Two large steamers are due to ar-rive here tomorrow, one being the Port-land & Asiatic Steamship company's liner Numantia, from Hongkong via Japanese ports, Honolulu and San Fran-cisco, and the other being the American-Hawaiian liner Nebraskan, from Salina Gug via San Diego. The Numantia brings about 600 tons of general Chi-nese merchandise, and the Nebraskan brings abeut 600 tons of general Chi-nese merchandise, and the Nebraskan brings append to for so of mixed freight fram European and Atlantic coast ports. Tomorrow being a legal holiday, it is not expected to have the steamers work, and they will therefore remain in the harbor somewhat longer than usual. The Nebraskan will probably not get unloaded until Tuesday, and the Nu-mantia will likely remain here until after the first of the year. The salling schooner Fred J. Wood, which reached the river yesterday after a smart run from San Francisco, left up this morning and will be at the mills of the North Pacific Lumber company to-morrow morning to load lumber for San Pedro. et's Melease From County Jall. Baron Wolf von Wentsch, the young German aristocrat sallor, who attempt-ed to desert the German ship Oregon and was locked up in jall the other day, will be given his liberty this afternoon. Captain Schumacher has promised to re-lease him providing the baron will be good, and he has given his solemn prom-ise that he will. Captain Schumacher thinks it alto-gether improper for a person to spend The January pilot chart for the North Pacific ocean issued by the hydrographic department contains much information valuable to mariners, some of it being in the nature of new features. Among other things is shown the recently adopted submarine distinguishing and warning flag which is holisted on the tender or parent ship of submarines to indicate that submarines are operat-ing in the vicinity. Captain Schumacher thinks it alto-gether improper for a person to spend Christmas in jail, and so this morning he communicated with the baron. The news came back that the young man had repented; in fact he confessed that some one ashore had induced him to leave the ship against his own will and better judgment, and now stood ready at any time to return to stay until his time expires.

to indicate that submarines are operat-ing in the vicinity. The flag is a white square with a red border, a figure in black, somewhat resembling an arrowhead, forming a centerpiece in, the white square. It is also announced that on January I. in the display of night storm warnings of the United States weather bureau, a red light alone will indicate easterly winds and a white light below a red light will indicate weather bureau. Regarding weather conditions during the coming month the chart says: Along the American coast, between 50 degrees and 55 degrees north the pre-valing winds are southwasterly Be-tween 45 degrees and 50 degrees the prevailing winds are southwasterly along the coast, becoming southwesterly be-yond 130 degrees weit. Two cement-laden sailing vessels re-ported off the mouth of the Columbia river this morning, and will probably be towed in before evening. They are the British ship Carmanian, from Ham-burg via San Diego, and the French ark La Tour de Auvergne, from Ant-wer, direct. The Carmanian comes to Meyer, Wil-her cargo at the California port. The ta Tour de Auvergne comes consigned to Kerr, Glifford & Co. It is under-stood that both vessels are on the dis-engaged list as far as outward cargo is concerned.

(Special Dispatch to The Journal.) New York, Dec. 24.—In honor of the birthday of Commander Eva Booth of the Salvation Army, which will be cele-brated tomorrow, Mrs. Sarah Switzer, wealthy New York philanthropist, has presented the army with a 17 room col-tage valued at \$20,000 at Long Beach. N. J., to be used as a fresh air home for children during the summer. The Salvation Army will distribute dinners to 25,000 in Greater New York alone tomorrow, and about 10,000 pack-ages of presents for children.

On the five or six miles between Linnton and Holbrook the grading has been completed, the bridges and culverts are in and we are laying steel now. This 16 miles of road between Holbrook and Portland should be in operation by the first of February. Beyond Holbrook the line is nearly completed to Summit, two miles further west, where we are driving a 3000 foot tunnel, and are at work from both ends. The tunnel work is largely through rock. The roadbed is being ballasted with crushed rock, there is no grade over 1½ per cent and no curve over 4 per cent. The line is being built in every way to insure rapid service and easy riding. The former recurve to the northeastward before reaching the Philippines. The latter are severely felt in the Pelew islands and throughout Mindanso. Fogs are not as a rule very heavy along the Pacific coast during January.

French Bark Crillon Travels 160 Days Without Sighting a Sail.

French Bark Orlifon Travels for Days Without Sighting a Sail. For :60 days, or from the time she left Birkenhead, England, until she reached the Columbia river a few days ago, the French bark Crillon was never within sight of another craft of any kind. Yet she sailed around more than three quarters of the globe. Captain Daibarade says he looked in vain for a sail or a column of smoke to indicate the presence of other ves-sels on the seas, but so far as things seemed the Crillon might have been the only object in the world but the sky and water. The Crillon arrived in the harbor yes-terday afternoon to load wheat for Eu-rope. She went to the ballast docks at idmiton to discharge ballast, but will be brought to one of the grain wharves easily next week. The Crillon has been here several times before. Captain Delbarade says the voyage from Europe was entirely uneventual. It took \$8 days from Birkenhead to Hobart. Tasmania, and 77 days from that port to the Columbia river. Calms and storms followed each other, but no verious disturbances were encountered. Captain Delbarade says he was very any fous to reach port in time to celebrate Christmas ashore.

The local, womanly health is so intimately local, womany health is so intimately related to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength. For weak and sickly women who are "worn-out," "run-down" or debilitated, especially for women who work in store, office or schoolroom, who sit at the typewriter or sewing machine, or bear heavy household burdens, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-
