The service I render is entirely unlike and better than the ordinary. I have devised new and scientific methods of treating men's diseases in all their phases. I cure cases that others cannot cure, and cases that others can cure I cure in less time and without pain or possibility of injury. All my forms of treatment have been perfected along the lines of nature's requirements and are in exact harmony with the natural recuperative forces. Therefore, my cures are painless, prompt and thorough. (Special Dispatch to The Journal.) Varicocele

There is no necessity for surgical operations in the treatment of Varicocele. This disease yields completely to my mild and painless meth-od, and results are far better than were even attained by the hars! and dangerous practice of cutting. But one week is required, and seldom is it even neces-sary to detain the patient from his busin

The vast multitude of men who have taken The vast multitude of men who have taken my treatment have not been disappointed. They know that I do not promise more than I per-form. To them I have actually illustrated in the cure of their own cases the truth of what I claim, namely, that my treatment is as certain to cure as it is that my patient engages my services and follows my directions. My suc-cess is due not alone to education, experience, skill and scientific equipment, but to the fact that I limit my study and practice strictly to diseases and weaknesses of men. To male maladies alone I have earnestly and exclusively devoted 25 years of my life, and on them all my faculties are concentrated. stricture I have again triumphed over surgery. I employ an original method by which the obstructing tissue is completely dissolved, and all inflammation and irritation through-out the system expelled.

Mike Breyette has sent in his con-tract from Minneapolis and will proba-bly be the regular shortstop on the Oakland team, unless Eddie Foster, drafted from the championship Logans-port team of the Tri-State league, beats him out Breyette was secured from Burlingame of the Central league. From Burlingame of the Central league. He was the premier run getter of the league, crossing the plate 72 times in 13 games. His batting average was 294, being the third best in the league. He stole 29 bases and secured 14 sacrifice hits.

George Edward Waddell is about the only big league star who has not de-manded an increase in salary or stated that he had retired from the game. Probably Rube is afraid a bluff would be called.

Never was there a ball player with the meteoric rise of Walter Johnson, the Welser, Idaho, slabster now with the Washington Americans. Manager Cantillon says he would not trade John-son for any two men in the league. What would Johnson not do with a first division club?

The University of California, which developed such notable diamond stars as Orval Overall and Nick Williams, will probably be without a scintillating team this season. All of the veterans have forsaken the classic halls. The Meyers boys, including Jimmy, the best backatop ever developed at a western college, and "Hap," the crack first baseman, have flown. So have Buller, Reid, Solinsky and Earnist, all tried players. "Hap" Myers will cast his lots with the "pros."
