The king of Italy not only had a marble palace built for the exclusive use of the institute, but has also be-stowed upon the institute estates which yield an annual income of from \$60,000 to \$100,000. The palace was first used in June of this year, when the perma-ment organization committee, consist-ing of representatives of the various countries supporting the institute plan, assembled there for a preliminary con-ference. Signor Faina, well known throughout Europe as an agricultural expert, was chosen presiding officer. In that conference a program was formu-lated for the organization of the insti-tute. This program was afterwards submitted by the delegates to their re-spective governments for approval. The delegates composing the institute will report to the institute at its present ession and a complete plan of organi-stion will be developed in accordance with the instructions of the delegates.
