### HEARINGS ARE HEARD

U. S. Government Contents Cases at Fossil.

(Special Dispatch to The Journal.)  
Fossil, Or., Jan. 11.—The United States government contents cases in Fossil this week, upon which final proof had been made some years ago, but for which patents had not yet been issued. Among witnesses appeared with his attorney, H. H. Hendricks, and a number of witnesses and made a strong case. Another defendant, a real estate dealer named Colvin, from St. Johns, who committed himself to the government, also appeared with H. H. Hendricks as his counsel and although several rooms are already being used for school purposes it will not be dedicated until the latter part of the month.

### ANNUAL CLUB BANQUET

Two Counties Attend Klamath Falls Function.

(Special Dispatch to The Journal.)  
Klamath Falls, Or., Jan. 11.—The Klamath chamber of commerce held its annual election and banquet Thursday evening. Prominent citizens of Klamath and Lake counties attended. All officers were re-elected. W. A. Delsell, president; George T. Baldwin, vice president; H. E. Dunlap, secretary; Alex. Martin Jr., Frank Ira White, John Ellis and W. H. Dolbeer, directors. The secretary reported 150 personal

letters written to inquirers during the year, and 1000 circulars sent to people whose names were furnished by William McMurray, besides several thousand circulars without letters.

The banquet was made the occasion of a good roads demonstration. Plans are now being laid for a large Klamath exhibit at the Seattle fair.

Rebecca lodge No. 163, for the ensuing year as follows:

Mrs. Rolla Adams, N. G.; Mrs. F. L. Rosegrant, V. G.; Mrs. W. H. Overbaugh, secretary; Mrs. J. G. Wyers, treasurer; Mrs. J. H. Guider, chaplain; Mrs. M. C. Martin, R. S. N. G.; Mrs. J. G. Wyers, L. S. N. G.; Mrs. T. F. Shepler, R. S. V. G.; Mrs. T. C. Hopper, L. S. V. G.; Mrs. E. R. Carnett, I. G.; Mrs. Sam Flindt, O. G.

John G. Wyers, acting as grand master of the state of Washington, R. Field as grand marshal, A. B. Groshong as grand warden, and Guy G. Crow as grand secretary, installed the officers of Goodwill lodge No. 188, I. O. O. F., as follows:

## WHISKEY TAKES HERO TO PRISON

John Elison, Who Saved  
150 Lives, Jailed on a  
Larceny Charge.

(United Press Leased Wire.)  
Los Angeles, Cal., Jan. 11.—John Elison, who was decorated with the Victoria medal for saving 150 lives from a wrecked steamer off the western coast of Australia, is in jail here on a charge of larceny. He attributes his downfall to whiskey.

William Volkmar. (Special Dispatch to The Journal.)  
Myrtle Point, Or., Jan. 11.—William Volkmar, 92 years of age, died at his home in Myrtle Point, Sunday, January 3. When he came to this country as a youth of 19, there were no railroads, telegraph, telephone, electric lights—none of the many modern conveniences and luxuries that are now so common.

As a tinner and plumber he had contracts on the first railway line to be built in this country—the Baltimore and Ohio. He was a friend of Morse, the father of telegraph, and helped construct the first telegraph line and was in the office with Morse when the first message was flashed over the wire from Washington to Baltimore. "What hath God wrought?" He was perhaps the oldest Mason in Oregon, having joined soon after attaining his majority and must therefore have been a member for 70 years. He was also an Odd Fellow.

William Volkmar was born at Lauderbach, Hesse-Darmstadt, Germany, April 19, 1816. He crossed the ocean in 1834, settling at Baltimore on November 29. There he met and married Wilhelmina Diefenbach, also a native of Germany, and there the first son, Carl H., was born. Thinking to better his financial condition, Mr. Volkmar came to Oregon in 1859, via the isthmus and San Francisco. He located on the south fork of the Coquille, taking up 200 acres of land. Growing too old to perform the manual labor on the farm, he moved his family to Myrtle Point in 1884, opening up a tin shop. By degrees the little shop developed into a hardware store, which since his incapacity has been conducted by his two sons, Henry George and Albert L., who have proved worthy successors of their pioneer father, developing a fine business from the small beginning.

