SPEAKS OVERDUE AMERICAN BARK

Steamer Nebraskan Reports the Governor Robie Is Afloat and Safe.

SIGHTED OFF POINT REYES IN STORM

Captain Grant of the Windjammer Sends Word That He Has Been Within 200 Miles of Destination for 26 Days but Unable to Get In.

The American ship Governor Robie which is long overdue from Newcastle, N. S. W., to San Francisco with a cargo of coal, was spoken Saturday morning by the American-Hawaiian liner Nebraskan about 10 miles off Point Reyes. Captain Grant wished to be reported, knowing that his owners and friends were anxious because of the long voyage.

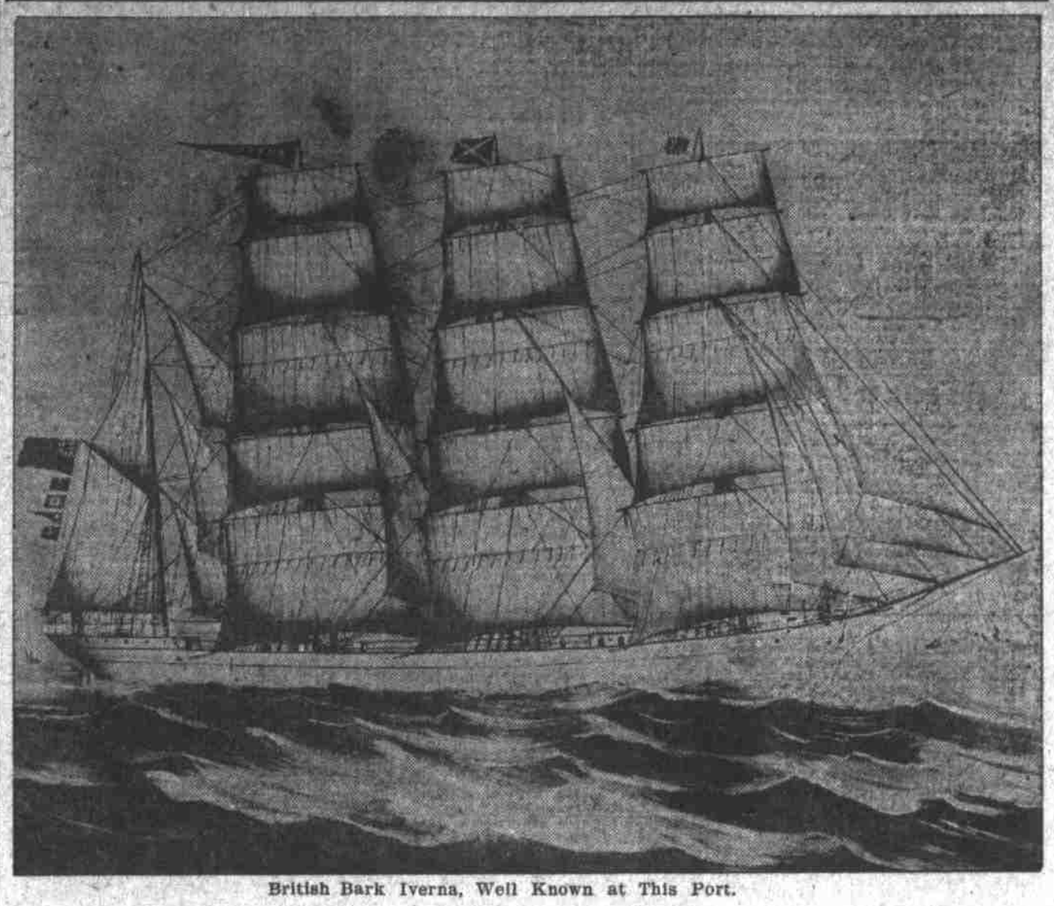
The Nebraskan ran close to the coal laden windjammer and Captain Knight of the steamer was informed that the Governor Robie had been out 98 days and that 26 days of that time had been spent within 200 miles of the Golden Gate. Somehow the winds would either turn contrary or die down to a dead calm and away from her destination she would drift in the grasp of the current.

But everything seemed well on board as far as health and stores went and Captain Grant, who by the way is a close personal friend of Captain Knight, expressed hopes of being able to reach port soon. It was blowing pretty hard at the time, however, in the wrong direction.

The Nebraskan arrived here yesterday noon and went to Columbia dock No. 1 to discharge 1200 tons of freight. Included in it is 400 tons of structural iron for the new Meier & Frank building, now in course of construction. The iron was shipped from New York. The remainder of the freight consigned to this port consists large of general merchandise and drugs. There is a small quantity from Antwerp, Hamburg and Southampton. The outward cargo from here will consist of 400 bales of hops and 3500 cases salmon. From here the steamer goes to Salina Cruz by way of Seattle and San Francisco.

