

POLICE LET HAAS KEEP HIS GUN

Coroner's Jury's Finding Is at Once a Charge and a Vindication.

(United Press Leased Wire.)
 San Francisco, Nov. 24.—Further action against the police officers who refused to permit Special Agent W. J. Burns of the graft prosecution to see Morris Haas is being planned by District Attorney Langdon following the verdict of the coroner's jury late yesterday in the Haas inquest in which the police were censured.
 The verdict, after finding perfunctorily that Haas shot himself, reads: "We further find from the numerous witnesses examined, that gross negligence and incompetency were shown by the police officials having in charge the searching of the prisoner, Morris Haas, in not properly safeguarding the best interests of the people, thus making it possible for the small derringer to remain secreted on his person."
 "We also find that there has been a strong feeling of animosity engendered between the police department and the district attorney's office, which is to be deplored in the present crisis through which our city is passing, as they should work in perfect harmony to the end that all crimes should be detected and punished."
 The verdict closes with a recommendation that the mayor should investigate and report the conditions apparent.
 The verdict, while hitting the police, is looked upon by them as a vindication of their theory that Haas carried the derringer with him in his shoe into his cell.
 It has been the theory of Burns and District Attorney William H. Langdon that the pistol was given to Haas at the time of the visit of Mrs. Haas to the county jail. This was while police officers were guarding Haas and at a time when the patrolmen refused to allow Burns to interview Haas. This refusal subsequently resulted in charges against them by Burns, which are yet to be threshed out.

Fraternity That Will Banquet Tonight Rejoices in 9,000 Members.

(Special Dispatch to The Journal.)
 New York, Nov. 24.—Distinguished appearing men wearing fraternally pins in their coat lapels were numerous today about the corridors and lounging rooms of the Waldorf-Astoria. Among them were United States senators, noted authors, clergymen, prominent merchants, members of the judiciary and men who have risen to eminence in the professions and mercantile pursuits. The purpose of their gathering was to attend the great reunion and banquet to be given at the Waldorf-Astoria tonight in celebration of the seventy-fifth anniversary of the founding of the Psi Upsilon fraternity, of which they are members.
 The banquet promises to be a notable affair. The scheduled speakers are all men of national prominence. A letter regretting his inability to be present and expressing his warm interest in the event will be read from President-elect Taft, who is an active member of the fraternity.
 The Psi Upsilon is one of the foremost of the college Greek letter societies in America. The society was founded at Union college, Schenectady, in 1833, by nine enthusiastic young men, who hardly dreamed that they were building a great national college society for all time. The fraternity soon commenced to spread, reaching Harvard, Yale, Columbia and other big eastern colleges. Then it swept into the middle states. Recently it has placed chapters in the Universities of Wisconsin, Minnesota, California and Chicago. It has achieved a membership roll of over 10,000, of whom 9,000 are living members. On the roster of the society are many distinguished names. Among these, in addition to President-elect Taft, are Senator Chauncey M. Depew, Dr. Nicholas Murray Butler, president of the Columbia university; Andrew D. White, former ambassador to Germany; Senator William P. Frye of Maine, Senator George P. Wetmore of Rhode Island, former Senator John C. Spooner of Wisconsin, Herbert W. Bowen, former minister to Venezuela, Goldwin Smith, Rev. Charles H. Parkhurst, John Kenrick Bangs, Herbert L. Bridgeman of Brooklyn, Timothy L. Woodruff, Cornelius Vanderbilt Jr. and Mayor J. Benjamin Dimnick of Scranton.
