KELLAHER IS DEFEATED IN PLAN

Council Committee Refuses to Indorse Submitting Garbage Crematory Question to Voters—Only Cottell Stands With Him.

An effort made by Councilman Kellaher to have the council submit the garbage burning question to the people was defeated in the ways and means committee this morning, the vote being 3 to 2. Councilmen Rushlight, Dunning and Vaughn opposed Kellaher's motion and Cottel supported it. The motion was that the city attorney be directed to draw up a charter amendment providing for a bond issue of $250,000 to be used in establishing a municipal collection system and garbage incinerating plant.

"I have the figures to show that $250,000 will solve the garbage problem," said Mr. Kellaher, "and I tell you again that we have juggled with this proposition for two years without coming to a solution. The people do not want a garbage burner within the city limits on either side of the river, and the talk about constructing a small one on each side is folly. You can't provide an adequate burner for $50,000 or $75,000. If you try it the ink will not be dry on the contract until the referendum shall have been invoked to defeat your plan.

Garbage All Over City.

"The North Portland incinerator is a disgrace to the city. But you don't have to go out to the northern part of the city to find garbage dumps. I can show you some of the filthiest heaps of rubbish in the town within a gun shot of the courthouse.

"What is even more important than an incinerator is a system of municipal collection. We want to own our teams and garbage wagons and a systematic collection of refuse of the municipality should be made. The garbage scattered in festering heaps about the residence districts should be hauled to the river and floated on scows to a point below town, where the offal can be hoisted into the burning plant.

"We can well afford to spend $250,000 for this purpose. The people who now pay $3 a month to have garbage hauled away can get it carted off for $1. The saving made will be at least 66 per cent."

To a Journal reporter, after the committee had refused to pass the question up to the council, Mr. Kellaher added:

Council Hard Proposition.

"It's no use trying to get this council to do anything. Certain members on the board of health and certain councilmen think there's a fine site for a crematory over on the east side. But we'll put it up to the people, anyway. If the representatives of the public will not help, then I'll get the garbage plant bond issue put on the ballot by petition."

Dr. Cottel also strongly urged the committee to act favorably on the suggestion of Mr. Kellaher, but without avail. Chairman Rushlight thinks the city engineer should be instructed to prepare an estimate of the cost of an incinerator before the council passes upon the question whether or not the people shall have an opportunity to vote for or against it.

CASTRO IS A MOST TREMENDOUS BOOZER

His Daily Tipple Is Seven Bottles of Brandy—Capacity Amazes Berlin.

Berlin, Dec. 29.—"Castro—he takes his liquor like a man!"

Berlin's clubmen, officials and that sort which Americans call topers, all said this as a result of the remarkable drinking stunts that were a part of the daily life of the deposed president of Venezuela, who came here for "medical attention."

Castro, it is said, spent 7000 marks a day, eating and drinking the best of everything. This executive, who plays while his country across the seas is at odds with Holland and whose countrymen are deriding their former tyrant, is certainly no enemy of the bottle. He ordered the best vintage wines, Hattenheimer-Auslese being a special favorite of his, while his capacity for the consumption of 1812 cognac excited the warmest admiration of the Germans. According to report, he emptied seven bottles of brandy a day.

All this naturally made him the despair of Professor Israel, who gave him an ultimatum—namely, that he must come into his clinic and lead a life of abstemious self denial as a necessary prelude to an operation.

Accordingly the indomitable ex-president was removed from the luxuriant Hotel Esplanade and taken to the Hygenia Clinique, presided over by Professor Israel, there, with his wife and three Venezuelan doctors and his secretary, to remain under strict observation until he was in right condition to be operated upon.

L. D. Knighton.

(Special Dispatch to The Journal.)

Albany, Or., Dec. 29.—L. D. Knighton, a member of a prominent pioneer family, a native of Oregon, died yesterday at his home near Peoria. Mr. Knighton was a man of excellent character. He had been a resident of the Willamette valley during his entire lifetime. He leaves a widow and several children.

FREE PILE CURE

Sent to Demonstrate the Merits of Pyramid Pile Cure.

What It Has Done for Others It Can Do for You.

We have testimonials by the hundreds showing all stages, kinds and degrees of piles which have been cured by Pyramid Pile Cure.

If you could read these unsolicited letters you would no doubt go to the nearest drug store and buy a box of Pyramid Pile Cure at once. Price 50 cents.

We do not ask you to do this. Send us your name and address and we will send you a trial package by mail free.

