COMPLETE HOUSEFURNISHERS

HELENA FILED WITH LAWMAKERS

Eleventh Legislative Assembly of Montana Is in Session.

(Special Dispatch to The Journal.) Helena, Mont., Jan. 4.—The convening of the 11th legislative assembly here today marked the induction into office of the various state officers elected last November, who, with the exception of the governor, are all Republicans. Of the legislators, the house is Democratic and the senate Republican. In the Democratic caucus held last night, W. W. McDowell of Butte was selected for the speakership; Edward Burke of Anaconda for speaker, pro tem; Charles Pond of Bozeman for chief clerk; C. P. Blakesley of Livingston for sergeant at arms. The Republicans gave empty honorific titles to Thomas A. Cummings, nominally of Fort Benton but really of St. Paul and A. Gray of Great Falls, respectively. The Republican senatorial caucus selected Thomas M. Everett for president, pro tem, and Nathan Godfrey of Helena for secretary. The induction of Governor Norris into office was a ceremonious affair, the oath being administered by Chief Justice Brantley. Associate Justice Holloway administered the oath to the legislators, and Associate Justice Smith to the remaining state officers, including the three railroad commissioners and the treasurer, auditor, attorney general, secretary of state and superintendent of public instruction.

CANNON'S MAN

(Continued from Page One.) (Rep. Iowa), Shirley (Dem. Ky.), and Fitzgerald (Dem. N. Y.). The beginning of this agitation, the president says, was a 1000 word letter sent to the Chicago Inter-Ocean in 1904 by L. W. Busbey, private secretary to Speaker Cannon. At the time this letter assailing the secret service was published, President Roosevelt points out, these government detectives were working on the great land frauds in the west and aiding in the beef trust investigation. "But all of this," continues the president's message, "is of insignificant importance compared with the main thing, the real issue is simply, does congress desire that the government shall have at its disposal the most efficient instrument for the detection of criminals and the prevention and punishment of crime, or does it not? The action of the house last May was emphatically an action against the interest of justice and against the interest of law-abiding people, and in its effect of benefit only to lawbreakers. Is the house now willing to remedy the wrong?"

SECRET SERVICE, IN WHICH HE SAID: "There is no more foolish outcry than this against 'spies,' only criminals need fear our detectives."

The message reviews the operations of the secret service men since 1901. They uncovered a system for the fraudulent acquisition and fence of public lands. In this work one of the detectives was assassinated. In Nebraska 50 men were indicted for land frauds, and of 32 so far tried, 28 have been convicted. The government has secured the return of 1,000,000 acres of grazing land and of 2000 acres of mineral land in Colorado. It is suing for 150,000 additional acres. Of the land frauds, the president says: "No more striking instance can be imagined of the desirability of having a central corps of skilled investigators to investigate any violation of the federal statutes, in no matter what branch of the public service." "The secret service men obtained hundreds of confessions of conspirators who sold fraudulent naturalization papers. They located in Canada Greene and Gaynor, who were implicated in big government contract frauds, and arrested them. They secured many convictions in peonage cases and in silk and opium customs frauds. They assisted in the beef trust investigation and located the cotton leak in the agricultural department. Their destruction of a lottery company netted the government \$300,000 in fines. In revealing the ink contract fraud in the bureau of engraving and printing they saved the government \$100,000 a year. The total expense of the secret service last year was \$120,000.

MESSINA PEOPLE WILL REBUILD CITY AT ONCE

(United Press Leased Wire.) Rome, Jan. 4.—Undaunted by the ruins that surround them and the memories of the last week of horrors, the people of Messina and Reggio are planning to rebuild their homes and reconstruct the ancient cities that fell in ruins about them. Word of their brave resolve was brought here today by Cardinal Nava, archbishop of Catania. His eminence said: "The destruction of the cities is as complete as pictured in the most extravagant stories published. Still there is no thought among the prominent citizens of the dismantled towns that Messina and Reggio shall be abandoned. Many smaller towns will not be rebuilt, as they are literally blotted out and their sites are of no particular commercial advantage." "Because of the number of decaying bodies in the ruins, it will be necessary to abandon the cities shortly to avoid pestilence. It will be six months before the ruins may safely be visited and cleared." Director Paterno, government chemist, and Vice Director Lauripario went to Messina today. The best estimate is that 80,000 bodies are in the ruins of Messina. The rescuers are weighting the bodies with stone and iron and sinking them in the waters of the strait of Messina. The king is in conference with his cabinet today discussing measures and means of relief.