Mr. Volkmar brought with him to Coos county, in addition to his tinners' tools, a saw, a horse, a horse power engine and a mill stone. With these were made the first grist mill, with a 52-inch saw brought by Schaefer, the first saw mill was started.

Six children were born in Coos county, James M., the proprietor of the drug store at Oregon City, Or.; William F., of North Yakima, Wash.; Clotilda W., wife of B. M. Green, whose death he mourned; and Henry George, associated with Albert in the hardware business. Mrs. Volkmar preceded her husband to the great beyond by several years, the eldest son, an attorney, also having died when in the prime of life.

Mr. Volkmar's taking away will be mourned by a large number of friends, especially of the pioneers, who with him endured the hardships of the early days in this section of the country.

Mrs. Julia A. Dousman. (Special Dispatch to The Journal.)  
Fossil, Or., Jan. 11.—Mrs. Julia A. Dousman, 84 years of age, died January 6 at her home in Fossil precinct. She was the widow of Henry Dousman, who was one of the earliest Free Masons in Oregon. Her life was spent almost entirely on the frontiers. She started with her husband from Indiana in 1850, for California, coming by way of the isthmus.

They were detained at Chagres 29 days by the steamer breaking down, and in the meantime fever broke out among the immigrants, 60 or more falling victims during their detention there. The party then chartered the old steamer "McKim." Mr. Dousman was carried aboard a victim of the Panama fever, and his life was saved by the skillful and devoted nursing of his wife. The "McKim" was also disabled and towed into San Diego, with the crew and passengers in a starving condition. The immigrants next boarded the steamer "San Birk," and at last arrived in San Francisco late in March, 1851, having been nearly five months on their perilous voyage.

They settled in Sonoma county, where they lived 23 years. Then they moved to Spokane, Wash., and in 1883 they moved to Fossil, which has been the family home since. The deceased was held in high esteem. She was buried Friday in Fossil Masonic cemetery.

Robert Pattison. Eugene, Or., Jan. 11.—Robert Pattison, 80 years of age, one of the oldest of Lane county pioneers, died at his home near Eugene Saturday afternoon. The cause of death was due to the infirmities of old age. He was born in Randolph county, Illinois, and came to Oregon by ox team in 1849. He spent one winter at Oregon City and crossed the Columbia into Washington, where he lived until 1858, when he came to Lane county and had lived here since. In July, 1859, he was married to Miss Isabella Eskin, and to them five children were born. William, George, John, Margaret and Isabelle, all of whom are living except George. Mr. Pattison was a faithful member of the Presbyterian church.

William S. Thompson. Fossil, Or., Jan. 11.—William S. Thompson, 52 years of age, died at his home here January 4, of acute gastritis. He was born in Illinois and came to Napa, Cal., via the isthmus, with his parents when he was a baby. He came to eastern Oregon from California when a young man, and had lived on the Thompson ranch adjoining the town of Fossil for the past 30 years. He leaves a wife and four children, an aged mother, a sister and a brother. He was universally respected. He was a member of the Masonic and Woodman orders.

"Ben Hur" has settled down to an established success in American amusements. Interest in the engagement at the Hotel theatre next week is as pronounced as that which marked its first staging in Portland five years ago. The dramatization of General Wallace's powerful religious novel, whose action and theme deals with the beginning of the Christian era, enthralled the audience in the unfolding of the impressive story, while nothing approaching the production in magnitude and magnificence of spectacular effects has heretofore been seen on the American stage.

The strong hold this play has on the minds of the public, as evidenced by the fact that it will become a stage classic, just as the book has become one of the great classics of literature.

