

LUTKEMEIER'S TWO FRANCIS AVENUES CAUSE SIBIRIAN COMEDY OF ERRORS

Union Avenue Saloon Man and Three Patrons Forced to Give Up Valuables to Two Robbers - Burglars Grow Bolder.

For the second time within a month, the saloon of F. W. Lutkemeyer, 49 Union avenue, was held up last night and \$69.50 in money, a gold watch and chain was taken from the proprietor and three others who were in the saloon at the time.

Two men entered the saloon at 11:40, and drawing their revolvers commanded Mr. Lutkemeyer and his three patrons who were playing pool in a room to the rear, to throw up their hands.

All four men were lined up against the back wall with their backs toward the robbers, and while one of the stickup artists covered them with a long nickel plated revolver, his confederate opened the cash register, took \$60 in coin and then searched the pockets of the victims so coolly and deliberately that all are certain that the robbers were professionals.

Ryberg, one of those held up, says that the man who searched his pockets was so well trained in the art that not once did he feel the hand of the robber in his clothing, but his valuables were taken, nevertheless.

Too Weak to Fight. In the previous robbery the dog sprang viciously at the footpad and was shot and almost fatally wounded. It is still in a very weakened condition, and had it not been for this Mr. Lutkemeyer is confident that the robbers would have had another battle with the dumb witness.

F. Garner was robbed of \$3, S. Ryberg \$1.50 and R. E. Pendleton was relieved of \$9 and a gold watch and chain. Mr. Lutkemeyer suffered the greatest loss, as over \$50 was taken from his cash register.

It is believed that three men were implicated in the crime, although only two entered the saloon. One man, it is thought, stood guard on the outside. Just three hours after the saloon holdup, the confectionery store of C. Hamilton, at 31 1/2 East Seventh street, was entered by three men wearing red bandana handkerchiefs and answering in a general way the description of the saloon robbers.

The store is on the corner of East Seventh and Market streets, directly under an arc light, which casts its rays into the shop. One man entered the store and asked for cigarette papers. Mr. Hamilton handed him a package, but they did not seem to please the thug and he asked to have a nickel changed into one cent pieces.

Not by a sight, answered the shopkeeper, and rushed into a back room where his daughter-in-law lay sick.

Save The Drunkard

You, His Mother, Wife or Sister Can Save Him, And You Can Do It Secretly In Your Own Home. Costs Nothing to Try.

A new tasteless and odorless discovery which can be given secretly by any lady in tea, coffee or food.

One Mad From Whiskey.

Heartily endorsed by temperance workers. It does its work so silently and surely that while the devoted wife, sister or daughter looks on, the drunkard is reclaimed, even against his will and without his knowledge. Many have been cured in a single day.

FREE TRIAL COUPON. A free trial package of the wonderful Golden Remedy will be sent you by mail in plain wrapper, if you will fill in your name and address on blank lines below, cut out the coupon and mail it at once to Dr. J. W. Haines, 3242 Glenn Building, Cincinnati, Ohio.

You can then prove to yourself how secretly and easily it can be used, and what a God-send it will be to you.

Good Wages Are Paid Telegraphers

Demand exceeds supply. EASILY ACQUIRED. SHORT HOURS. We will place you. Day and evening classes. Open all the year.

Little Adlets Bring Results

Kenilworth is getting tired of pulling Mount Tabor's chestnuts out of the fire. Little while the former district is getting extremely weary of having Mount Tabor interfere with the cooking of the chestnuts of Kenilworth.

The trouble all arises over the confusion of fact that there are two streets named Francis avenue. One is located in Kenilworth, the other is in Mount Tabor. And the city engineer went to work and improved the Francis avenue in Mount Tabor when the city council had passed an ordinance directing the improvement of Francis avenue in Kenilworth.

Now new complications have arisen. Kenilworth wants a fire station, and a petition asking the city council to speed one in that district has been circulated by E. F. Moldenhauer, of 755 East Thirty-second street. Fire Chief Campbell has been out and looked over the proposed site, which is at the corner of Francis avenue (in Kenilworth) and Greenwood street, and has approved of it.

Mount Tabor got wind of the fact that the fire chief had approved a site for a fire station, and jumping one more to the conclusion that the Mount Tabor Francis avenue meant, has called a meeting of the Mount Tabor citizens for tonight to protest against what appears to be a change in the proposed new engine house on Francis avenue in Kenilworth.

But their anxiety is without foundation. The fire chief has no intention of recommending the erection of an engine house on Francis avenue in Kenilworth. But the residents of Kenilworth

are worried for fear a resolution of protest may be adopted by the Mount Taborites against the Francis avenue engine house. Mr. Moldenhauer says that Mount Tabor is not concerned in this proposition at all. That district can have its engine house where it pleases, for all Kenilworth cares, but Kenilworth does not want Mount Tabor to knock the Francis avenue proposition on the mistaken notion that Mount Tabor's Francis avenue is meant.