MARION CRAWFORD TELLS OF HORRORS OF MESSINA

(Continued from Page One.)

haunted with their labors and for lack of food. I cridged a piece of bread with a Lieutenant who had not eaten for three days. "Ruman Woe at the Infinite." "The wretched and half insane survivors are almost naked and the torrential rain has lasted for four days. The soldiers give up their tents willingly, yet many of the wounded are dying of cold. "After assisting in the work of rescue, I inquired at nightfall of the second day as to means of leaving the doomed city, but it was strictly forbidden, and I could upon the beach in the shelter of one of the wretched vessels that lie there. Only the more seriously injured are passed through the lines and at once put aboard one of the steamers that carry the injured to Naples. I induced the authorities, however, to make an exception in my case. "In Naples all the churches have been turned into hospitals, and many private houses have each of their 20 or 30 beds already full. "The stories sent hitherto from Messina have been founded on the accounts of the survivors and forwarded by the irregular mail service provided by a torpedo boat."

INSURGENTS SHOW SURPRISING STRENGTH

(United Press Leased Wire.) Sacramento, Cal., Jan. 4.—By a vote of 16 to 14, the Republican senatorial caucus this morning refused to admit Senator Charles W. Bell into its fold. The fight was particularly significant as being the first indication that, on a test vote, there are almost enough "insurgents" to outnumber the regulars. Bell, contrary to his attitude two years ago, did not apply for admission to the caucus at this session. That was unnecessary, as Senators George S. Walker, Charles P. Cullen, Marshall Black and Ernest Birdsall championed his cause and made his fight for admission into the caucus. These men are slated over their surprising strength, as shown by a vote which, when taken with the nine Democrats in the upper house, makes a formidable aggregation for legislative warfare.

HEAVY SHOCKS IN LIPARI ISLANDS

(United Press Leased Wire.) Naples, Jan. 4.—A series of heavy shocks have occurred in the Lipari island group, attended by renewed activity on the part of the active volcano on the island of Stromboli. A huge cloud of smoke is ascending from the crater of Stromboli and sulphurous fumes are noticed far out at sea. A soft, almost impalpable rain of ashes is falling in the vicinity of the eruptive mountain. "The island of Stromboli is practically deserted by the inhabitants, who have taken refuge on the mainland. "The government received word today from the various military head-

JAPANESE EXPERT TO STUDY EARTHQUAKE

(United Press Leased Wire.) Tokyo, Jan. 4.—Prof. Omori, the Japanese expert on seismic disturbances, has been ordered by the imperial government to proceed to Italy to investigate the incidents attending the temblor and tidal wave in Sicily and Calabria. Prof. Omori is looked upon as the foremost earthquake authority in Nippon and among the leading meteorologists of the world. His researches have been of inestimable value to Japan. Shortly after the San Francisco earthquake he was sent to the United States to make investigations of the phenomena.

CULGOA TO HURRY ON WITH RELIEF

(United Press Leased Wire.) Cairo, Jan. 4.—Two hundred officers of the American battleship fleet now at Suez, arrived here today. They are an advance guard of 400 officers who have been given permission by Admiral Sperry to stop over here for a brief visit. It is understood Admiral Sperry and his staff will visit Cairo later. The supply ship Culgoa will hasten to the earthquake zone in southern Italy as soon as she has loaded. The Culgoa is laden with immense stores for the battleship fleet. These can easily be spared according to Admiral Sperry, and will be sent at once for the relief of the distressed survivors.

STARVATION FOR EDWIN H. KIPPE

(United Press Leased Wire.) Berkeley, Cal., Jan. 4.—Lying on an old cot in a vacant house in this city, without funds or friends, Edwin H. Kippe of Denver, a Scottish Rite Mason, died yesterday from exposure and starvation. His body was found today. Kippe, who was an expert accountant, this evening wrote in a scrawl of employment. He was apparently 30 years of age. In his pockets were found letters of recommendation as well as receipts from the lodge of which he was a member, and an empty purse.

OHIO LEGISLATURE MEETS

Columbus, Ohio, Jan. 4.—The general assembly of Ohio met in extraordinary session today in pursuance of the call issued three weeks ago by Governor Harris. Public interest in the opening days of the session will naturally center in the election of a United States senator to succeed Joseph H. Foraker. The election of Burton is assured, his principal competitors for the honor having withdrawn some days ago.

STARVATION FOR EDWIN H. KIPPE

Expert Accountant; Could Find No Work—Denver Man; Mason.

(United Press Leased Wire.) Berkeley, Cal., Jan. 4.—Lying on an old cot in a vacant house in this city, without funds or friends, Edwin H. Kippe of Denver, a Scottish Rite Mason, died yesterday from exposure and starvation. His body was found today. Kippe, who was an expert accountant, this evening wrote in a scrawl of employment. He was apparently 30 years of age. In his pockets were found letters of recommendation as well as receipts from the lodge of which he was a member, and an empty purse.

BAD CHECK CASHED; MAN DISAPPEARS

Change Trick Worked by One Who Gives the Name of George L. Haley.