Speaking of the voyage from Salina Cruz, the Pacific coast terminal of the Tehauntepec railroad, Captain Knight said stormy weather prevailed nearly all the way, with a strong gale blowing when the steamer reached Columbia river. He waited three hours outside for more favorable conditions and came in without trouble. The Nebraskan will probably leave down tomorrow night.

PHANTOM BARK SINKS STEAMER



British Bark Iverna, Well Known at This Port.

Newcastle, N. S. W., Dec. 28.—The British steamer Advance and the bark Iverna collided near here today and the Advance went down with all on board except the first officer.

The bark Iverna gained a great deal of notoriety here about two years ago by remaining outside the river for nearly two months without apparent effort to get in, although those interested were anxious to have her arrive. She was caught in a heavy blow and sent far to the northward but returned within sight of the station at North Head several times. But she sped away every time the pilot or tug boat set out to meet her. This gave her the name of the phantom bark.

Upon finally reaching port the captain explained that peculiar caprices of the winds had compelled him to handle the vessel as he had. She came in without having been damaged but the provisions were running low.

FOUR COASTERS ARRIVE

Breakwater, Olson & Mahoney, Saginaw and Argo in the Harbor.

Four coasters reached the harbor last night. The Breakwater came in from Coos Bay with 200 tons of coal and 60 passengers, the Olson & Mahoney came from San Francisco in ballast to load wheat and lumber for a return cargo, the Saginaw came in from San Francisco with a small general cargo, and the Argo came in from Tillamook with a cargo of cheese.

All report having had a rough time of it in the strong southwester that piled up mountain high waves. But the Argo, the smallest of the quartet, stood the racket as well as any of them and came in without shipping a sea. But the officers say she did some high rolling.

The Saginaw went to Oceanic dock to discharge part of her cargo but will finish at Oak street dock this afternoon. Her freight consists of cement. She will take lumber for return cargo.

The Olson & Mahoney came north in ballast and went to Irving dock this morning to load wheat. She will take a deckload of lumber at one of the mills down the river.

Captain Jones of the Argo reports the steamer Sue H. Elmore bar bound at Tillamook when the Argo crossed out. The Argo leaves on her return trip tomorrow night and will sail from here every Tuesday night after this.

ENTIRE PATH WAS STORMY

Oriental Liner Numantia Had Rough Voyage From Hongkong.

After an absence of about three months the German steamer Numantia of the Portland & Asiatic Steamship company's oriental line reached Portland yesterday morning from Hongkong and way ports. She has had stormy weather nearly every day since leaving here, so Captain Feldtmann and the officers report.

The Numantia would have been in the harbor a day earlier had she not had to wait about 48 hours for a pilot to take her into the river. The weather was rough in the meantime, a 70-mile gale sweeping over the sea.

The Numantia's freight for this port was light, only a few hundred tons of general merchandise, and it was discharged in a few hours this morning at Alaska dock. The menagerie this time consisted of a few hundred canaries and about 2000 gold fishes brought for a local importer.

Captain Feldtmann expects to have his steamer ready for departure about January 5, when she will sail with a full cargo of flour.

LOADING FOR AUSTRALIA

British Steamer Tweeddale Begins Receiving Lumber Cargo.

The British steamer Tweeddale began loading lumber at the mills of the Portland Lumber company this morning. She will take away about 3,000,000 feet to Australia in the Frank Waterhouse line.

The Tweeddale arrived here yesterday morning after a stormy voyage from Nanaimo, B. C., in command of Captain Milne, who is well known here. He says the gale of last Friday, Christmas day, was about as strong as he has ever experienced. The steamer at that time was in the very worst of the blow, near Cape Flattery.

MARINE NOTES.

Astoria, Dec. 28.—Arrived at 11:10 a. m.—Steamer Rose City, from San Francisco. Outside at 11 a. m.—A three-masted ship.

San Francisco, Dec. 28.—Arrived at 10 a. m.—Steamer George W. Elder, from Portland. Sailed at 9 a. m.—Steamer Asuncion, for Portland.

Astoria, Dec. 27.—Arrived down at 7 and sailed at 8 a. m.—Steamer Alliance, for Coos Bay. Arrived at 8 and left up at 9:30 a. m.—Steamer Breakwater, from Coos Bay. Arrived at 8 and left up at 10:50 a. m.—Steamer Saginaw and steamer Shoshone, from San Francisco. Arrived at 8 a. m. and left up at 12 noon—Steamer Olson & Mahony, from San Francisco. Sailed at 8:10 a. m.—Steamer R. D. Inman, for San Francisco. Arrived down at 9 a. m. and sailed at 6 p. m.—Steamer Yosemite, for San Francisco. Arrived at 4 and left up at 4:30 p. m.—Steamer Eureka, from Eureka and way ports. Sailed at 6 p. m.—Steamer Roma, for San Francisco. Arrived at 6 and left up at 7 p. m.—Steamer Argo, from Tillamook.

