DISGRACE TO BE ELECTED BY FRAUD

A. E. Clark, Staunch Republican, Thus Characterizes Any Man Made Senator Through Broken Promises—Will Members Sell Out?

Just as a matter of last analysis, this senatorial question simmers down to this: Are there six members of the legislature who can be bought to repudiate their pledges, and is there any man in Oregon who has enough money and desires to buy, or enough patronage and desires to barter it? This is the way A. E. Clark sums up the senatorial situation in a discussion concerning the matter this morning. Mr. Clark, one of the well known lawyers of the city, was a supporter of Senator Fulton in the primaries. In the general election he was a supporter of H. M. Calk, the Republican nominee for the senatorship. During the campaign he took the stump and worked valiantly for the success of the Republican ticket. He is a Republican whose standing has never been questioned and is a man who stands high both as an attorney and as a citizen. He looks upon a pledge given by a candidate for office as something which is sacred and which can only be absolved by its fulfillment.

bers of the legislature to choose as senator the man receiving the highest popular vote for the office. In other words, the people of this state selected Governor Chamberlain as their choice for United States senator and instructed their servants in the legislature to elect him. If there was nothing more than this in the situation, every citizen who believes in a government by the people would say that he should be elected. In addition to this, a majority of the members of the coming legislature have pledged themselves to vote for the people's choice for United States Senator. Mr. Clark says that this pledge was in every case voluntarily assumed and I am not prepared to believe that any citizen of Oregon, honored by election to the legislature, who voluntarily took upon himself the obligation to carry out the wishes of the people, is so far lost to honesty and civic decency that he will violate his pledge. The question is, will a man keep a promise voluntarily made and upon which he was elected? If he is an honest man he will, and if he is a dishonest man, he probably will, unless he is a man in Oregon who has enough money and desires to buy, or enough patronage and desires to barter it? This is the way A. E. Clark sums up the senatorial situation in a discussion concerning the matter this morning.

be convicted of a willful violation of that venerable document, the federal constitution. "As I view the matter there is no question of law or constitution involved," said Mr. Clark in conclusion. "A majority of the members of the legislature have pledged themselves to respect and follow the instructions of the people of this state in the selection of a man to fill the office of United States senator, and the people of this state expect them to keep their word. To express a doubt as to their intention to keep sacred their pledges to the people is to impeach their integrity."

ACH SHOWS BANK DEPOSITS OF U. R. San Francisco, Dec. 3.—An attempt of the attorneys prosecuting Abe Ruef to show that the United Railroads failed to deposit any large amounts of currency at the time it is alleged a great sum was handed to Ruef by representatives of the traction company for the purpose of bribing the hoodling supervisors during a period extending from April to September in 1906. He testified that in that time the United Railroads had made no deposits of currency in large amounts. The deposit tags were admitted in evidence. The announced plan of the prosecution is to call employees of other banks used by the United Railroads as depositories, to bring out similar testimony.

FIRST PAYMENT ON ASSESSMENT

Salem Attorney Remits \$2000 to Receiver of La Grande Bank.

(Special Dispatch to The Journal.) La Grande, Ore., Dec. 3.—The first payment on the 100 per cent assessment levied by the controller of the currency on stockholders in the defunct Farmers & Traders National bank, was received today from W. M. Kaiser, an attorney of Salem. Demonstrating as it does that funds with which to make subsequent dividend payments to the stockholders are accumulating, it nevertheless has another significance, which will be noted by bona fide stockholders who complain at the payment of a bona fide indebtedness. As brought out in his letter, Mr. Kaiser is not a bona fide stockholder, though the account stands by his name. For the transfer of the first one of the stockholders to respond to the call for assessments, and disburse the provision that would have made it possible for him to make partial payment on December 19 and wait several weeks after that to make full payment, as the department permits. So pleasing has the payment been to Receiver Neidner, that he has forwarded a personal letter warmly expressing his thanks for liberality and promptness of the Salem attorney.

HENEY OUT OF THE HOSPITAL

Physicians Say No Danger of Relapse—To Recuperate at Kentfield.

San Francisco, Dec. 3.—Francis J. Heney, the prosecutor, who was shot November 23, during the trial of the trial of Abe Ruef, left the Lane hospital today. Just 20 days have elapsed since Heney was taken to the hospital, supposedly in a dying condition from the bullet fired by Morris Haas, the rejected suitor who subsequently committed suicide. Heney will spend several weeks at the home of William Kent at Kentfield, Marin county, recuperating. He will be accompanied by Mrs. Heney, who has devotedly tended him during his illness. Heney's strong constitution has aided him in leaving the hospital much sooner than is usual in the cases of patients suffering from such serious wounds. There is no fear of a relapse and the prosecutor's return to his place in the courtroom will depend upon the rapidity of his convalescence.
