in favor of the Hetch Hetchy valley water supply at Thursday's bond election, the officers of the Spring Valley Water company are understood to be planning an extensive campaign of litigation to prevent as long as possible the acquisition by the city of the Sierra rights.

President William E. Bourne of the water company held informal conferences with his directors all day yesterday and held an extended consultation with his attorneys today. He refused to make any statement at all but one of the officers of the company imparted the information that the company would undertake a campaign of litigation that was expected to embarrass the city in its efforts to take possession of the water supply.

The supervisors' next step will be the issuing of the bonds. Then a bill will be prepared for presentation at the next session of congress perpetuating the city's rights in the Hetch Hetchy valley.

BOOKS DOOMED BOTH THESE MEN

A commercial traveler told us of two unusual recoveries in supposed incurable kidney disease in Massachusetts. He gave an interesting description of the write Druggist L. F. Carter of Georgetown, Mass., who was instrumental in saving the lives of the two men. He wrote to Carter.

He now confirms the report in the following short letter:

"I have two more recoveries made by Fulton's Renal Compound after other kidney medicines had failed. How can people who have any kind of kidney trouble expect to get well on the old futile kidney patents when the census deaths show that 81 out of every 100 of them passed out from a form of the disease that Fulton worked out his Renal Compound?"

Due to the fatality of the old-time kidney medicines, the kidney deaths now number one every nine minutes. Isn't there room here for serious reflection for the man who is on his way to the drug store for kidney medicine? Kidmore Drug Co., 15 Third street, Meacham, Or.

WOLVERINE ELEVEN MEETING PENN TODAY

(Special Press Leased Wire.)
Ann Arbor, Mich., Nov. 14.—It will be Michigan vs. Pennsylvania on Perry field today, and the indications are that the game will be witnessed by the largest crowd that ever attended a football contest here. Hotels, dormitories and fraternity houses are filled with visitors who have come to see the most important game of the season on Michigan's schedule. Several hundred enthusiastic rooters have come to town with the Pennsylvania eleven to cheer the red and blue on to victory.

A feeling of confidence pervades the Michigan camp. The supporters of the Wolverine team figure that, although Pennsylvania probably has the best team it has had in years, it is no better than the Michigan squad, which was able to win over the Vanderbilt team by a score nearly as large as that by which Pennsylvania won over the Carnegie institution, with all of her stars in the game.

The game tomorrow will be tight between the Pennsylvania and Michigan elevens. Both of the previous contests were won by Pennsylvania. Last year they won 6 to 0 and in 1907 they won 14 to 0.

HENRY SOLOMON WILL MEET M. BISAILLON

A match of unusual interest to cue followers was arranged last night between Henry Solomon and M. Bisailion for the right to challenge Willie Dunlop for the 14-2 ballline championship of the state. Both are now playing in great form. It will be a 30-point match, one mile, selling at 10 o'clock on December 7 and on December 9.

BIG GOLF TOURNEY IS ON AT WAVERLY

The first annual northwestern golf tournament for the Waverly challenge cup began this morning on the waverly green with players in attendance from Spokane, Tacoma, Vancouver and Seattle. The tourney bids fair to eclipse every other held in the northwest in point of interest and good scores.

Most of the teams arrived yesterday and a number of the 40 players engaged in the tournament went out on the links trying them out. Without exception the local club has been praised for its excellent course.

Eighteen holes were played this morning and the same number will be played this afternoon. A reception and dance will be tendered the visiting golfers tonight.

Don't Take It

Before you swallow another dose of medicine stop and ask yourself this question: "Will that stuff do me?"
Think of the poison.
Think of the cost to your nerves and the loss of vitality.
How do you expect drugs to cure you? They are cured by nature.
A starved stomach needs food, not poison.
Your nerves and vitals are starving for new energy—electricity. Give them that and they will do their work as nature intended.
Think of Electro-Vigor and life-giving electricity. What a pleasure it is to be cured that way.
Just turn on the current when you go to bed, and all night long, while you sleep, a soothing stream of electric energy is poured into the weakened nerves and organs, renewing their life and activity.
You wake up in the morning with a feeling of increased strength and vim. After a few applications your troubles are cured forever.
I feel 100 per cent better since using Electro-Vigor. I have no rheumatism, no headache or stomach trouble. I cannot give you treatment too much praise for having saved me from a general collapse.

LOST VITALITY
"A merry heart doeth good like a medicine, but a broken spirit drieth the bones."—Proverbs 17-22.
The above quotation from the Old Testament is worth thinking over. If you are older physically than you are in years, "spirit broken" responsibility run down and discouraged, take a hint from the above text and act accordingly. Don't make up your mind to look after your health by-and-by or to never—Action corrects mistakes, despair and neglect increases them. There is one little experiment that adhered to will make a man all that he can ever hope to be in this world in health and wealth—it is to "not put off until tomorrow that which should be done today."
I take broken-down wrecks of humanity whether from weak indiscretions or whatever cause, and build them up as strong as their fellows.

I Make Men Strong
Enough to succeed in the battles of life, because skill and experience have taught me how. Don't fool your time or money away on body batteries or electric belts. Men have written me that their testimonials were used without their consent and were not true. I keep them on file to prove this statement. You can get more electricity for pennies in a penny amusement parlor than is contained in the biggest body battery fake on the market. There are failures in all walks of life. When a preacher goes wrong he says the church is composed of hypocrites; when a lawyer is a failure he attributes it to anything but a lack of brains. When some doctors are no good electricity streams from every finger tip and every pore from the effects of a 75c tin button battery (in picture only) that so much poor Gentlemen, be sensible and serious. If you get cured of an ailment you want it to be a real cure and a lasting cure. If a doctor is able to do this he is willing to wait for his patient to be cured. That is our plan, but it is not the plan of any electric belt agency in this country and the reason is plain.

IF YOU ARE A Weak Man

Do you feel that your manly strength is slipping away? Are you weak, nervous, fretful and gloomy, have pains and aches in different parts of your body, your back, headache, despondency, melancholia, palpitation of the heart, unable to concentrate your thoughts, poor memory, excited fatigued, specks before your eyes, aversion to society, lack of ambition, will power depleted, dizzy spells, vital losses, poor circulation, loss of sleep, and poor appetite, induced in many cases through abuses, excesses, overwork, etc. If so, then I warn you. Do not delay longer. The methods I devised 20 years ago for treating men's diseases proved a radical step in medical science. Those methods have enabled me to cure diseases that were formerly regarded as incurable. In working out my methods, I held the theory that "WEAKNESS" for instance was not a constitutional defect, but the result of a prostatic affection, and, therefore, merely local. I reasoned that its constitutional function, the result of a tremendous waste of energy due to inflammation of the prostate gland; that this being true, a local treatment could alone effect a cure. Thereupon I devised the treatment I employ today with such marked success. Indeed, I have never known this treatment to fail to effect a complete and permanent cure in a comparatively short time.

SPERMATORRHOEA, "WEAKNESS," CONTRACTED DISORDERS, SPECIFIC BLOOD POISON, LOST STRENGTH, VARICOSE, HYDROCELE and STRICTURE and all reflex ailments cured promptly and permanently.