San Francisco, Dec. 27.—Arrived at 9 a. m.—Steamer Homer, from Portland. Sailed at 1 p. m.—Steamer Roanoke, for Portland.

Eureka, Dec. 27.—Arrived and sailed—Steamer George W. Elder, from Portland, for San Francisco and San Pedro.

Yokohama, Dec. 27.—Arrived—German steamer Arabia, from Portland.

Port San Luis, Dec. 27.—Arrived—Steamer Washtenaw, from Portland.

Astoria, Dec. 28.—Condition at the mouth of the river at 8 a. m., rough; wind, northwest, 28 miles; weather, cloudy.

Tides at Astoria Tuesday: High water—5:48 a. m., 8 feet; 5:47 p. m., 7 feet. Low water—10.05 a. m., 2.5 feet.

ALONG THE WATERFRONT.

The Harriman liner Rose City is due to arrive at Ainsworth wharf during the night from San Francisco. She sent a wireless message to the weather bureau at 4 o'clock this morning when 10 miles off Cape Meares. The wind was blowing 40 miles from the southwest. The barometer was 30 and steady, and the temperature 52. The sea was moderate with a heavy westerly swell.

A three-masted ship was sighted off the mouth of the river this morning. She is believed to be either the French ship Alice, from London, or the French ship Desaix from Antwerp. The Alice left on January 23 and the Desaix sailed July 18, so either of them is due to arrive.

The storm is still raging intermittently, with heavy squalls over the sea, and storm warnings were ordered displayed last night at most coast ports, Marshfield being the one exception.

The French bark Asnieres, from San Francisco, is due to reach the river any day. She is under charter to load lumber for Europe.

The British barks Arranmore and James Kerr have been chartered to carry lumber from Puget sound ports to Europe. They are both on the sound.

Marines to Honolulu.

(United Press Leased Wire.)

Vallejo, Cal., Dec. 28.—Four hundred marines will leave Mare Island navy yard on January 5 for Honolulu to reinforce the garrisons there. The men will be taken to the island by the transport Buffalo, which, pursuant to orders from Washington, is proceeding here from Bremerton, and is expected to arrive Wednesday.

Eye glasses, $1 at Metzger's.

It's all right to follow the crowd, provided you are not ambitious enough to get to the front.

Spectacles at Metzger's.

Anty Drudge's Idea of Clubs.

Organizer of Woman's Club—"Anty, we want you to join our club for the study of sociology, economics and the general uplifting of womankind."

Anty Drudge—"All right, my dear. We'll begin by telling all women about the new way of washing clothes with Fels-Naptha in cold or lukewarm water. It does away with boiling and hard-rubbing, saves work, time, worry and money, and does more to help women than all the sociology and economics in creation."

When women first began to wash clothes, they soaked them in a stream and beat them with a paddle. A hard job it was then to get rid of dirt.

Then someone found that fat and lye made a substance which, mixed with hot water and rubbed hard, cleaned things pretty well. This was soap.

Finally, came Fels-Naptha.

Fels-Naptha isn't simply good soap; it's different altogether from soap as you know it.

Fels-Naptha marks as big an advance over soap in its usual meaning, as ordinary soap itself did over the paddle.

Ordinary soap calls for much hard-rubbing and plenty of boiling water to take away dirt. Some kinds of stains, greases and blood it simply won't remove.

But Fels-Naptha cleans without hard-rubbing and you don't use hot water at all.

With Fels-Naptha all you need is cool or lukewarm water.

Think how this cuts all the terror out of washday.

Full directions printed on the red and green wrapper.

TWO R. M. ELLISES; ONE FINDS OTHER

Alleged Blackmailer's Arrest Leads to Reunion of Son and Parents.

(Special Dispatch to The Journal.)

Vancouver, Wash., Dec. 28.—A most peculiar circumstance attends the case of R. M. Ellis, under arrest here on a charge of attempted blackmail. The son of Mr. and Mrs. J. Ellis bears the same initials. Through this circumstance the missing son has been located.

Mr. and Mrs. Ellis read in The Journal at their home in Wyoming an account of the arrest of a man named R. M. Ellis at Vancouver, Wash., on a charge of blackmail. They had not heard from their son for many months, although every effort to locate him had been made. They traveled in haste to Vancouver, only to find that the man in jail here was not their son.

