SLAVE TRAFFIC ON THE SOUND

Detectives Arrest Four Alleged Dealers in Japanese Girls.

(United Press Leased Wire.) Seattle, Wash., Nov. 20.—Baffled for the past five years, United States immigration officials have arrested four men, and with their arrest is revealed a scheme of traffic in Japanese girls

which promises one of the biggest scandals ever unearthed in the northwest. The men under arrest are Captain T. R. Gawley, former master of the sound steamers Edna and Advance, and who, immigration officials allege, is the backbone of the gang; Kazuchi Katayama, a wealthy Japanese lawyer and interpreter of Seattle; Naki Ishikawa, another wealthy Japanese, who has been posing as a wholesale diamond merchant, and Osaki Kimura, a Japanese who resides near Olympia, and who is said to be worth \$200,000. The prisoners are held at the county jail and are not allowed to communicate with each other. The downfall of Captain Gawley and the Japanese, who are alleged to have been associated with him in their nefarious operations, was due to a clever trap set by Special Agent G. A. Miller, one of the trusted men of the immigration service at Washington, D. C. Miller's plan, which resulted in Captain Gawley's arrest, is in part the old story of a woman's wiles and man's weakness. A beautiful woman in the employ

of the government accompanied Miller to Seattle. After several months' work she succeeded in working herself into Captain Gawley's good graces and artfully worked upon the captain's feelings. Gawley, who was already suspected by Miller as one of the members of the gang, agreed to furnish as many Japanese girls as the woman cared to traffic in. The price to be paid was \$500 each. The woman accepted to this proposition and readily paid over \$250 to Captain Gawley as advance money. Five Japanese girls were to be furnished last Saturday, but Captain Gawley became suspicious and failed to keep an appointment with the woman. The girls whom he was to have furnished are now in Seattle and will be rounded up tonight. At the detention house there are fully a dozen girls who it is charged were brought into the United States for immoral purposes through the instrumentality of Captain Gawley and his Japanese associates. From authoritative sources it is learned that the gang has for months been shipping young girls from the orient to large eastern cities, including Chicago, New York, St. Louis, Minneapolis, Boston and Philadelphia, there to be sold.

JAPANESE WHO IS AN OPTIMIST

Says Japan Is Ready to Follow America for Christianity.

(United Press Leased Wire.) Stanford University, Cal., Nov. 20.—An explanation of the relations of Japan and the United States was made by Dr. D. Ebin, the noted Japanese missionary, in a talk to the students last night.

"When the American people abolished slavery, they did their noblest work," said Dr. Ebin. "Japan has abolished distinction and has done away with the aristocracy. The growth of democracy among our people has been wonderfully rapid. We are following the United States, and you are advancing above all the other nations of the earth. America and Japan, by combination of their forces, can push on the work of God. We are willing; you are more able. You start; we will follow. The people of Japan are following the Americans, and we are in this way, brothers and sisters. Japanese see much humanity and they have learned to love their enemies. You have a great task before you in Americanizing the whole Japanese nation."

WATER TRUST IS BROUGHT TO BOOK

Suit for \$17,000,000 Against Spring Valley, Growing Out of Big Fire.

(United Press Leased Wire.) San Francisco, Nov. 20.—Announcing that there would not have been a general conflagration following the earthquake of April 18, 1906, if the water mains of the Spring Valley Water company had been properly placed in the ground, a suit for over \$17,000,000 damages against the water company was filed in the United States circuit court today. The suit represents an aggregate of 3,500 claims owned by over 100 property owners of this city. They have all been assigned to Harry A. Ripley for the purpose of the suit and all the claims will be contested in this one action.

It is intimated that similar actions will follow against the gas company for damage resulting from explosions of gas from the leaky pipes on the first day of the fire. A decision is admitted that the Spring Valley will fight the suits on demurrer, into the highest court in the land. The company would mean the loss of its entire capital and heavy drains on the liabilities of the stockholders. One of the sensational features of the complaint is the allegation that "the water corporation permitted its water system to be managed carelessly and for private profit of many of its directors and stockholders personally." Affidavits by recent employees of the company, alleging misappropriation of funds, are said to have been prepared and made ready for filing. Henry Williams, who has charge of the suits, denied that insurance companies are interested in the prosecution of the suits. He has been working on the cases for six months. Samples of broken pipe and trestles and other defective water service equipment are being held in three storerooms, while safe deposit vaults contain the affidavits of fire chiefs and eye witnesses who saw the great fire.

