

FIFTY THOUSAND FOR REYNOLDS

Chicago Bank Bids Up to Keep Taft From Taking Him Away.

(Hearst News by Longest Leased Wire.) Chicago, Feb. 6.—The directors of the Continental bank today notified George M. Reynolds, president of the institution, that at a meeting his salary had been increased by unanimous vote from \$35,000 to \$50,000.

PORTLAND-BUTTE ELECTRIC, MAYBE

Pittsburg Men Ask Right of Way From Armstead, Mont., to Salmon, Idaho.

(Special Dispatch to the Journal.) Helena, Mont., Feb. 6.—There was filed today in the United States land office here an application for right of way for the Gilmore & Pittsburg Railway company. The proposed line, which is backed by Pittsburg capital, will extend from Armstead, Mont., to Salmon, Idaho, and it is supposed that it will form a link in either the proposed Butte-Pittsburg or the Portland-Butte electric line. Its application covers right of way for a distance of 125 miles.

BATTLESHIP FLEET SAILS FOR HOME

(United Press Leased Wire.) Gibraltar, Feb. 6.—The one thought uppermost in the mind of Admiral Sperry and his fellow fleet officers as they sent the 16 battleships of the American fleet out of the harbor today was to complete the record breaking world cruise without a mishap. The freedom from accident that has marked the cruise since it began more than a year ago, has been favorably commented on in naval circles the world over, and with home shores so near, the officers are doubly anxious to avoid marring the splendid record. Officers and sailors alike are determined to bring the sea-fighters into Hampton Roads, 3600 miles away, on February 22, "fit for battle."

FRENCH PREMIER PLANS ANTI-ROYALIST FIGHT

(United Press Leased Wire.) Paris, Feb. 6.—Politicians in closest touch with the French administration say there is no doubt that Premier Clemenceau intends to retire at the first good opportunity not with the idea of quitting public life, but as the preliminary to a long vacation in anticipation of the desperate fight he will have to lead against the royalists in 1910.

COURTHOUSE FIGHT VIGOROUSLY WAGED

Action will be taken early this week, which, if the hopes of the United East Side Push clubs are realized, will greatly assist the campaign of the east side for the new county courthouse. At a meeting of the courthouse committee of these clubs last night the bill, so be presented to the legislature authorizing the placing of the question of the location of the new public building on the ballot at the June election was drafted and will be introduced in the house at Salem Monday. At the same time a petition will be started which will state off defeat should the legislature fail to pass the bill.

Great Rheumatism Cure

Wanted—50 persons who are afflicted with rheumatism, to give this great new medical discovery a trial. No more need go to the mineral or hot springs when you can be cured just as well at home. It will cost you nothing to try it, and will convince you that all things are not humbug. N-25, Journal.

REVIEW OF THE WEEK AT WEST SIDE HIGH SCHOOL

By Mildred L. Clemens. Owing to the completion of the terms of work which ended February 3, the last two weeks have been somewhat irregular. The final examinations were in progress all of the week previous to the last. On Wednesday morning the pupils attended school for the purpose of receiving their final grades.

The February class issue of the Cardinal was out on the morning of the graduation day in time to be given to the students when they went for their cards. The class members spent a good deal of time and trouble in an attempt to make it one of the best issues ever published, and their time and trouble were amply repaid in the splendid issue. A simple design in white, with red lettering, made a very effective cover. But the efforts of the class were surely repaid by the just praise from every mouth.

Wednesday night the graduating exercises were held in the high school assembly hall. Principal T. T. Davis had charge of the evening's program. Pleading music was rendered by the boys' and girls' glee of the high school. Rev. Benjamin E. Young of the Taylor Street Methodist church delivered the class address. Although the class is unusually small, nevertheless the high school will miss its baby class.

Owing to the fact that Luke Rader, the former editor of the Cardinal, changed his time of graduating from June, '09, to the February class, just graduated, and also that Frank Anderson, the associate editor, had to stop school, it became necessary to elect a new editor for the paper. Accordingly, on January 21 the school voted Oscar Hansen editor in chief, with Keran Davis as assistant editor. Bruce Shuman's place as business manager will be filled by Cecil Altman.