But here is where the unusual part of the narrative begins. Ellis, the man under arrest, declared that he knew another of the same name and that he was at Seattle. He gave the street and number. This information he had secured by receiving mail belonging to the other Ellis. Mr. and Mrs. Ellis hurried to Seattle, found their son and will take him back to Wyoming as he had seen a sufficient amount of the world to suit him, as he expressed it.

BOTANY BAY SENTENCE INSTEAD OF PRISON

(Hearst News by Longest Leased Wire.)

San Francisco, Dec. 28.—John Griffin, member of a Monterey family, who pleaded guilty to a charge of burglary, has been exiled to Australia for five years instead of being sent to the penitentiary. Superior Judge Carroll Cook imposed the unique sentence and charged Montgomery with the duty of looking after the young man till his period of probation was ended.

Griffin's parents conduct a hotel at Monterey and are among the best people in the community. They have been in constant attendance at the hearing of their son's case and have made every effort to secure leniency.

TEXAS GOVERNOR'S LIFE THREATENED

(United Press Leased Wire.)

Austin, Texas, Dec. 28.—That threats against his life have been made because of his campaign to enforce anti-gambling and Sunday laws is admitted by Governor Campbell. Most of his letters have come from San Antonio, where the lid was clamped on last Sunday, for the first time in its history. Several other towns are represented by the missives, however.

The governor refuses to take the threats seriously and says they will not affect his policy of enforcing the laws. He refused to make public the letters or to discuss them at length, saying:

"I've got no time to pay attention to such matters."

Arkansas Teachers.

(United Press Leased Wire.)

Little Rock, Ark., Dec. 28.—The annual convention of the Arkansas State Teachers' association was informally opened today and will continue over Tuesday and Wednesday. Many educators of note are to be heard and the discussions and addresses will cover a wide range of topics relating to school work.

The Stomach Does Not Cause Dyspepsia

Neither Will It Cure It Because the Lack of Gastric Juices Prohibit Relief.

The stomach is a strong, powerful organ, which is composed of muscles of great strength. It is filled during digestion with gastric juices which, when the stomach, extending and compressing the food, dissolve it and separate the nourishment from the waste matter. If, however, these gastric juices are lacking, the stomach is not capable of digesting its food because it has not the tools with which to work successfully.

The gastric juices when in a perfect state do away with all foul odors, fermentation and decay, reduce the food to a disintegrated mass and the stomach then presses it into the intestines where another form of digestion takes place. Then the intestines take from this mass of food all that is nourishing and give it to the blood. The waste matter is thrown from the system.

If instead of nourishment the intestines receive impure deposits combined with a poisonous and imperfect gastric juice, it can be readily seen that they must turn such imperfect nourishment into the blood. The blood then being unable to give each part of the body that which it requires, becomes impoverished and disease is spread broadcast.

Stuart's Dyspepsia Tablets correct such a condition at once. If the gastric juices are lacking and imperfect these tablets do their work just the same. They build up the elements in the juice which are lacking and remove those elements which cause disturbance.

Meat, grains, fluids, vegetables and delicacies, in fact each portion of a large meal have been placed in a glass vial and Stuart's Dyspepsia Tablets have digested them to a perfect fluid just as a healthy stomach would do.

A large, complex, hearty meal holds no terrors for a dyspeptic if Stuart's Dyspepsia Tablets are used. Abnormal eating, late dinners, rich foods cause ill effects to the stomach, but when Stuart's Dyspepsia Tablets are used one may eat when and what one will without danger of dyspepsia or discomfort.

Forty thousand physicians endorse and prescribe Stuart's Dyspepsia Tablets and every druggist carries them in stock, price 50c. Send us your name and address and we will send you at once by mail a sample package free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

WEATHER REPORT

Southwest storm warnings were ordered yesterday at 5:30 p. m. at all stations in this district except Marshfield.

A disturbance of marked energy is central this morning over British Columbia. It has caused moderately heavy rains in western Oregon and western Washington and light rain in the extreme eastern portion of these states. A maximum wind velocity of 26 miles from the southwest occurred at Portland at 11 p. m. last night, and the wires to North Head and Tatoosh island are down this morning, so the velocities at those stations are unknown. The temperatures are from 7 to 20 degrees above normal in the north Pacific states and in Montana. A ridge of high pressure extends from the northern California coast east to the Atlantic coast, and the barometer is relatively low over New England and also over southern Texas.

The indications are for rain tonight and Tuesday in western Oregon and western Washington and for rain or snow east of the Cascade mountains. It will be cooler Tuesday, with decreasing winds.
