

WATER BOARD BOXING GAME STAYS DEAD

Bill Fails Because Members Who Really Favor It Get Frightened.

(By Journal Leased Salem Wire.)
Salem, Or., Feb. 13.—It is all off with the boxing game. Though a good many of the members of the house really wanted to vote for the Davis bill, the bill was killed last night, they did not have the nerve to go on record, so the bill was killed. Several members were excused from voting on the measure and when that boon was refused by stubborn members, a grim smile and voted yes, just to show they had their nerve with them. Bean said he would like to be excused, so did Bones, but both voted yes. Bryan said since the bill carried no emergency clause and he would have to wait three months to see if a fight he did not think he could stand the suspense, so he voted no.

Prominent Business Men and Big Taxpayers Regard Salary Increase as Unjustified—Clerks Not Entitled to More Money.

Prominent business men and property owners all over the city are indignant at the action of the water board in declaring a wholesale increase in the salaries of employees of the water department. A vigorous protest will be made by several of the most prominent of the complainants, who are of the belief that the board can be forced to rescind the extravagant order. The board will be rushed by the taxpayers upon whom the unnecessary burden will fall, and owners of property who are being taxed for the water. It is more than possible that the order for the advance will be annulled. The protest was given in the board yesterday when Superintendent Frank T. Dodge, who has been in charge of the water department for two decades, acknowledged that he had declined to accept more than \$250 a month now being paid him.

Thursday the water board sprung a surprise upon the unsuspecting water consumers by announcing that after March 1 the salaries of the larger part of the water department employees would be raised from 30 to 100 per cent. The astonishment of the consumers was magnified by the fact that it has been generally understood that the department was in a poor way financially. It has been announced of late that few extensions to the system could be made for the reason that funds were short.

Nevertheless, the board has announced that after this month the wage of the chief engineer would be \$400 per month, as against the \$200 a month now being paid him. The salaries of all the clerical employees will be advanced, and in the near future the laborers have been led to expect a raise.

"It is an outrage," declared George W. Bates, the Albina banker. Mr. Bates for years has operated the system which supplied upper and lower Albina with water, and was for some time a member of the water board.

"It is an outrage on the water consumers," he said. "It is without reason. With one or two exceptions the employees are not worth a cent more than they are now getting. There should be no increase in the salaries for the city should command more per month in wages than those working for private institutions. They do less work and easier work and further, have practically no responsibility. The water department seems to have no money with which to lay mains and make extensions, but it seems to have plenty to unnecessarily raise salaries."

"The salary increase will come as an additionally heavy burden just at the time when taxes are being levied on water to be furnished on a meter basis, and this system will reduce the income of the department about one-third."

"Water consumers have had a hard row to hoe during the last few months and I can see no reason for further and unnecessary raising upon them additional burdens."

William Ladd, of Ladd & Tilton, bankers, would neither commend nor criticize the action of the water board. He said, however, that when he was a member of the board he always considered the salaries sufficient.

L. T. Peery, the prominent east side real estate dealer, indignantly expressed his disapproval of the advance as most unnecessary.

"The bill was not on the face of it, greatly different from the present law, but it slipped one little thing in that would have been much different. It provided that in cities of more than 25,000 inhabitants 10 round boxing exhibitions could be held under the auspices of athletic clubs."

Beddison and McKimney said they did not like the discrimination. McKimney said Baker City liked a little excitement once in a while and Beddison said his country would like to see a "fistic encounter" occasionally. So the house amended the bill cutting out the provision clause. Then Hawley wanted to make the limit 25 rounds, meaning to kill the bill. The house would not hear it.

Campbell reminded the house that the bill was simply to legalize prize fighting, and that he had declined to make any statement further than that and the house could do as it liked. Several members knocked the bill, as a step backwards, and the vote was taken, which was disastrous to the bill. After the vote Brady thanked the house in the following language:

"Gentlemen, thank you. We in Multnomah county wanted the bill, but I see, as usual, the members from Multnomah who wanted the worst when the vote came, had faded away like the snow under the no-day sun."

The vote was as follows: Yes—Altman, Applegate, Bean, Beddison, Bones, Brady, Brattain, Brooke, Couch, Dodda, Leland, Lehnweber, McCue, McDonald, McKimney, McPherson, Patton, Philipott, Smith, McArthur; total 20.

Nays—Barrett, Beals, Belknap, Bonebrake, Brandon, Bryant, Buchanan, Calkins, Campbell, Conyer, Corigan, Dimick, Greer, Hawley, Hines, Hughes, Jackson, Jones (Clackamas), Libby, Mahone, Mann, Miller, Munkers, Purdin, Rusk; total 26.

