NOTICES 20

DEPARTMENT OF THE INTERIOR, Washington, November 12, 1908—Public Notice—In pursuance of the provisions of section 4 of the reclamation act of June 17, 1902 (32 stat. 388) notice is hereby given as follows:

Water will be furnished from the Umatilla project, Oregon, under the provisions of the reclamation act, in the irrigation season of 1909, for the irrigable land shown on farm unit plats of Willamette meridian: Township 4 north, range 28 east; township 5 north, range 28 east; township 4 north, range 29 east; township 5 north, range 29 east; approved November 11, 1908, by the secretary of the interior, and on file in the local land office at La Grande, Oregon.

Homestead entries accompanied by applications for water rights, and the first installment of the building, and operation and maintenance charges may be made under the provisions of said act for the farm units shown on the said plats. Water right applications may also be made for lands heretofore entered and for lands in private ownership and the time when payments will be due is hereinafter stated.

The limit of area per entry, representing the acreage which in the opinion of the secretary of the interior, may be reasonably required for the support of a family on the lands entered subject to the provisions of the reclamation act, is fixed at the amount shown upon the plats for the several farm units.

The limit of area for which water right application may be made for lands in private ownership shall be 160 acres of irrigable land for each land owner.

The charges which shall be made per acre of irrigable land in the said entries and for lands heretofore entered or in private ownership which can be irrigated by the waters from the said irrigation project, are in two parts as follows:

1. The building of the irrigation system, $60 per acre of irrigable land, payable in not more than 10 annual installments, each payment not less than $6 per acre or some multiple thereof, provided, however, that full payment may be made at any time of any balance remaining due, after certification has been made by the commissioner of the general land office that full and satisfactory compliance has been shown with all the requirements of the law as to residence, cultivation and reclamation.

2. For operation and maintenance, which will, as soon as the data are available, be fixed in proportion to the amount of water used, with a minimum charge per acre of irrigable land whether water is used thereon or not. The operation and maintenance charge for the irrigation season of 1909 and until further notice, will be $1.30 per acre of irrigable land whether water is used thereon or not.

For lands hereafter entered, the first installment on account of the said charges for the irrigable lands shown on these plats shall be paid for the season of 1909 at the local land office at La Grande, Oregon, at the time of entry and of filing water right application, the total payment being not less than $7.30 per acre. The second installment shall be due and payable December 1, 1910, at the same place. Subsequent installments shall be due and payable on December 1 of each year at the same place.

For lands in private ownership and for lands heretofore entered, the first installment shall be due and payable December 1, 1909, and the installments for the year 1910 and subsequent years shall be due and payable on the same date and at the same place.

The first installment of the charges for all irrigable areas shown on these plats whether or not water right application is made therefor or water is used thereon shall be due, and payable as therein provided.

The regulation is hereby established that no water will be furnished in any year until all operation and maintenance charges then due shall have been paid. Accordingly no water will be furnished for the irrigation season of 1910 for any lands, unless the portion of the installment for operation and maintenance due and payable on or before December 1, 1909, has been paid on or before April 1, 1910, and in like manner no water will be furnished in any subsequent irrigation season unless payment has been made on or before April 1 of that year of the portion of the installment for operation and maintenance which was due and payable on December 1 of the preceding year.

For all applications for water rights filed after June 15, in 1909, or any subsequent year, one installment of the charge for building, operation and maintenance, $7.30 per acre must be paid at the time of filing, but the portion of the installment for operation and maintenance shall be credited on account of the installment of said charges for the subsequent year.

If any installment of the charge shall not have been paid in full on or before December 1 of the year subsequent to that in which it is due and payable as herein provided, it shall then become delinquent and under the terms of section 5 of the reclamation act the entry and water right application shall be subject to cancellation with the forfeiture of any moneys paid thereon.

The charges herein provided may for the convenience of the applicants be paid to the special fiscal agent of the United States reclamation service, assigned to the Umatilla project, for transmission to the register and receiver of the local land office on or before the date specified for payment at the local land office, but in case this privilege is availed of, the necessary charges for transportation of the cash, as determined by the special fiscal agent must accompany the payment of the water right charges.

JAMES RUDOLPH GARFIELD,
Secretary of the Interior.