"CANCER" STATED CLINIC DOCTORS AFTER DIAGNOSIS

Remarkable Recovery of Elderly Woman From Supposed Fatal Malady

The following remarkable statement by Patrolman George A. Lehnhoff, Sixty-first precinct, New York, is made in connection with the much-discussed medicines now being introduced by L. T. Cooper in New York. Patrolman Lehnhoff, when seen at headquarters, said: "My mother, living at 986 Union avenue, Bronx, N. Y., who is seventy-one years of age, has had catarrh of the stomach for ten years. The gas in her stomach pressed on her heart to such an extent that physicians told her she had heart trouble. Her condition became so bad that she was taken to the polytechnical clinic on Thirty-fourth street and was examined by a board of physicians, who diagnosed her case as cancer of the stomach. "She heard of this Cooper medicine and asked me to get it for her. I was skeptical, however, and would not do so at first, but my mother insisted, and I finally got the treatment for her, although I did not believe anything could help her. "She has taken the treatment and does not seem like the same woman. She no longer has any pain in her stomach, can eat anything, attends to her household duties and goes down town whenever she feels like it with no fear of being sent home in an ambulance. "The entire credit for this wonderful improvement in her is due to this medi-

cine. It is a marvel to me, as I was sure her case was hopeless." In speaking of Patrolman Lehnhoff's statement, Cooper said: "It's quite possible that Mrs. Lehnhoff had symptoms of cancer, and this undoubtedly caused an incorrect diagnosis, for I feel very confident that neither my medicine nor any medicines on earth would prove effective in a genuine case of cancer of the stomach. "I often have people tell me that they have been suffering with various organic diseases and that my medicine has restored them to health. I do not argue the point with them; but Cooper's New Discovery only regulates the digestive organs and could have had no effect on such diseases. I therefore know that they have mistaken a bad case of stomach trouble and general run-down condition for the diseases they describe. "A run-down, over-worked stomach will put the nervous system on edge in short order, and nervous depression follows. An individual in this condition is very apt to imagine himself afflicted with many grave and complicated diseases when such is not the case. "Cooper's New Discovery, the medicine which caused this article in the New York World, is now on sale at leading drug stores throughout the United States. Ask your druggist for it."

WILL LECTURE AT HELIG.

Madame Yale to Talk on Beauty. The ladies of Portland are to have an opportunity to hear a lecture at the Helig theatre on Tuesday, December 1, at 2:30, by Madame Yale, the famous beauty specialist. Madame Yale is making a tour of the United States, visiting the larger cities.

The subject of her lecture on in Portland will include the art of beauty culture, the science of physical culture, the poetry of motion, and the art of good style. Madame Yale has been received enthusiastically wherever she has been, and no doubt will be generously welcomed in Portland. The lecture will be free. Arrangements for tickets can be made at the toilet goods department of Lipman, Wolfe & Co.

Magness' Sentence Approved.

(United Press Leased Wire.) Washington, Nov. 20.—The punishment meted out to Charles J. Magness, alias C. J. Magness, who married the daughter of the late United States Senator Gorman of Maryland, and who was sentenced to a year's confinement in the naval prison at Portsmouth, N. H., and dishonorably discharged from the navy, has been approved by Acting Secretary of the Navy Newberry. Magness deserted from the United States navy.

PRETTIEST NUGGET

Ever Brought Out of Alaska is to be seen in the show window of M. L. Asher, Jeweler, 257 Washington street. See it today or tomorrow. See advertisement of Roberts & Co., page 18 regarding this property.

HOME TREATMENT

For Consumption and Throat Troubles Proves Very Effective.

The camps for tuberculosis patients in the pine forests of Maine, have demonstrated a wonderfully successful phase in the treatment of pulmonary diseases. The remarkable stimulating effect on the respiratory organs by the resinous atmosphere of the pine forest has led to medical experts producing an extract from pine which contains the active principle so that by its use and the practice of deep breathing and lung exercise any person can have the advantages of the pine forest camps right at their own homes. The formula is originally prescribed in the following: "One-half ounce Concentrated pine compound, two ounces of glycerine, half pint of good whiskey. It should be shaken thoroughly and taken in doses of a teaspoonful to a tablespoonful every four hours. These ingredients can be had from any good druggist and easily mixed. The Concentrated pine is a special pine product refined for medicinal use and comes only in half ounce bottles, each enclosed in a tin screw-top case, which is air-tight, but be sure it is labeled "Concentrated."

Holsman's The Home of Fine Watches At Lowest Prices

Last week we advertised 163 WATCHES of standard makes which we offered at SPECIAL PRICES while the supply lasted. We disposed of 49 of these 163 watches. This exceeded our fondest expectations.
