

CARNEGIE MERELY GREEDY RICH MAN

Eugene Zimmerman Classes Him as "Self-satisfied Master of Selfishness."

(United Press Leased Wire.)
Detroit, Mich., Nov. 26.—Castigation of Andrew Carnegie as a "greedy, self-satisfied billionaire" is made public in an alleged interview with Eugene Zimmerman, capitalist and father-in-law of the Duke of Manchester, according to the report follows:
"Of all self-satisfied, greedy billionaires made possible by the glorious protection doctrine, Andrew Carnegie stands alone in the matter of selfishness."
"The protection plan is not intended by the American public for the benefit of one or two men, but for the benefit of all in this land. Here comes the Lord of Skibo, after he has got all he wants, wanting to remove the duty from steel and oil. I don't agree with Mr. Carnegie that America is ready to drop the tariff on those commodities."
"No doubt Carnegie knows more about steel than I do; still, I know from figures I learned while abroad that steel can be manufactured as cheaply in England as it can be in the United States. The ore and coal fields are closer together over there than they are here. Furthermore, labor is cheaper over there."
"Congress had best move with caution. This question is receiving lively consideration in England at the present time. In my opinion, the liberals will soon be shorn of their power and the conservatives will be in control. That will mean a policy of protection for the British Isles."

THANKSGIVING DAY OBSERVED BY ALL

(Continued from Page One.)

The day was the football game on the Multnomah field between the Multnomah team and the eleven from the university of Oregon. A vast crowd gathered to witness this event. Those who did not care for football had an opportunity to attend the theatre, for most of the playhouses have special matinee performances. In addition to these forms of amusement were dances, drives, parties planned for this evening, and entertainments.

No Danger of Starvation.

Dinner was the one great main idea today and judging from the great raids made on the turkey market, Portland people will be well fed by nightfall. Everybody was provided for. At the F. M. C. A. there was a Thanksgiving dinner, another one for the working girls of the city away from their homes was given at the Y. W. C. A.

The Salvation Army took care of those unfortunate who were unable to provide for themselves and many homes which would have otherwise gone without dinner were made happy.

At the Baby Home, at the Orphans' Home, at the Boys' and Girls' Aid society special dinners were provided.

Out at the poor farm the inmates ate turkey and thought of the days gone by when they were seated at their own tables carving their own fowls.

Prisoners Eat Turkey.
The imprisoned men in the jails were also fed bountifully. At the county jail, at the city hall, and at the special dinners, including turkey and cranberry sauce were served.

At the saloons even, where the home-less Russian and other groups of a great city make their headquarters, special preparations had been made and Thanksgiving day turkey lunches were served to the hungry. Everywhere was the Thanksgiving spirit from the newboy who sits at the millinery in his home.

This evening a union Thanksgiving service will be held at the Forbes Presbyterian church, corner of Gantzen and Sellwood streets. The Methodists, Baptists, Christians, Congregationalists and Presbyterians of Albina are expected to join in it. Rev. Hamilton of the Central M. E. church will preach and a male chorus from the Mississippi Avenue Congregational church will furnish special music.

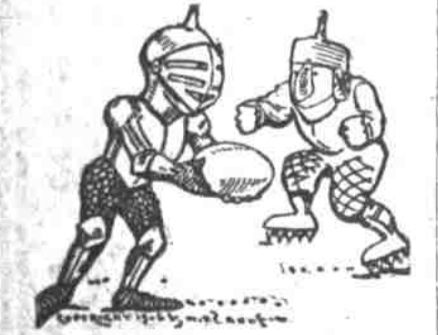

GOTHAM'S GRATITUDE HEIGHTENED BY THAT EXCELLENT FEELING

(Special Dispatch to The Journal.)

New York, Nov. 26.—Thanksgiving day was celebrated today throughout New York more generally than last year or the year before, probably owing to the fact that business has shown marked improvement since the election. Business was practically suspended today and the usual holiday spirit seemed to pervade the city from the Harlem river to the Battery. Special services in the churches formed the principal feature of the morning and the attendance was unusually large.

As usual on Thanksgiving day, the poor of the city were kindly remembered, not only by the Salvation Army and other charitable organizations but also by fraternal and other societies and clubs.

