11,400 POUNDS OREGON ADVERTISING MATTER

Over five tons of advertising matter about Oregon were shipped by the passenger department of the Harriman lines from Portland yesterday, bound for every point in the United States and many of the principal cities of Europe. In the shipment were 57 cases weighing 11,400 pounds, making the shipment amount to 11,400 pounds of Oregon advertising matter. The booklets and advertising pamphlets are sent out at this time largely because of the travel next summer. The winter months are conceded to be the best time to distribute booklets on the Pacific coast because the trip made by most travelers to the coast are conceived and planned for between Christmas and the spring. The advertising work being done for Oregon at present is on the largest scale in the history of advertising anywhere in the world and has far outstripped the famous work done for California.

STATEMENT ONE MAN STANDS BY PLEDGE

(Special Dispatch to The Journal.) The Dalles, Or., Dec. 4.—C. N. McArthur, candidate for speaker of the house of representatives, passed through The Dalles Wednesday en route from Durfur to Portland. While here he was in consultation with Senator N. Wheeler and other prominent politicians. An effort is being made by McArthur and his supporters in this section to line up for McArthur, in his contest for the speakership. It is also hoped that Dodds, who is a Statement No. 1 man, can be persuaded to get on the Fulton band wagon, but from the extreme reticence maintained by the Fulton people here it is apparent that Dodds will stand by his pledge.

The gathering comprises men prominent in the public and commercial life of the two states, all united in sentiment both as to the feasibility and desirability of the project of the league, namely, the construction of a canal connecting the Mississippi river with the Rio Grande river at Brownsville, Texas. Lard is a Foe to Digestion

Pork in any form is indigestible, and most people cannot eat it without subsequent discomfort. It therefore follows that food prepared from lard, which is nothing more or less than hog-fat, is of necessity indigestible.

Cottolene is made from Cotton Seed oil refined so perfectly that it is absolutely neutral in odor and taste.

You know how rich and nourishing Olive oil is. Do you know that cotton seed oil and olive oil are almost exactly the same in chemical properties? Olive oil is too expensive for general use in frying and shortening—**Cottolene** gives the same results.

Having no odor or flavor, and taking up none, **Cottolene** once melted up can be used over and over again.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given **Cottolene** a fair test.

Never Sold in Bulk **Cottolene** is packed in pails with an airtight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.