(Special Dispatch to The Journal.) Vancouver, Wash., Jan. 4.—A man giving the name of George L. Haley Saturday night succeeded in cashing a bogus check on Dr. A. A. Pompe of Seattle for \$125 and made good his escape. So far no trace has been secured by the authorities here, although it is thought he went to Portland. Haley made his appearance in the city Saturday noon. He entered the Ketch music store on Washington street and inquired as to the price of various articles. While in the place he exhibited the check cashed later, but made no attempt to get money on it. The furniture man, however, offered to take the check and told Haley he could call in on Monday and secure the balance, but this he refused to do, saying he would have to get some change for Sunday. Several places were drawn on the Citizens bank, and the check was finally cashed with Dr. Pompe. The check in question purports to be signed by E. J. Anderson, and as no such person is in business here, it is presumed to be a fictitious name. It was drawn on the Citizens bank, and declared Anderson had a painting contract in the garrison and that the check was given him in payment for work.

HARRY DALY TO TAKE APPEAL

Charitable Lawyers Will Attempt to Save Murderer's Neck.

Harry Daly, sentenced to hang by Judge Gantenbein on January 29, is to have his life prolonged by an appeal to the state supreme court. This was the announcement made by John H. Stevenson, one of his attorneys, this morning. Daly was defended by Mr. Stevenson and L. W. Humphreys on the ground of insanity, but the jury convicted him in less than an hour. It was announced that no appeal would be taken, but Mr. Stevenson says that on looking over the record there are questions of law that can be raised, and he has hopes that Daly's neck can be saved by a new trial. The condemned man was taken to Salem last week to be placed under the death watch until the time for his execution. The appeal will act as a stay while the proceedings are carried through the upper court. Daly declared before leaving the county jail that even if he had to die he wants to live as long as possible. He wanted to appeal but feared that he could not raise the money to pay the cost. His attorneys will have to bear the expense themselves, unless some of Daly's friends come to his assistance. The crime for which Daly was convicted was the killing of Harry Kenny, a well-known Portland citizen, who after being refused employment, and on the trial it was shown that he had threatened his victim several days before. Daly claimed to have no recollection of the shooting.

IS HITCHCOCK ABETTOR OF TREASON?

(Continued from Page One.) Portland Postmaster. Some believed Dr. H. W. Cox and W. J. Furnish, who were here a few days ago, came to work along the line drawn for any other arrangement entered into. Minto will remain postmaster for one or two years, and then the postmastership may come up now at any time before the senate committee on postoffice has been put over the holiday vacation at Fulton's request. The belief has been general that Young would be confirmed eventually, but it seems inevitable that a bitter patronage issue has been raised between the two Oregon senators which would not be less acrimonious if Hitchcock were to take a hand in the Oregon senatorial election. Bourne remaining firmly of the opinion that both political honor and expediency demand the redemption of senator Young, will leave Wednesday for Augusta, Ga., where he will confer

\$800,000 TO RELIEF FUND

(Continued from Page One.) country and ours and our own abundance should prompt us to send relief. "Confident of your approval, I have ordered the supply ships Celtic and Culgoa to proceed to the scene of the disaster, where, upon receiving the authority now asked from you, they will be ordered to dispense the supplies. "Eight battleships are under orders to proceed to Italian waters, and the Italian government will be asked if they can be useful. "I recommend that congress approve the application of the supplies indicated and further appropriate \$800,000 to apply to the work of relief at the direction of the executive with the consent of the Italian government."

Don't Blame Your Stomach

When Without Exertion or Cost You Can Enjoy Meals and Cure Dyspepsia. Don't blame your stomach or your luck when your meals declare war on your system. When the stomach won't do its work it is because it is diseased. When you feel a fullness or a burning or a pain in the stomach, when the head aches and the stomach is full every morning, when you have a bitter taste in your mouth and a nightmare assault you, don't stir up the appeal of nature, and it should be heard. Over-eating, late suppers, poorly chewed food, rich pastries and under-done cooking are some of the causes of the stomach's ill health. It presses and churns all the liquid matter in food and with its juices dissolves into liquid form or pulp everything which comes into it. If such food be poisonous it effects the juices, attacks the stomach, goes into the blood and weakens the entire system. Stuart's Dyspepsia Tablets will digest a full meal easily without material assistance from the stomach, and will restock the gastric fluid with all the elements needed. They build up the elements, destroy sour taste, bad breath, belching, stomach and bowel trouble, and quickly restore natural conditions. One grain of Stuart's Dyspepsia Tablets will digest 3,000 grains of food in the stomach or in a glass vial without aid of the human digestive apparatus. The method of operation is simple. Tablets are the method of Nature. They contain every requisite for the stomach and digestion. After a meal one of these little tablets when it enters the stomach begins to dissolve. It removes the fermented and undigested mass, lying stagnant there and causes the stomach to act. It is wholly a question for you to solve. Your druggist will furnish Stuart's Dyspepsia Tablets. Be the best of your health and send for a trial package. Address: F. A. Stuart, Co., 328 Market Street, San Francisco, Cal.