San Francisco, Dec. 15.—Desperate because his fiancée, Mrs. Sadie Campbell of Seattle threatened to leave him, Fred Van Sicklin of Victoria shot her in the back last night. Although badly wounded, she had strength and courage enough to turn on her assailant, and after knocking him down with a chair to beat him with her fists and hold him until the police came and placed him under arrest.

Mrs. Campbell's injury is a lacerated wound near the spine. The doctors at the contra emergency hospital say she will recover.

Van Sicklin is being held at the hospital. When he is turned over to the police he will probably be charged with assault with intent to commit murder.

Mrs. Campbell gives her age as 25 years. She says she was divorced from William Campbell at Seattle nine months ago, and going to Victoria was introduced to Van Sicklin, whom she supposed to be a single man. She and Van Sicklin were infatuated with her and begged her to marry him. He followed her to Seattle, and then, as Mrs. Campbell did not care to be wedded in that city, they came to this city arriving here six weeks ago.

After staying here a few weeks Mrs. Campbell says she found Van Sicklin's attitude toward her changing. She says she refused to keep his promise and marry her, and when she investigated she found he had a wife living at Victoria. Then she determined to return to Seattle, and while she was packing her trunk with that intention Van Sicklin shot her.

The largest hand saw in the world is in use in a mill at Hoquiam, Wash. It is 45 feet long, 20 inches wide, and has teeth three inches apart.

"I see you have a delightful zoological park here, too. And your streetcar system is far better than that of Seattle. Of course the frightful hills here necessitate using the noisy cable cars, but aside from that the noise of the trolley cars on First and Second avenues is enough to drive an honest churchman to drink."

"No, I have never been here during the rose season, but if I hear more about it I shall be tempted to visit until next summer. Speaking of roses," added Mr. Parker with a smile, "the women in this city of yours have got the women of any other city I have ever visited beaten off the chart. For looks, carriage and that sort of thing, and I dare say, too, they are all cleverly charming."

Mr. Parker stood up and knocked the ashes from his pipe. "When I was a youngster," he said, "I remember of seeing a story that gave me the idea that it was then, but I think those bad habits have all been put aside now, as a young man, I have aside his youthful revels for the strong healthy growth of maturity."

"Yes, sir, Portland certainly makes a bit with me."

Neurology as a system of practice is without fads, being broad, dignified and non-operative in its application. Embracing as it does the science of diet, correction of eye defects, manual exercises and adjustments, hydrology, metaphysics and general hygiene, it reaches and removes causes of about 95 per cent of human ills.

Dr. Harvey W. Freeze, who has taken office in the Marquam building on the second floor, is a graduate of McCormick Neurological College, Chicago, the only one of its kind in the world. It was established in 1890 for the study of the Causes of Human Ills and how to abolish them without drugs or operations.

Graduates of this college are practicing in every state in the Union, in Canada and foreign countries. They do not practice medicine, making a specialty of eye and nervous troubles, also chronic diseases, especially those that have not yielded to medical or other treatment. By their unique methods of examination they discover causes, and when these are removed, Nature soon cures.

Men's \$2.50 Slippers.....	\$2.00
Men's Cavalier kid Slippers, \$3 value.....	\$2.25

TOURIST FINDS SEATTLE CRUDE, PORTLAND MORE TO HIS LIKING

"To come to Portland from Seattle like going to New York from Chicago," said S. P. Parker in the lobby of one of the hotels this morning. "The people here in Portland seem to really live and enjoy living while, from apparent ease at least no one seems to have thought of that yet in Seattle."

Mr. Parker was wearing an English coat and an English pipe, but his pronounced southern drawl quickly uprooted any first impressions as to his native country. In his own words, he has "been over a few acres" having spent the last two years traveling about the United States and Canada.

Mr. Parker is now on his way to his home in Charlottesville, Va. "Of course," continued Mr. Parker, "there is a marked difference between eastern and western cities, but there is also a notable dissimilarity among your western towns themselves. Portland has none of that crude rawness that was my first and strongest impression of Seattle. The people one sees on the streets here are Portlanders and a stranger feels that he is in a city with distinct characteristics all its own. On the other hand in Seattle I continually find a lot of strange characters in the midst of a jumble of other strangers."

In bed, and slammed the door behind him. The footpad quickly rifled the cash box of \$1 and escaped. Just before the Lutkemeyer saloon robbery last night, two burglars entered the Lambert rooming house, 25 Union avenue, and stole a diamond ring and into the room of E. Ellington, on the third floor. Ellington is the room-mate of S. Ryberg, one of the men who were
