

HOW WILLIE'S BRILLIANT SCHEME WAS SPOILED BY A STRONG SPRING

Dear Tommy: Papa and I took a trip on a rubberneck wagon the other day, and we nearly twisted our heads off looking at things. Then I invented a scheme like this diagram. Papa thought it was great and got the president of an automobile company to look at it. I got Jim to work the levers for me, and he spoiled the whole thing by pushing the lever too quick.

WILLIE.
