uprightness and denounced the men supposed to be responsible for the attempt on Heney's life.

The most crowded meeting was at the First Presbyterian church, where John W. Sweeney, one of the labor leaders of the city, flayed the higher-ups in an address. He declared that the indicted men hired Thomas B. Dozler as associate counsel for Ruef for the express purpose of nagging at Heney until he would say something that would lead someone to think himself justified in killing the prosecutor.

Sweeney declared that Police Commissioner Kell was the man who gave the order that Burns should not be allowed to see Haas in jail, and denounced Kell as a grafter.

### RECIPE FOR PIMPLES AND FACIAL BLEMISHES

At this time of the year, owing to the varying diets, it is difficult to keep the face and neck free from eruptions. The simple formula below is given out and is said to be the most effective obtainable for a complexion restorer as well as for removing blackheads, pimples and blemishes. The ingredients are procurable at any well stocked drug store, and are as follows: Two ounces Rose Water; one ounce Spirits of Cologne; four ounces Sartoin.

Put the Sartoin into a pint of hot water (not bolling), and after it is cooled strain through a fine cloth and add the Rose Water and Cologne Spirits.

Spirits.

It is an inexpensive preparation which, if persistently used, is said by those who have tried it to produce smaxing results, even for the worst complexions.

Oakland, Cal., Nov. 16.—A committee of ministers of the Oakland Church Federation today sent to Mrs. Francis J. Hendy a copy of a resolution of condelence adopted at yesterday's mass meeting of the Oakland churches. It reads:

"Dear Mrs. Heney—Gracious God bless and restore speedily to full health your husband and thus bless our state, is the prayer of the Church Federation, met in the crowded First Methodist church of Oakland. We extend to you our fullest sympathy in his acute suffering.

Intends Bringing Charges Against the Police Guards That Haas Suicide Mystery May Be Solved-Chief Biggy Under Fire.

(United Press Leased Wire.) San Francisco, Nov. 16 .- Special Agent William J. Burns today stated that he would ask the police commission to investigate the suicide of Morris Hass. the would-be assassin of Heney, at the county jail Saturday night. He is anxious to learn whence came an alleged order that he was not to be permitted to see the prisoner and wants to know how Haas could secure a gun under the very eyes of three policemen detailed to watch him to prevent that very thing.

The investigations carried on by Burns have established one thing to his satisfaction. He says the gun was not carried into the jail by Haas. Some one gave it to him after he was confined in the cell, he says. Burns thinks this was his wife, notwithstanding the fact that Mrs. Haas denies that she carried the pistoi to her husband.

Chief Under Fire. Chief of Police Biggy, on the other hand, says Haus carried the pistol to the cell with him and states that Police Captain Duke did not search the pris-

Captain Duke did not search the prisoner carefully. Captain Duke takes is sue with Chief Biggy and says a careful search of the prisoner was made before he was put into jail.

The outcome of the dispute will be charges against Chief of Police Biggy himself, who is to be called on the carpet, and is to be asked to explain why he has given out statements declaring that the shooting of Heney was not the result of conspiracy, and if he gave the order that Burns was not to see the prisoner, why he gave such an order.

"From what I have learned I am satisfied that Mrs. Haas, either wittingly or unwittingly, passed the derringer to her husband," said Burns today. "In view of this fact and that he killed himself while under guard of men detailed self while under guard of men detailed to watch him every moment, and after I had been denied admittance by these same men, and had later secured from him a confession directly contradictory to their reports, the case assumes a bad phase, which demands a thorough inves-tigation. I will prefer formal charges against Kelley and Attridge, Haas' guards, and in this way we will find out who is responsible for the order that I should not see the prisoner, why it was anticipated that I might visit him, and why, if it was anticipated, the district attorney's office was not noti-fied that such an order had been given.

"A legislator who chooses his own principles and formulates his own platform will be held to a strict accountability by the people who elected him and any sudden change of heart will have to be explained. However, I have sufficient confidence in the integrity of those who were elected upon a platform of their own choice, to believe that they will carry it into effect."