No remedy that does not entirely remove the cause of Catarrh from the blood will ever make a permanent cure of the trouble. Just as long as the circulation remains contaminated with the impurities and catarrhal matters which produce the trouble, the mucous membranes or inner linings of the body will be kept in a state of irritation and disease. Sprays, lotions and other local applications will sometimes temporarily relieve the tight, full feeling in the head, buzzing noises in the ears, uncomfortable, stuffy feeling of the nostrils, and help to loosen the mucus in the throat; but Catarrh is a constitutional blood disorder and until it has been entirely driven from the system there can be no permanent cure. S. S. S. cures Catarrh by removing the cause from the blood. It attacks the disease at its head and by thoroughly purifying and cleansing the circulation, and ridding it of every particle of impurity, and at the same time enriching the blood, allows the inflamed and irritated membranes to heal, improves the general health, and stops every disagreeable symptom. S. S. S. reaches down to the very bottom and leaves no trace of the disease in the system. Book on Catarrh and any medical advice free to all who write.

## PAY FIXED FOR COUNTY OFFICERS

Committee of Cottage Grove  
Citizens Compiles Data  
on "Nesmith."

(Special Dispatch to The Journal.)  
Eugene, Or., Jan. 11.—The committee of Cottage Grove citizens appointed by the Commercial club of that city to prepare the bill to be presented to the legislature for the creation of the new "Nesmith" county out of parts of Lane and Douglas, has compiled the following facts and figures:

Total area, 1956 miles; total assessed valuation, \$4,915,932; total population, 7694; total number of school children, 2519; total number of school districts, 42; assessed valuation per capita, \$617.26. Three million, four hundred and thirty thousand, three hundred and eighty-four dollars of the valuation is from the north portion of Lane county included within the boundaries of the new county and \$1,485,596 is from the north portion of Douglas county. The present county and state levy is 12 mills, giving the proposed new county at the same rate, a revenue of \$88,991.20. Seven and thirty hundredths mills of this amount is county tax or \$36,033.78.

The salaries of the several officers of the proposed new county have been agreed upon as follows: Clerk, per annum, \$1200; sheriff, \$1200; treasurer, \$1200; county judge, \$400; assessor, \$800; school superintendent, \$400; total fixed salaries, \$4400. There will be two county commissioners at \$3 per day for actual time served.

The coroner and surveyor are to be paid by fee. The salaries are practically a duplicate of those of the new county of Hood River. The probable cost of officers' salaries per year, including commissioners, coroner and surveyor will not exceed \$5600. This amount deducted from \$36,033.78 leaving a balance of \$30,433.78 for public services.

Postmaster at Ashwood. (Washington Bureau of The Journal.)  
Washington, Jan. 11.—Frederick McCollum has been appointed postmaster at Ashwood, Crook county, Oregon.

"Aerocaphe" has been coined as the word that signifies the aeroplane with phillogia correctness.

No remedy that does not entirely remove the cause of Catarrh from the blood will ever make a permanent cure of the trouble. Just as long as the circulation remains contaminated with the impurities and catarrhal matters which produce the trouble, the mucous membranes or inner linings of the body will be kept in a state of irritation and disease. Sprays, lotions and other local applications will sometimes temporarily relieve the tight, full feeling in the head, buzzing noises in the ears, uncomfortable, stuffy feeling of the nostrils, and help to loosen the mucus in the throat; but Catarrh is a constitutional blood disorder and until it has been entirely driven from the system there can be no permanent cure. S. S. S. cures Catarrh by removing the cause from the blood. It attacks the disease at its head and by thoroughly purifying and cleansing the circulation, and ridding it of every particle of impurity, and at the same time enriching the blood, allows the inflamed and irritated membranes to heal, improves the general health, and stops every disagreeable symptom. S. S. S. reaches down to the very bottom and leaves no trace of the disease in the system. Book on Catarrh and any medical advice free to all who write.