A MAN'S BREADTH ESCAPE.
Do you know that every time you have a cough or cold and let it run on thinking it will just cure itself you are inviting pneumonia, consumption or some other pulmonary trouble? Don't risk it. Put your lungs back in perfect health and stop that cough with Ballard's Horehound Syrup.
Price 5c, 50c and \$1.00 per bottle. Sold by Skidmore Drug Co.

Today we're closed—to see the game.

Tomorrow We'll be in the game, to supply you with the best values in Men's and Boys' wear.

PEARL HARBOR IS PROPOSED TO CELEBRATE NAVAL EVENT ON THE GRANDDEST SCALE.

(United Press Leased Wire.)
Honolulu, Nov. 26.—The official opening of the United States naval base at Pearl Harbor will be celebrated in the island by an international exposition in 1912, according to plans now afoot.

The Honolulu chamber of commerce has decided that the opening of the \$10,000,000 station of the federal government should be fittingly observed and that one hundredth anniversary of the triumph of the American navy on the Atlantic coast has been chosen as the appropriate time.

The matter was first broached to P. B. Loomis, commissioner general to the Japanese exposition, on his arrival here on the Mongolia. It met with his endorsement and he suggested that the cooperation of United States consuls throughout the world be sought. A suggested feature is a congress of consuls from the consulates bordering on the Pacific ocean to discuss American affairs in the Pacific.

private individuals. Several aldermen of the east side, representing the crowded districts between the Bowery and the East river, followed the time-honored custom of distributing turkeys, chickens and other good things among the poor of their districts.

The day was also duly observed in all the penal and charitable institutions of the city and in the numerous sectarian and other charitable institutions, homes, hospitals and asylums. The immigrants at Ellis Island were not forgotten and to many of them turkey was a great novelty.

In the afternoon large bands of ragamuffins from the poor districts of the east side, clad in improvised masquerade costumes, marched through the streets and enjoyed themselves, without interference on the part of the police. The program for the evening includes the annual Thanksgiving dinner of the boys in the Newboys' home and countless smaller dinners given by political organizations and clubs.

The maline performances at the theatres were well attended and for the evening performances every house in the city is sold out in advance.

HAND OF CHARITY IS WIDE OPEN IN THAT WINDY TOWN

(Special Dispatch to The Journal.)

Chicago, Nov. 26.—Thanksgiving is always a great day in this city, but this year the day was celebrated with even more than the usual fervor. The people seemed to think that they had some special reasons to be thankful and they did not hesitate to give appropriate expression to their feeling of gratitude. The price of turkeys was high, but that did not materially affect the general assumption of that delicious fowl. Those who could afford it bought their own turkeys and for those who could not, somebody else provided turkey. The Salvation Army and the Volunteers of America were, as usual, the leaders in the charity work.

At the former years, the prisoners in the county jail and the boys in the John Worthing school were given a holiday, with turkey and many other nice delicacies on their dinner table and some kind of entertainment in the afternoon. In nearly every orphan asylum, hospital, old people's home, etc., the management had provided a bounteous Thanksgiving dinner for the inmates and also arranged some kind of services or celebration of a semi-religious character.

MANILA AND MEN OF FLEET REJOICE TOGETHER TODAY

(Special Dispatch to The Journal.)

Manila, Nov. 26.—The general Thanksgiving day rejoicing at Manila is enhanced by the fact that 1500 blue-jackets from the Atlantic battleship fleet are ashore and enjoying the hospitality of the city. For the first time since the arrival of the fleet American men of war have been given shore leave and the inhabitants are making up for the delay by the fervor of their greetings. The city is beautifully decorated by day and illuminated by night. All varieties of entertainment are provided for officers and men and personal escorts are provided for the visitors. All places are free except the lately infected districts, and the men implicitly obey the health orders. Reception committees greeted the sailors at Cavite, and sang patriotic songs and artillery salutes were fired as the liberty barges came to the landings.

Some of the ships are serving special dinners to their officers and men, but since Thanksgiving day is not observed alike by all nations, it is in some instances observed as a day of rest rather than a day of feasting.

LAST THANKSGIVING OF ROOSEVELTS AT THE WHITE HOUSE

(Special Dispatch to The Journal.)

