

THE WORLD'S MARKETS

EGGS

40c Now Obtainable for All Fresh Goods - Marked Stock at Premium.

PORTLAND WHOLESALE MARKETS.

Egg market quite stiff. No outside potato demand. Turkeys will continue. Dressed meats continue high. Salmon run is quite heavy. Onion market holding weak. Movement of apples good. Fill December hop contracts.

Egg Market Quite Stiff.

While so far as known no actual sales of front street fresh eggs are being made over a dozen the market is exceedingly firm. This time the prices are 10c higher than last week. There is talk of still higher prices obtainable for "marked" eggs—those which have the name of the producer and the date of production stamped upon each egg—the general run of first class stock will not move over the question. As a result of the higher price for local goods of late eastern stocks here have been forced higher and as high as 4c a dozen is asked for select quality. Even ordinary grades of eastern eggs are now moving at 30c or better.

No Outside Demand for Potatoes.

The market for potatoes is stagnant as far as any outside demand is noticeable. No supplies can be shipped to San Francisco because of the low prices there and shipments to Arizona and Texas are out of the question because of the very low figures California growers are still willing to let go at. The local demand for potatoes is quite fair, but most of the trade is at this time being supplied by growers direct from wagons to the retail grocers and for that reason there is only a nominal movement along front street.

Holding Onion Market Steady.

The market for onions is being held steady to firm by the growers and front street values are unchanged from previous figures. It is expected that some houses to break the local market by importing supplies from California have had the effect of keeping local values from climbing higher. Without the recent importation from the south there would not have been sufficient amount of home grown onions offered to fill the requirements of the trade.

Fill December Hop Contracts.

Now that Thanksgiving is over, the hop trade has begun to awaken and several sales have been reported around the city. It is expected that the number of hop contracts for December delivery are now being filled. Pinus of Tacoma is still holding off his price and has not been willing to sell outside of the settlements he recently made in cash. He still believes that lower prices will prevail. Hops of quality are getting very scarce, but there is still plenty of ordinary goods offering around the market. Hops of quality are getting very scarce, but there is still plenty of ordinary goods offering around the market. Hops of quality are getting very scarce, but there is still plenty of ordinary goods offering around the market.

Run of silverside salmon is showing considerable increase in the Columbia and local arrivals are heavier. Same prices in effect.

Cabbage supplies are just about equaling demand, which keeps the price around \$1.75. Front street sells at the following prices. Those sold shippers are less regular commission, 2c per box.