On January 22, the June class gave the annual June prom for the February '09 class. The dance was given at the Muriark hall, and was a great success. About 80 couples danced to the sweet strains of music, while others spent the evening at the card tables. The hall was decorated very prettily with palms and ferns, with pennants scattered everywhere in artistic profusion. The patronesses were: Miss Barnes, Miss Bain, Miss Larrabee and Miss Goddard of the high school faculty.

The football season over, the athletic boys have turned their interest to the favorite indoor sport of basketball. For some time the boys were unable to find a suitable place to practice in, until the Portland academy came to their aid and offered the high school boys the use of their gymnasium. Good practice under Kenneth McAlpin's guidance has brought out a fine team for the high school. So far "ball's well" with the boys, for they won both the games played so far. The first game was with the East Side high school, played on Friday, the twenty-second, the West Side winning by the score of 44 to 23. The next game with the Allen Preparatory school, ended triumphantly for the West Side boys.

The second semester begins on Monday, February 8, and continues with very few interruptions until the summer vacation. The June class now steps into the place vacated by the February class, and all will settle down to five more months of good, steady, faithful work.

10c to 50c on the Dollar. Men and women should read the page announcement of Karo-Klapper Co. in today's paper. It's worth your while.

MRS. STIRLING LOSES COUNSEL

Which Puts the Lady Out Not a Little—The Two Laws of England.

(Hearst Cable.) Edinburgh, Feb. 6.—Mrs. Stirling is greatly grieved by the sudden retirement of her barrister, Lord Advocate Shaw, who had been briefed by her London solicitor, the Honorable Charles Russell, son of the Baron of Killowen. Shaw was to have addressed the court on behalf of Mrs. Stirling. Mrs. Stirling's cause may suffer by the sudden change of lawyers, as the case is being tried without a jury, by a judge. There is further ground to the effect that Shaw's daily "refresher" fee was not forthcoming, wherefore he retired from the case, but this is not believed of the chivalrous Scotch lawyer.

It was significant when the judge postponed the hearing of argument until Saturday that he said: "This is a case of life or death. It is as important to the parties concerned as a criminal case." Persons without means have a scant chance of justice in the British courts. British justice is summary, but costly. Sir Gore Barnes, president of the divorce court of England, said today: "There is one law for the rich and another for the poor." He meant that only persons with means could get a divorce under the English laws.

Chief Joseph's Realm

and the point where for over half a century he made his winter camp was on the island at the mouth of the Yakima river, where that pretty stream empties its life-giving waters into the majestic Columbia, just two miles below the thriving town of

RICHLAND

The name of KEN-NE-WICK was given to all this country by that noble old Indian, and when translated means "A WINTER PARADISE."

Read This Carefully--It Tells Its Tale

The country known as the Inland Empire could well be likened to an immense bowl, with the Blue, Bitter Root and Cascade mountains as the top of the bowl. It is a well-known fact that altitude and nearness to the mountain ranges are the controlling features of the climatic conditions of this country. Most of the fruit sections of the northwest are located somewhere on the sides or near the foothills of these mountains, hence their late crops, for they get more snow, mud and slush, more clouds, and the water they use for irrigation is cold and snow fed,

BUT Richland

in the center of the "COLUMBIA RIVER EARLY FRUIT BELT," is not only the lowest irrigated altitude in the north, but it is the farthest point from a mountain range and the water for irrigation comes through long gravity ditches and a still longer river. These are some of the reasons why our country is called the

"Columbia River Early Fruit Belt" and the "California of the Northwest"

Richland is only 10 miles above KENNEWICK ON THE COLUMBIA and is practically a duplicate of that now famous district. ONLY WE can sell you

Land With a Water Right at \$100 to \$250 Per Acre On Six Yearly Payments

You can buy this and improve it yourself, or we will improve it for you at a very low figure. Ten to 40 acres will make you independent for life. We can't grow any better products than many other districts, BUT WE CAN put our products on the market when we have no competition and therefore command the TOP-NOTCH PRICE.