Washington, Nov. 26.—President-elect Taft returned home today for their last Thanksgiving day in the White House. At the executive mansion, as in other departments of the government service, the day was made as much of a holiday as possible. The secretaries and clerks were given the day off and the president, after an hour or so spent in his office in the early afternoon, shut the shop, as he said, and prepared to spend the remainder of the holiday with his family. This afternoon the president left the White House long enough to attend the laying of the cornerstone for the negro Y. M. C. A. building that is to be erected at Twelfth and B streets.

SAILOR RESTS OR FEASTS ACCORDING TO HIS NATIONALITY

No work is being done along the waterfront in the vessels in the harbor lying idle at their moorings, except the steamer George W. Elder, which sails tonight for San Pedro and way ports. At the executive mansion, as in other departments of the government service, the day was made as much of a holiday as possible. The secretaries and clerks were given the day off and the president, after an hour or so spent in his office in the early afternoon, shut the shop, as he said, and prepared to spend the remainder of the holiday with his family. This afternoon the president left the White House long enough to attend the laying of the cornerstone for the negro Y. M. C. A. building that is to be erected at Twelfth and B streets.

President-Elect's Thanksgiving.
(United Press Leased Wire.)
Hot Springs, Nov. 26.—President-elect Taft spent a quiet Thanksgiving day in this city, taking breakfast with M. E. Inalls and then attending the Episcopal church in company with Frank Hitchcock, chairman of the Republican national committee.

Carroll S. Page, the new United States senator from Vermont, is a former governor of that state. He is a man of much wealth and is said to be the largest dealer in green calking in the world.

HUSKIER CRUEL: HAD AFFEITY

(United Press Leased Wire.)
Seattle, Wash., Nov. 26.—Harry E. Hall, arrested several days ago on a charge of deserting his wife and later held for trial in the superior court, has been arrested on another charge and lodged in the county jail.

Mrs. Hall, who lives at Green Lake, says that accompanied by woman she says is his affinity, came to her home and demanded from her a diamond engagement ring. She says she threatened to kill her. She also alleges that Hall tore a pin which he had given her, from her dress.

NEW TOWN HALL GIVEN HOUSEWARMING

(United Press Leased Wire.)
Milwaukee's new town hall was formally opened with a housewarming and masquerade ball last evening. The town hall is on the second floor of the city hall building which has just been completed. A large attendance was present and enjoyed a general good time.

SQUARE DEAL

(Continued from Page One.)

fair solution is to treat each man on his merits as a man. He should not be treated badly because he is of a given color nor should he be excused for misconduct because of his color. Let us strive to secure for the man of one color the same opportunity for living his life under the protection of the law as, though he were of another color.

"Avenues of employment should be open to one as to the other, and the protection of the laws should be guaranteed to both. Each should be given the right to prove by his work what his capacities are, and he should be judged accordingly. Each man is entitled to the reward which he legitimately earns if he behaves well. Each should be judged with the same severe impartiality if he behaves ill. It is for the interest of the white man to see that exact justice is meted out to the colored man—the same justice which he would receive if he were not colored. And, upon the colored man is imposed the duty of making himself a useful citizen and so to behave as to win the respect of his white neighbor.

Performance of the Test.
"Performance of duty should be the test applied to the white and colored man alike, and each should be judged not by his color, but by the way in which he meets these demands. It is of great interest to white and colored men that all possible educational facilities be given to the colored people and it is of greater interest to the colored man should strive for his own industrial and moral uplift."

The president closed his speech with descriptions of his own home at Mound Bayou, Miss., which he recently visited. This is a town, said he, which is owned and controlled by colored people in a farming community where only blacks live.

JEALOUS FARM HAND MURDERS HUSBAND

(Continued from Page One.)

long ago from Rainier, Or., and is known to have held a certificate of membership in the Rainier lodge of the I. O. O. F. After Swingle had murdered Newell and killed himself, Mrs. Newell ran to a neighbor's calling for help. The neighbor at once ran over to the scene of the tragedy. The bodies were taken to Yaocot last night, and this morning were taken on to Vancouver.