We know what the trial package will do. In many cases it has cured piles without further treatment. If it proves its value to you order more from your druggist. This is fair, is it not? Simply write us a letter giving your name and address and we will send you the trial package by mail in plain wrapper free. Address Pyramid Drug Co., 164 Pyramid bldg., Marshall, Mich.

BARK DESAIX IN FROM ANTWERP

Brings a Cargo of Cement and Miscellaneous Articles.

MAKES SLOW VOYAGE BY LONGEST ROUTE

Left Dutch Port July 18 Followed by the French Bark Alice—Pleasant Weather and Opportunity for Mileage Incentive for Long Voyages.

The French bark Desaix crossed in yesterday afternoon, having been off the mouth of the Columbia about four hours. She is from Antwerp with a cargo of cement and general freight from Antwerp. The cargo is consigned to Balfour, Guthrie & Co.

The Desaix left Antwerp July 18, and hence was fully due, having been out more than six months. The average run for a sailing vessel from Antwerp to the Columbia is about 150 days, although it has been made in much quicker time. Two fast passages were made from Bremon to the Columbia river this season by the two German training ships Herzogin Cecilie and Herzogin Charlotte, the former making the run in 110 days and the latter in 112. But these ships are manned with young and trained seamen, whose main object is to bring out the very best speed there is in their ships.

The Desaix came out by way of Cape of Good Hope and Hovart, a much longer distance than had she doubled Cape Horn. But by taking the longer passage the bark escaped the terrible weather that nearly always rages in the vicinity of the Horn. Spreading canvas down the Atlantic, up the Indian ocean and across the Pacific with the trade winds, is said to be a summer outing as compared with the cold and dirty weather that has to be endured off Cape Horn. At times it takes a couple of months to make the short distance from the Atlantic to the Pacific off the cliffs of Terra del Fuego, and it is this part of the voyage that the French skippers avoid by taking the longer route.

Another French bark, the Alice, is due to arrive here any day from Antwerp. She left there about 10 days later than the Desaix.

COMING FOR LUMBER

Steam Schooners Harold Dollar, Wasp, Mayfair and Wand on List.

Several new names of steam schooners bound for this port to load lumber were added to the list this morning. They are the Harold Dollar, Mayfair, Thomas Wand and Wasp. All of these excepting the Mayfair have been here before.

Most of the craft will load at the mills of the Portland Lumber company, where several cargoes have been dispatched lately for San Francisco. Another sailing schooner was chartered today to carry lumber from this port to San Pedro, but the name was not stated.

TO KEEP TAB ON SNOW

District Forecaster Beals Makes a Close Study of Fall in Mountains.

To ascertain the amount of snowfall in the mountains that drain the Umatilla basin, District Forecaster E. A. Beals of the local weather bureau this morning left for Pendleton.

Mr. Beals will cover the mountainous sections of the country this winter in order to ascertain as nearly as possible how much snow has fallen and how much of it remains on the ground. This will give him an opportunity to keep very close tab on the stage of water in the rivers next spring when warm weather sets in.

The weather bureau's river stage service is one of its most important functions to the commercial interests of this city, and Mr. Beals is continually working to have it brought to its highest point of efficiency.

ALONG THE WATERFRONT.

The steamer Eureka sails from Martin's dock this evening for Eureka and way ports.

The steamer Argo sails this evening from Oak street dock for Tillamook with a full cargo of freight.

The steam schooner Nome City went to the mills of the Inman, Poulsen Lumber company this morning to load a deckload of lumber.

The British ship Brabloch was towed to the O. W. P. dock this morning, where she will remain tied up until chartered for outward business.

The Harriman liner Rose City reached Ainsworth dock last night after a rather stormy voyage from San Francisco.

The North Pacific Steamship company's steamer Roanoke, which was due to arrive here this morning, will not get in until tomorrow morning because of a day's delay at one of the way ports.

The French bark La Tour de Auvergne, laden with cement and general cargo from Europe, left up this morning.

MARINE NOTES.

San Francisco, Dec. 29.—Arrived at 4 a. m., steamer Roma, from Portland.

Astoria, Dec. 28.—Arrived at 1 p. m., French ship Desaix, from Antwerp. Arrived down at 3 and sailed at 4:30 p. m., steamer Atlas, for Port San Luis. Arrived down at 4 and sailed at 5 p. m., steamer W. S. Porter, for San Francisco. Left up at 5 p. m., French bark La Tour de Auvergne.