There will be a hearing on the bill Sunday at 3:30 p. m. in the White Temple. Mr. Riddell will speak to men and women on the subject of hereditary crime. The "New Man" at the same hour in the Taylor Street Methodist church. Miss Francis, his business manager, will tell of her personal experiences with Evan Roberts in the Wales revival. The regular lecture course for everyone will be resumed Monday night, subject, "Christian Mysteries Unveiled."

Special Days at A. Y. P. (United Press Leased Wire.)
Seattle, Wash., Feb. 13.—Hundreds of cities, large and small, will have special days at the Alaska-Yukon-Pacific exposition. Already a large number have been named and today the department of special events notified the mayors of the following cities of the dates of their special day at the exposition: Los Angeles, August 7; Berkeley, September 4; Alameda, September 11; Oakland, September 18; San Francisco, September 10; Fresno, Hayward, Merced and Modesto, August 21; Pacific Grove, Avenal, Monterey, Watsonville, Santa Cruz, August 23.

Extension and betterment of the water system.
George V. Oremus of 557 Market street, Portland, is a writer in the Journal, in which he takes cognizance of the increase of the water department's engineer from \$200 to \$400, of the assistant engineer's salary from \$125 to \$150, and of the pump engineer's wage from \$77 to \$82.

CRATER LAKE BILL PASSED

House Debates It Long, and Then Passes It, 42 to 17.

(By Journal Leased Salem Wire.)
Salem, Or., Feb. 13.—The Crater lake road bill, carrying an appropriation of \$100,000 divided into four equal annual payments, passed the house yesterday by a vote of 42 yeas in its favor, 17 against and one absent.

Purdin, author of the bill, said it was a most important measure. The federal government would build a road through the forest reserves at the probable cost of \$250,000. He did not consider it a local measure. It interested the whole state. Had Crater lake been in California it would have been one of the well known wonders of the world long ago. It would be a great achievement for the state.

McArthur and Brooks also championed the measure, contending that the appropriation was not a foolish one. They were in favor of any movement that would bring the wonders of the state before the people of the world.

Jones charged unfairness. Jones of Lincoln was not in favor of the bill. There were many counties in the state where for six months the roads were in such condition that the people could not get to their fields or to the markets. He was in favor of building the Crater lake road, but charity began at home. There were other sections of the state that deserved consideration.

He had introduced a bill asking for the railroad and Brooks observed that men who had discovered Crater lake and the bill was buried. He was in the legislature to defend the people and their interests and he wanted fair play. Dimick was also opposed to the bill. He believed charity should begin at home. The bill had been introduced in the house under the impression that E. J. Harriman was going to put up \$50,000 to build the railroad. He had been so good to the state.

The road benefited Harriman and the hotel men. The lecturer gave some interesting facts and statistics relative to the increase of the dependent and delinquent classes and the cause of the rapid increase in crime.

"Forty-one per cent of the habitual criminals of America," declared the speaker, "are born from drunken parents."

In concluding the lecture an earnest appeal was made that as the state had to take care of the criminal and delinquent classes it ought to have a right to prevent the multiplication of the criminal and delinquent classes. The future generations if the laws of heredity and prenatal care were understood and applied, would be under a great deal of improvement. He would have such laws taught in all the high schools and universities.

There will be a hearing on the bill Sunday at 3:30 p. m. in the White Temple. Mr. Riddell will speak to men and women on the subject of hereditary crime. The "New Man" at the same hour in the Taylor Street Methodist church. Miss Francis, his business manager, will tell of her personal experiences with Evan Roberts in the Wales revival. The regular lecture course for everyone will be resumed Monday night, subject, "Christian Mysteries Unveiled."

McKinney said the adverse arguments had made him ready to vote for the bill. If the road would help the Southern people, he would also help the people of the state. He was in favor of advertisement.

SEA CASTS UP WRECK VICTIMS

Steamship Penguin Sinks Off New Zealand—96 Lives Lost.

(United Press Leased Wire.)
Wellington, N. Z., Feb. 13.—Coast guards today patrolled the coast in the hope of picking up more bodies from the wrecked steamship Penguin, which foundered last night off Cape Terangwhitu. There is no hope that any of the 96 passengers and crew escaped drowning.

Thirty bodies were cast up during the night. One raft improvised by the crew was washed ashore. On it were a number of corpses.

British Steamer Founders.
Brest, France, Feb. 13.—The British steamer Forest Castle foundered off the harbor today. Nine of the crew were drowned.

Aberdeen Man Plays Good Samaritan
(Special Dispatch to The Journal.)
Aberdeen, Wash., Feb. 13.—I. Falkoff, the Russian peddler, who was arrested on the charge of stealing a silk petticoat from the store of George J. Wolff, has been released from custody on the condition that he will pay the costs of the action. Falkoff was very penitent and said the reason for the theft was that he wished to send more money to his wife and children in Moscow, Russia. He keenly felt the shame and disgrace of his position and was willing to do anything to eat or sleep during the time of his imprisonment, neither did he understand the reasons of the court. He promised never to repeat his offense.

