"THE JIG IS UP"

THILE CARNEGIE was testitifying before the ways and means committee Chairman Payne leaned over and whispered to Mr. Dalzell, whereupon Mr. Carnegie, who was in a humorous mood throughout, made a similar gesture toward the audience and in a and stage whisper remarked: "He is

whispering. The jig is up." Perhaps "the jig is up," as to the teel trust and some others, though this is by no means certain. Mr. Carnegle's testimony may not be so conclusive upon the matter as he help out the generous gentlemen and other high protectionists are in congress and have power; he has and things related thereto. that seems to count for but little with them.

But may not Mr. Carnegie be accused of treachery to his own class. the honorable and distinguished brotherhood of legalized plunderers? For many years the "jig" yielded him immense returns, a golden flood, and is even doing so yet; why should he now seek to stop its performance laid?" for others' benefit?

It is uncertain in just what sense Mr. Carnegie used the word jig. Webster gives six definitions of the tor. brisk musical movement. This will do; the people paid for the music terprising gentlemen are anxious to refarce in verse. Only by a greatly ing or doing away with the new plan strained construction could this be so as to enable the land speculator to sport; a prank." Well, wasn't this steel duty great sport for Andy, and a "corking" prank on the American people? A "jig" also may be "a small machine or handy tool." A mighty useful tool it was to Mr. Carnegie, as it has been to the steel consisting of a bright spoon and a hook .attached." This is better,

Letters From the People

Letters to The Journal should be written on one side of the paper only, and should be ac-companied by the name and address of the writer. The name will not be used if the writer asks that it be withheld. The Journal is not to be understood as industing the views or statements of correspondents. Letters should be made as brief as possible. Those who wish their letters returned when not used should in-close postage.

Lone postage. Correspondents are notified that letters ex-correspondents in length may, at the dis-cretion " the editor, be cut down to that limit, Let the Property Owners Pay.

Portland, Dec. 27 .- To the Editor of The Journal-For many years the people of Portland have used water to cook, wash, irrigate and drink. Fact! And they have the habit so strong that they are likely to keep on using it for the above and other purposes. Nature furnishes the water and all the people of Portland are required to do is to lay pipes and let the water run down hill into each and every home. Other cities have to go farther and construct more expensive plants to conserve the water. We have the best water in the United States and plenty of it. cities have to pump water out of rivers wells. We simply let it run to us. Yet for many years our water rates have been higher than where it was pumped. At last some search was made and the "African in the woodpile" was discovered to be the land speculator and the empty lot patriot. The consumers were paying three times what a reasonable rate should be simply to who imagines. Cannon, Payne, Dalzell cut up farms and sell them at from 200 to 2000 per cent advance to the fool people who want homes, schools It was power only over public opinion, and therefore determined to remedy the matter with an initiative measure that would compel the interests of the consumer and the lot speculator to distinct and reciprocal relations. Extensions of mains were to be paid for by the beneficiaries of all public improvements-the land owners. A lot without water connections is not wanted by a home builder so much as one with them. It is worth \$25 less without water than with it. "Water mains laid" attract buyers. "Water mains

COMMENT AND NEWS IN BRIEF

OREGON SIDELIGHTS.

Hubbard is growing right along. New houses are going up and new sidewalks being put down, netwithstand-ing the winter weather.

. .

The Hillsboro council has passed

resolution that owners of property sur-rounded by fences in need of repair be requested to tear them down and util-izs the material for firewood and build new fences instead of repairing them.

SMALL CHANGE

As a marriage producer lesp year was a failure. Have that resolution to buy only Ore

Not a house to rent in Enterprise and every mail bringing inquiries for houses from people who wish to move here, says the Chieftain. ton products ready. Is this a part of the that we were to have? hard winter

. But Pittsburg can't be shown orse than its reputation, UI

Aldrich wants to amend the postal savings bill to death-of course.

Castro is reported to have \$60,000,000. f so, Paris will welcome him yet.

Sound apples hanging on the trees at Christmas time is somothing that our friends in the east cannot have, but we have them here in Monmouth, says the Herald. If you overlooked anybody, New Year's is a good day to remedy the oversight. Next spring when work is resumed on the Drain-Coos Bay railroad. Drain will experience a tremendous building boom. It is sure to become a great and thriving city within a few years, thinks the Nonparell. 1. 1. 1.

Eggs 45 cents a dozen and no nog at ny price, complains the Oklahoman.

Carnegie has become so extremely liberal that he has given away the steel trust.

It looks as if the traffic facilities for those who are going to swear off would be inadequate.

Instead of two more judges, this county needs less litigation and more prompt procedure.

Venezuela is well rid of Castre, and him it is a squeezed orange, and he well rid of his job.

Perhaps Castro is going to buy a fleet f warships with that \$60,000,000 and tick a few nations.

new fences instead of repairing them. Steelhead trapping is improving above Astoria, says the Budget. One man is catching from 100 to 300 pounds daily below Cathlamet and one day another caught 460 pounds. The winter run is reported to be of fine quality, and the price has advanced to 5 cents a pound. The announcement may be made and accepted in all confidence that the pro-jected irrigation scheme for this valley will be a sure go, says the La Grande Star. Whatever may be lacking in the required stock subscriptions will be tak-en up by local people. It is hoped that Castro doesn't know enough English to come back to this country and lecture.

Of course the steel trust wants its protection coninued; a profit of \$15.50 a ton on steel is very nice.

"National extravagance must cease." says the Milwaukee Wisconsin. But it won't. "Must" is only a word. . .