Head of the little girl was a witness of the tragedy, Mrs. Huffman-Newell has two other children, who are away at school. The Masonic lodge of Vancouver will take charge of the funeral of Newell.

BURGLAR'S NITRO KIT FOUND AT SPOKANE

(United Press Leased Wire.)

Seattle, Nov. 26.—A big burglary job in Seattle, it is thought, has been averted by the discovery, at Spokane, of a burglars' explosive plant just as it was about to be shipped to this city. When and where the burglary was to take place will probably never be known, but from the caution shown by the burglars the local police are satisfied the safe blowing planned was something out of the ordinary.

The proprietor of the Lufkin lodging house at Spokane received a letter for forwarding a box to J. C. Wren, Seattle. The box had been for some time in the lodging house storeroom, with grips, trunks and other accumulations. The box was small and light and the lodging house man was struck with the thought that it would have been easier for the owner to carry. And, he accordingly investigated and nearly fainted when he discovered a pint of nitroglycerin, several long fuses, some soap and other odds and ends used by modern safecrackers.

The lodging house man called the police and the Spokane copper held the breath until he deposited the box with Chief of Police Rice. The Seattle police were notified and are now in search of J. C. Wren, who, however, has managed to keep himself out of sight.

BRE'ER B'AR "TOLLED" BACK TO HIS CAGE

(United Press Leased Wire.)

Boise, Idaho, Nov. 26.—A panic was created in the southern part of the city when a bear escaped from his cage in the zoo at Riverside park. After the animal had wandered through the streets for an hour, Austin, residing near the park, took a dish of honey and coaxed the animal back to its cage.

Tobacco Kills

Face to Face With Death.

There's nothing that can be said in favor of the tobacco habit. It's expensive; it's filthy; it's injurious; it's positively dangerous. Nicotine is a deadly poison—witness the thousands of deaths from diseases of stomach, liver, kidneys, and other organs. It's a positive "stopper" for any tobacco habit. It's a vegetable remedy, and any lady can give it secretly in food or drink. It is harmless; leaves no reaction or bad after effects, and it stops the habit to stay stopped.

NOTE—Special attention to diseases of the prostate gland; the only cure without the knife. Consultation free.

WOMAN KILLED BY WILD TRAIN

(United Press Leased Wire.)
Florence, La., Nov. 26.—Mrs. John W. Crandall was killed today while sitting in the New Orleans and Great Northern railroad station, by a gravel train that had jumped the track. The train, going at a high rate of speed, leaped from the track, plowed along the station platform and crashed into the station. Mrs. Crandall, who was in one of the waiting rooms, was caught by the engine and her body cut in halves. The building was demolished.

THE BEST COUGH CURE

A half-ounce of Virgin Oil of Pine, two ounces of Glycerine and a half-pint of Whiskey, mixed, will cure any cough that is curable and break cold in 24 hours. Take a teaspoonful every four hours. Ask your druggist for the genuine Leach's Virgin Oil of Pine compound pure, prepared and guaranteed by the Leach Chemical Co., Cincinnati, O.

Electricity Is Life

The truth of this trite saying is becoming more fully realized as our knowledge of this wonderful force increases. Science demonstrates that the vital processes of digestion, respiration, circulation, etc., are dependent upon electricity, and that the delicate nerve currents are essentially electric in character. When they become weakened and the vital processes deranged, why should not the application of the proper electric current be the best treatment for the resultant disease? Experience shows that this is so, and many diseases which have been considered practically incurable have yielded to electric treatment, in which great advances have recently been made.

Do You Want to Get Well
Are you tired of medicine and disgusted with the "make believe" (make believe you are getting well) systems of treatment? If so, I offer you a rational method of cure, one which will show results.

My office is fully equipped with the latest scientific appliances for electric and electric-light treatment.

All nervous disorders—nervous debility, dyspepsia, headache, neuralgia, sciatica, insomnia—are quickly relieved, rheumatism eliminated, asthma, bronchitis, consumption (first stages) and diseases of the stomach, liver and kidneys cured. Skin diseases, eczema, chronic ulcers, enlarged glands, scrofula, etc., permanently cured.

NOTE—Special attention to diseases of the prostate gland; the only cure without the knife. Consultation free.