Mr. Wolff gave the man money to go home.

Bad Breath and Sour Stomach
Stopped at Once With Pure Willow Charcoal, the Greatest Gas Absorber Known.

There is no necessity to suffer the humiliation, chagrin and discomfort of bad breath, biliousness, sour stomach, gastritis, sluggish liver, etc. when a few lozenges of charcoal will absorb the gases and stop foul odors of all kinds.

Charcoal will absorb 100 times its own weight in gas. A box full of charcoal placed in a bedroom will keep the air of such a room pure and sweet.

A little charcoal lozenge dissolved on the tongue after meals will also keep the stomach fresh and clean. Charcoal is justly called the scrubbing brush for the stomach. The old monks of medieval times cured bad cases of stomach trouble, cast out devils from the system of man by feeding such a man charcoal.

Scientific men of today believe in the great strength of charcoal for the cure of human life. Two much of it cannot harm one. The system craves it just like an animal needs and craves salt every so often. Charcoal goes into the stomach gently and is welcome. It settles down through the action of the stomach, and filters through all the food, absorbing gas, aiding digestion and giving tone to the juices, so that when the food goes into the intestines, and there meets other digestive fluids, the charcoal holds the impurities and thus keeps them from the blood.

The Policyholders' Company

AT THE THEATRES

"Burgomaster" Last Time.
The gorgeous musical comedy, "The Burgomaster," will be seen at the Baker for the last time tonight. Ruth and Harry Hermon, who have made merry in it all week. The music, songs and choruses are superb.

"The Jaf" Tonight.
The closing performance of Howard Russell's play, "The Jaf," which has attracted a universal attention at the Burgomaster all week, will be given tonight. Every act in this play is a gem, from both an acting and a scenic standpoint.

Last Chance Tonight.
Tonight is your last chance to see the Lyric Stock company in "A Broken Heart." It is one of the best plays yet offered by this popular company.

Frank Nelson & Co. at Orpheum.
It isn't a matter of a little 20 cents, but of \$10 that Frank Nelson and company are making subscribers to the Orpheum this week. "Thirty Dollars" is one of the cleverest little sketches that has appeared in vaudeville for some time.

Lions Are Wonders.
It seems almost beyond belief that lions can be trained to perform the way they do at the Grand. This wonderful lion act will be shown until tomorrow night. Any one who has missed this act cannot afford to overlook the opportunity today or tomorrow.

Capacity Houses at Pantages.
The Piccolo Midgets and the great Italian earthquake and the magnificent large and enthusiastic audiences at Pantages theatre at each performance. Every act on the program is away above the average and there is not a dull moment in the show.

Tonight and Tomorrow.
There will not be much more time in which to see the bargain vaudeville at the Star theatre. The present program is headed by the Fowlers, the inter-

Trained Nurse Says Best Tonic

Mrs. Annie Whitman, of Anniston, Alabama, Who as a Trained Nurse Has a Very Large Practice, Says That Duffy's Pure Malt Whiskey Is the Best Tonic She Has Ever Used and Strongly Recommends It to Her Patients.

On July 4th, 1908, Mrs. Whitman wrote: "I certainly think Duffy's Pure Malt Whiskey is the best tonic for my patients—in fact, the best Malt Whiskey with which I ever had experience, and whenever I can make use of it among my patients I will do so. I am a nurse and have a large practice here in Anniston."

Leading doctors agree that Duffy's Pure Malt Whiskey has no equal as a destroyer of poisonous germs in the body. It is indorsed by clergymen of every faith, nurses and doctors of all schools, as a positive cure for dyspepsia, indigestion, nervous prostration, all diseases of the throat and lungs; every form of stomach trouble; malaria, chills, fever, and all run-down, weakened, diseased conditions of the body, brain and muscle. It is a heart tonic, blood purifier and promoter of health and long life.

Every testimonial is guaranteed genuine and is published in good faith and with full consent.

If you wish to keep young, strong and vigorous and have on your cheeks the glow of perfect health, Duffy's Pure Malt Whiskey regularly, according to directions. It tones and strengthens the heart and purifies the entire system. It is recognized as a family medicine everywhere.

CAUTION.—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey, be sure you get the genuine. It's the only absolutely pure medicinal malt whiskey and is sold in sealed bottles only, never in a Price \$1.00. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal never breaks. Write Consulting Physician, Duffy Malt Whiskey Co., Postoffice, N. Y. for a free illustrated booklet and free advice.