San Francisco, Dec. 28.—Arrived at 5 p. m., steamer Senator, from Portland.

San Pedro, Dec. 28.—Arrived, steamer Yellowstone, from Columbia river.

Hull, Dec. 27.—Arrived, British steamer Knight of the Thistle, from Portland and Puget sound.

Liverpool, Dec. 27.—Arrived, Dutch steamer Nederland, from Portland.

Coos Bay, Dec. 28.—Arrived, steamer Alliance, from Portland.

Eureka, Dec. 28.—Sailed, steamer Roanoke, for Portland.

Astoria, Dec. 29.—Condition at the mouth of the river at 8 a. m., obscured; wind, northeast 4 miles; weather, clear.

Tides at Astoria Wednesday—High water, 6:43 a. m., 8.1 feet; 7:07 p. m., 6.6 feet. Low water, 0:06 a. m., 1.1 feet; 1:17 p. m., 2.1 feet.

TIED UP TEMPORARILY

Low Water in Yamhill River Stops Operation of the Leona.

On account of low water the locks in Yamhill river are closed temporarily and as a result the steamer Leona plying between this city and McMinnville has been forced to tie up.

The Leona was put on the Yamhill river route several months ago by the Yamhill River Navigation company and has been doing a good business right along. But with the locks closed the larger portion of the business is cut off and hence the craft has been tied up for the time being.

SAILING SHIP TONNAGE

Comparison Shows That the States Have a Few Craft Afloat.

The following table shows the net sailing ship tonnage of seven principal nations, giving also the increase or decrease since the year previous:

Countries.	Tonnage.	Inc.
Great Britain	1,591,000	93,000
United States	1,409,000	54,000
Norway	667,000	38,000
Russia	569,000	*5,000
France	510,000	11,000
Germany	459,000	*14,000
Italy	428,000	45,000

* Decrease.

MAGNIFICENT PRIZE OFFERED FOR BEST WHITE WYANDOTTES

Punch Bowl Prize Offered by The Journal.

For the best collection of white Wyandottes shown at the Oregon State Poultry association, January 13 to 19, The Journal will give the $100 punch bowl shown in the accompanying cut. The Journal's prize is an artistic cut glass bowl of three gallons' capacity, resting on a silver base, and 12 cut glass punch cups, all resting in a magnificent silver salver. The Journal prize was manufactured by I. E. Staples, the First street jeweler.

The premium list for the 1909 poultry show is just out, and from the entries already announced and the number of handsome prizes offered, this year's poultry exhibit will be the best thing of the kind that has ever been given under the auspices of the Oregon Poultry association. The association has secured the services of the two best judges ever employed by a western association. George H. Northup of Raceville, N. Y., will handle the Mediterranean classes. Mr. Northup is an up to date poultryman and has a world wide reputation as a breeder of the Black Minorca breed. W. C. Denny of Rochester, N. Y., is a Buff specialist and will handle the weight varieties.

Mr. Denny is a breeder of poultry and a lecturer on poultry raising. He has judged for many years at Madison Square Garden and at the Boston poultry shows.

New York Poultry Show.

New York, Dec. 29.—Warbles and cackles of nearly 10,000 song birds and barnyard fowls echoed through Madison Square Garden today on the occasion of the opening of the twentieth annual exhibition of the New York Poultry, Pigeon and Pet Stock association. The main floor of the big building is given over to a great display of fancy bred chickens, turkeys, ducks and geese. On platforms built around inside of the building are bantams, pigeons, rabbits and other animals whose delicate constitutions and aristocratic pedigrees will not allow of their mixing with the more common element on the floor below. The display of foreign birds this year is considerably larger than usual.

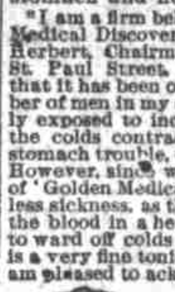
Don't You Feel Well? Ache All Over?

Feverish? Feel as though your blood was hot? Cold feet? Backache? Those warning signals which indicate that "a bad cold" or a fever is coming on? Don't get discouraged, but go home. On the way, stop in any drug store and get Dr. Pierce's Golden Medical Discovery. When you get home, take a hot bath or a hot foot bath, go to bed, cover up warm—take a dose of the "Golden Medical Discovery," in the morning another dose, and you will feel better. You will not have to continue many doses before you are well. If you still persist in the use of Dr. Pierce's Golden Medical Discovery you will find improvement in your general constitution, appetite and blood—your liver will become active and throw off the poisons from the system.