A bill to raise official salaries is nearly always an easy one to passnearly always an easy one to pass-except when it cames before the pe ple.

A Book Worth Reading.

BOOK which is well worth reading by everyone who has a desire to get at the real problems

A ing by everyone who has a de-site to set at the real problems of real people is called "The Soul Market." It is written by Olive Christian Malvery of London, as actual account of her experiences in source an not fail to be of great in-source of these wretched people by the lives of these wretched people by the lives of these wretched people by the lives of these wretched people by the viewoolnt of an outsider, as one must always do, or by perusing many owner all the poor. As a street singer, a worker in several field of factory trades, a coster, or stress vendor of vesetables and fruit, in the sevents of these wretched beople by the of the people at an outsider, as one must always do, or by perusing many owner always do, or by perusing many was a street singer, a worker in several field of factory trades, a coster, or stress vendor of vesetables and fruit. In the the preserve and pickle business, and even among the criminals and out-cast of the working people's inner life. The answer of what she writes. She are to the working people's inner life. The shows of what she writes. She are to the working people's inner life. The worked at their trades, and the toring to the working people's inner life. The shows of what she writes she to her investigations can not but on to take any outsider's view of it. And while all of the things that af-footion do not apply is our country, our state or our city, yet since these things and hungry and wretched, but because thinking people have not taken steps to provide the our city of a new country, our state not be taken to be of great in-tered.

inced observer draws from such experi-ences can not fail to be of great in-terest. One of the conclusions that Mrs. Mackirdy draws is one that has recently been made in our own country by a sound thinker who puts it tersely thus: "What the poor need is not that so much be given to them in charity, but that less be taken away from them." And another has said: "Why all this fuss over social problems? The trouble with the poor is their poverty, and the trouble with the rich is their idleness." One of the suggestions made in this book, is for unity among all Christian charity workers. "If there were unity among Christian workers, and one whole, determined system by which charity was distributed, much could be fearful sufferings of the very poor, and sise in compelling the idlers to work, but in compelling the idlers to work, would make it impossible for idlers to live upon the earnings of others." And another plea which she makes is for some decent place, away from the streats, where poor girls and young men could meet and have social ac-qualingance. Marshfield News: Coos river eggs were selling at 60 ceuts per dozen in town last week; California eggs were sold at 50c and Portland eggs were 40c. The market was weak on the Portland product, but the eggs were strong enough to make up for it.

quaintance.

Is it strange that she should be moved to ask for pleasure instead of bread for these toilers? Instead of clamoring for higher wages and shorter hours? Indeed these things are men-tioned, and she who has toiled with ach-ing muscles and wearled brain at the too long and too arduous toil which brings in so very little knows their bearing as we little realize. And yet she asks for some brightness, some de-cency, some little spark of comfort and kindness for their leisure hours. One reason, it may be, is this. The

cency, some little spark of comfort and kindness for their leisure hours. One reason, it may be, is this. The great reforms, the adjustment of wages to living and manufacturing industries to wages must be brought about slowly. Perhaps in one lifetime there will be little change. And yet here are these work ridden people into whose lives comes nothing that is worth living for —and why they cling so to life is the mystery. One would suppose that death would seem kinder. Yet so long as life lasts it seems precious, and they will fight for it. Shall those who have too much not be moved to place in operation some simple workable plan for making the few hours of resplic more tolerable for these? Can not something be done here and now to make life if not easior at least less intolerable? "This much is to the organt of

at least less intolerable? This much is to the credit of Amer-ica, that Mrs. Macking found in this country a more intelligent dispensation

of charity than in London

of charity than in London. Indeed she does not hesitate to say that in Eng-land their charity is the most expensive and the most badly managed of any civ-llized country that she has visited. She has words of warmest praise for such institutions as the George Junior Republic, the Hull house work in Chi-cago under Jan Addams, and the Con-sumers' league, all of them as she finds deeply rooted in essential things and trying in a very real way to get at the elusive condition called "the heart of things."

which to those of us on this side of the water who read seems so matter of fact that we are surprised at their bein; mentioned. And to any one who enjoys reading a well written book which is neither argumentative nor pretentious this little volume from one who had the courage to find out things for her-self is warmly recommended. It came self is warmly recommended. It causes my way quite by accident, as so many good things do.

Economy in Buying.

TO the majority of people economy means simply purchasing an article for a small sum of money, says a writer in the Ladles' World. It may be that some comparison is made with the price usually asked for the article, but often no such comparison is made. The questions of "value re-ceived" and final cost rarely enter into the calculations. The real cost of an article is not known until these two the calculations. The real cost of an article is not known until those two items are counted in with the original

cost. Belying on sight or first impression is responsible for much-extravagance with people who mean to save. Not long since I saw meat displayed for sale. It

And only look on death as beautiful, so that the sacrifice ascend to heaven And draw down freedom on her ever-more." A Peace Measure. From World's Work, I thas been an open secret, if it be a secret at all, that the visit of the fleet to the Pacific did have an im-portant international reason. Thera was never a time during all the inflamma-tory newspaper talk of last winter, when there was real danger of a war between the United States and Japan, but there was danger that the world state party in Japan and the thoughtless people of the United States would stir up in both countries a bitterness of faeling that is unworthy of, each and that might be troublesoms in the fu-ture. To show the Japaness jingoes, therefore, not only that the United States has a fleet, but that it consid-ers the Pacific its home, was a distinct service to the conservative party in fapan; and it went far also to put an
