

Good Leather "Counters" in Selz Royal Blue Shoe

You know what the "counter" of a shoe is; the stiff, hard piece that is up around your heel; a vital part; helps keep the shoe in shape.

Selz Royal Blue have one-piece sole-leather counters; we mention it because so many shoes have pieced counters; some have paste-board; some worse.

It's a small way of skimping on quality, at your expense; you get honest leather

in Selz shoes.

The maker guarantees not merely the shoe, but your satisfaction with it.

YAKIMA FRUIT GROWERS ACT

Organization Is Formed to Combat the Shippers' Association.

(Special Dispatch to The Journal.)
North Yakima, Wash., Dec. 19.—Over 100 fruit growers, representing the bulk of the wealth in Yakima valley, met today to express their dissatisfaction at the manner in which the Yakima Valley Fruit Shippers' association has conducted its business in the past; and for the purpose of organizing a horticultural union of the interest of producers, and on a co-operation basis. The idea is to raise the standard of the fruit and secure the best prices.
There are 2,000,000 trees in the valley, a per cent bearing, which produced 1200 cars this year. Fruitmen say this shows the enormous possibilities of the valley. They say Yakima fruit now does not go east of the Missouri river, although as good as any is raised. A constitution was drafted and referred to a committee to report at the final organization meeting in two weeks. It is planned to send representatives to every part of the east during the season to advertise and sell fruit for the highest prices.

JESS CASON IS DEAD IN WRECK

News was received in Portland last night that Jess Cason, a son of Mrs. Delilah Cason of Mount Tabor, had been killed in a railroad wreck near Stockton, Cal. Cason was born in Portland 40 years ago and for many years worked for the O. R. & N. and later for the Northern Pacific. About 15 years ago he left Portland for the south. He was employed as a brakeman on the Southern Pacific, his run being between Fresno and Stockton.
Mrs. Paul Lee, with whom Mrs. Cason lives in Mount Tabor, is a sister of Jess Cason. Another sister, Mrs. W. D. Huribut, lives at 137 Chapman street, Portland, and William W. Cason of 705 East Star street, a brother, and William West, cashier at the Hotel Portland, is a cousin.
The wife and daughter of the dead railroad man live at Fresno, Cal. The daughter is 18 years of age and was born in Portland. Arrangements for the funeral have not as yet been completed. The body will be brought to Portland for burial.
Details of the accident had not been received by the Portland relatives of Mr. Cason last night. During the evening a message came stating that he had been seriously injured in a wreck. A telegram was received by Mrs. Cason saying that her son died.

STAMP SALES BREAK RECORDS

All records in stamp sales were broken at the Portland postoffice yesterday.
Two years ago, a few days before Christmas, the sales amounted to \$400. The sales of yesterday ran to something like \$4700, making it the red letter day of stamp receipts in the history of the Portland office.
Three clerks were occupied most of the day passing out stamps to the people who stood in long lines along the Federal building corridor. Some bought one and two cent stamps while others purchased amounts of stickers ranging to dollars. And then there was the wholesale department and the window which supplied the branch post-

DR. E. M. DALLAS OPTICIAN

Has returned from Europe and will use the new WIESBADEN METHOD of testing eyes, which caused so much talk in France and Germany. This science is QUICK, ACCURATE and ABSOLUTELY CORRECT, and gives splendid results in the fitting of lenses to the eye, especially in cases of eye strain and headaches, for close or distance use. No extra charge will be made for the use of this system. You will find the prices very reasonable and the workmanship the best.

offices, all of which went to help make Saturday, December 19, Portland's greatest day in the stamp business since Uncle Sam began his operations here. The stamp window did a rushing business last night until midnight, when it was closed. After 11 o'clock there was not a great deal doing, but the stragglers kept coming in one after the other, each little sale of which assisted in swelling the day's receipts. The registry and money order divisions also did an unusually large amount of business yesterday. It was the last Saturday before Christmas and all who have relatives or friends in the east to whom they are going to send presents were going and coming all day long and far into the night, even after the stores had been closed.

FAME OF WRIGHTS MOUNTS HIGHER

Washington, Dec. 19.—In view of the fact that the war department has just made an urgent request in the annual report to congress for more funds in the serial experiment work, army officers here are enthusiastic in their praise of the work of Wilbur Wright in France, who yesterday broke two more records for an aerial flight. The particular interest attaches to Wright, not only because of his wonderful work with a heavier than air machine, but because, being an American and brother of Orville Wright, under contract to furnish a similar machine to the United States government, the achievement is one that redounds to the credit of the American people.

FREEZING DEATH FOR DITCH MAN

(Special Dispatch to The Journal.)
Weaverly, Cal., Dec. 18.—Robert Howard, a ditch tender for the La Grande Mining company, was frozen to death last night on Stuart's Fork, in Trinity county. Howard and Joseph Brown were directed early in the morning to go from the head of the ditch to the lakes, seven miles distant through three feet of snow and turn on more water.
The superintendent instructed them to remain in the quarters at the lake over night and come back today. They undertook to make the homeward trip the same day. Howard gave out completely within three miles. Brown threw up a shelter with scrap lumber and built a good fire. Then leaving Howard alone Brown hurried on to camp for help.
The snow was so deep that Brown made slow progress and when he returned this morning with men and horses Howard was found dying. The fire had gone down. He expired within five minutes after the relief party arrived.

Journalist Gets Plumb.
(Special Dispatch to The Journal.)

FINCH JURY

When two more jurors are chosen tomorrow morning, the testimony stage of the trial of James A. Finch will be reached in the circuit court, and the state will begin the presentation of testimony on which it will claim the life of Finch as forfeit for the murder of Ralph B. Fisher, the state bar association prosecutor, whom he shot and killed on the afternoon of November 28.

What Mr. Wittenberg THINKS of This Exhibition

TO THE PARENTS OF THE CHILDREN OF PORTLAND
There is at the present time in this city at the Exposition Building, on Washington and Nineteenth streets, an Eskimo village, consisting of 35 Eskimos—men, women and children—with their entire equipment and mode of living, including Alaska dogs, sleds and all their equipment. I visited the exhibition and feel it of sufficient importance to say to you, "Let your children do likewise."
It is something that they may never see again. It will teach them more geography, more natural history, and give them more experience in a half hour's visit than they can get in a year of reading history of the far north.
Yours truly,
H. WITTENBERG.
Let the children attend. They will be taken care of and every detail of the expedition will be explained to them by our Capt. Barbee, lecturer.