Get as near to Nature's way as you can. There's a reason. Vegetable foods are usually good for the health. The human economy digests and assimilates them best. In disease, a remedy made up of Golden Seal root, Queen's root, Stone root, Black Cherrybark, Mandrake root and Bloodroot, such as Doctor Pierce's Golden Medical Discovery, is positive yet safe, is assimilated in the stomach and taken up by the blood, therefore it is the most potent means which can be employed for the regaining of lost health.

Microbes snatch at us from every corner. They mean to kill or eat us if they can. They are formed by millions on everything we eat, drink and wear. The air is alive with them. Medical science has proven in the past few years that nearly every disease is a germ disease. Such disease germs enter into the blood in two ways, either through the lungs or stomach. If the blood is pure and rich, the liver and stomach in healthy, active condition, the germs of disease cannot find a resting place there to multiply. Diseases of the lungs, bronchitis and consumption, grip and pneumonia, are very apt to spread through a factory where there is much fine dust in the air. The lungs become irritated and the germs find a fertile field for growth. Extreme weakness, feelings of nervous exhaustion, coughs and colds are the warning signals which should be heeded. One should put the system in the very best possible condition right away. Rid your body of the poisons that are apt to accumulate and your system is ready to ward off the attack of the germs of disease. Doctor Pierce's Golden Medical Discovery makes *rich, red blood*—by increasing the red blood corpuscles. There is no alcohol in this great tonic to shrivel up the red blood corpuscles. An alterative extract, made only of native medicinal roots, it goes about its work in nature's way. Only good can come from its use, as it invigorates and tones the liver into proper action, and feeds the worn-out nerves, stomach and heart on pure blood.

"I am a firm believer in Dr. Pierce's Golden Medical Discovery," writes Joseph Napoleon Herbert, Chairman Board of Relief, of 293 St. Paul Street, Montreal, Quebec. "Find that it has been of practical value to a number of men in my employ. They are especially exposed to inclement weather, and often the colds contracted run into pneumonia, stomach trouble, or kidney and liver disease. However, since we have known of the value of 'Golden Medical Discovery,' there is much less sickness, as this medicine seems to keep the blood in a healthy, active condition, and to ward off colds and all other diseases. It is a very fine tonic for a run-down system. I am pleased to acknowledge its worth."



BAD HEADACHES generally arise from bad stomachs. Foul breath, bitter taste, coated tongue, sour eructations or belching of gas, are common symptoms though not all present in every case. To cure, take small doses, only one or two each day, of old Dr. Pierce's Pleasant Pellets, the Original Little Liver Pills, first put up by him over 40 years ago. One or two a laxative, three or four cathartic.

LEWIS COUNTY CORONER INDICTED

(Special Dispatch to The Journal.)

Chehalis, Wash., Dec. 29.—The grand jury which has just closed its session here has returned an indictment against Coroner Harden, charged with an attempt to abet embezzlement. Bond for the coroner's appearance in the superior court was fixed at $200, which was furnished.

The finding of the indictment grew out of the shooting of two burglars at Winlock about a year ago. The claim was made that more money was found on the bdies of the dead men than was accounted for by the coroner. In going over the records the grand jury found that the coroner's office had not made a sworn statement in four years of the amount of money found on the bodies of dead persons, as the law requires.

The grand jury reprimanded the county commissioners, and the county commissioners in turn got after the coroner, with the result that the last few days the coroner has been filing affidavits as to the amounts he has found on dead bodies the past four years.

The nation's annual consumption of paper would make a roll 830 feet high by 337 in diameter, weighing about 2,700,000 tons and costing $36,200,000.

LOST—A bankbook belonging to Miss Ollie Scott, drawn on the Hib. Savings bank; lost December 28; finder please phone Sellwood 1304.

WEATHER REPORT

The British Columbia storm has moved east to Manitoba, and a large high pressure area overlies the Pacific slope. Another large high pressure area overlies the Atlantic states, and the barometer is rising rapidly in the extreme Canadian northwest. During the last 24 hours light rain has fallen at scattered places in the north Pacific states, and light snow has occurred in Montana. Rain has fallen in southern Texas, Oklahoma, Arkansas, Tennessee and Virginia. Elsewhere throughout the United States fair weather prevails. It is colder in the north Pacific states and warmer between the Rocky mountains and the Mississippi river. In the Atlantic states the temperatures are about normal.

The indications are for fair and colder weather in this district tonight and Wednesday.
