### CO-EDS' DEBATING LEAGUE

Young Women of Albany College Start Movement.

(Special Dispatch to The Journal.) Albany, Or., Nov. 20.—An effort to organize a state debating league for young women students of the various colleges and universities of Oregon was set on foot yesterday when the young women of Albany college met and elected Miss Rhoda Stalnaker as manager of the local young women's debating society.

In pursuance of the plan to organize a state debating league, Miss Stalnaker will write at once to the several state institutions and endeavor to ascertain the sentiment toward a state league, and if favorable, will select a time for a meeting, at which the colleges and universities will be represented, to permanently perfect the league.

### Poor Tools and A Good Worker

That Is What Makes Indigestion, Dyspepsia, Sour Taste, Foul Breath and Catarrh.

The stomach is a good strong vital organ, which is constantly protecting and feeding every other organ of the body.

It is the most abused, neglected and scorned member of man also. Most men abuse their stomach with uncooked food, living alcohol, tobacco, pastries and scores of other unhealthy practices.

When the stomach at last sickens of all this abuse and cannot do its full duty, most men are not warned but keep up their assaults on the stomach until it has rebelled and begins to strike back and cry for help. Man by his own abuse has taken away from the stomach the tools to work with.

These tools are the gastric juices which go to make up the digestive agents. From 25 to 35 lbs. of gastric juice are turned into the stomach every day.

When poor, poisonous food consumes this juice, it robs it of its strength and throws it, a fermented mass from the system, of course there is just that much of the gastric fluid which cannot be readily supplied by the blood.

When food comes into a stomach filled with depleted fluids lacking of power to do their part, the good strong stomach is using poor tools and, of course, cannot succeed in its work.

A condition which often prevails is that which takes place when the gastric juice contains too much alkali. If the juice were wholly alkaline it would not only devour and digest the food but would eat and digest the stomach itself. Such gastric fluid does the digestion no good and attacks the walls of the stomach making inflammation and irritation.

Stuart's Dyspepsia Tablets will strengthen a stomach filled with poor gastric juice. They will remove any abnormal alkaline condition, allay irritation, sweeten the breath, remove catarrhal conditions and digest food no matter how the stomach has acted before.

These little tablets contain an ingredient, one grain of which will digest perfectly 3,000 grains of food. They will digest an entire meal placed in a jar without the aid of any other force except themselves. They have demonstrated this time after time.

Every druggist carries them in stock; price, 50c, and 40,000 physicians use them in their practice. Send us your name and address and we will mail you at once a trial package free. Address, F. A. Stuart Co., 159 Stuart Bldg., Mar-

### At present it is proposed to include Albany college, Klamath university, Oregon Agricultural college, Pacific university, McMinnville and the University of Oregon.

### Sophomores Will Limit Invitations to Their Party.

(Special Dispatch to The Journal.) University of Oregon, Eugene, Nov. 20.—The sophomore class, after a strenuous debate yesterday afternoon, decided to limit invitations to the annual party, which will be held the middle of next month. It will be strictly a university affair. Invitations will be issued only to the faculty, alumni, ex-students and students of the university.

This movement is meeting with hearty support as the enrollment at the university has grown to such an extent that no hall is big enough to accommodate more than their number. Up to the present time it has always been the custom to invite outsiders with the result that the floor has been crowded beyond the point of comfort.

### FINAL SURVEY RESUMED

They strengthen and invigorate the kidneys; help them to do their work; never fail to cure any case of kidney disease. Read the proof from a Portland citizen.
