"The provisional price made this city for street lighting is at the rate of \$55 per arc lamp per Year. It is interesting to note that the rate made per arc lamp lin New York City is \$90 to \$100. Phila delphia. \$99.60; St. Louis, \$97.50; Boston, \$124.10; Cleveland, \$67.22; Cincinnati, \$60; Baltimore, \$67.49; Plitsburg, \$76; Washington, \$85; Detroit, \$62.82; Buffalo, \$56. The reason for this low rate in Buffalo is on account of power being derived from Niagara falls, only 10 miles distant, whereas the power for the operation of arc lights in Portland is mainly generated at Cazadero, 40 miles distant, the greater the distance from the point of generation to the point of consumption the greater is the line loss of electric current in transmission, which has to be overcome by a corresponding higher rate to consumer.
