FROHMAN'S WIFE IN OFF-STAGE SCANDAL RUSH BIL

Margaret Illington Suddenly Appears in San Francisco and Becomes Charge of One Edward Bowes, Broker.

(Hearst News by Longest Leised Wire.) San Francisco, Feb. 13.—Margaret Illington, the actress, known off the stage as the wife of Daniel Frohman. York's foremost theatrical man to start divorce proceedings ager, is to start divorce proceedings against her husband. She has come to this city for that purpose. According to rumor, she is to wed Edward J. Bowes, the well known clubman and real estate operator of this city. This rumor does not meet denial from the lips of Mr. Bowes, who while admitting the contemplated divorce action of Miss Hilngton, refuses to say one way or the other whether his marriage to the actress will follow the issuance of her divorce proceedings.

Gaes to Sanitorium.

Goes to Sanitorium.

Miss Illington is at present in a local sanitorium suffering from a nervous breakdown. She has been here for more than a week. Her presence has been kept a profound secret. Not even her kept a profound secret. Not even her most intimate friends know of her arrival here. Rumors of the domestic infelicities of Daniel Frohman and his actress wife have been rife for some time. These rumors in the past have met with denial, both from Miss Illington and her husband. Gossip crystalized into a statement of fact tonight when Edward J. Bowes confirmed the whisperings by telling of the contemplated legal proceedings to be taken by Miss ceedings to be taken by Miss

Hington.

During the recent visit of the actress to this city Mr. Bowes was frequestly in her company, both while she was a guest at the St. Francis hotel and when she was at the Fruitvale home of John H. Spring, the banker.

Repeated rumors of an estrangement between Daniel Frohman and Miss Illington, rumors that connected the name of the well known real estate operator with that of the actress, caused Mr. Bowes last night to issue a statement

flied in New York.

"I want it to be understood that there are to be no criminations or recriminations in the proceedings; not the least hint of scandal can attach to the affair in any way. There is a perfect under-standing between Miss Illington and her husband and when the divorce complaint is filed there will be no food for the

gossips.

"Miss Illington is a woman of ideals entirely different from those of her husband. She is fond of a home and domestic life. Mr. Frohman is a man of affairs whose time is occupied in his theatrical ventures. The couple have found out that they are unsuited to each other, and a separation has been decided upon. Mrs. Frohman is taking the step that any good woman has the right to take. She has quit the stage forever, her career is no longer before the footlights."

The row occurred in the Turner saloon and grew out of a dispute over a bar bill between Turner who was drunk at the time, and Jack Patterson.

Patterson, R. E. Martell, S. S. Martell, Charles Hall and Dusenbury were arrested as witnesses. Although all admitted having taken part in the fight, they asserted that they did so only for the purpose of getting the gun away from Turner, and were later released on their promise to appear against Turner.

Four Ps" Incorporate.

Seattle, Wash., Feb. 13.—From statements made by subcontractors on the Grays Harbor extension of the Oregon & Washington railroad, it is apparent that the award of the \$1,000.000 contracts by the Harriman system is but the first step in an extensive plan of railroad construction from Grays Harbor north to an outlet on the Straits of Fuca, involving the expenditure of upward of \$5,000,000, and penetrating a splendid body of standing timber.

Salem, Or., Feb. 13.—The Krebs hop ranch capital screek, hear Brooks, this county, is to be converted into a chicken and pigeon ranch. Articles of incorporation, under the name of the Pacific Poultry & Pigeon plant, to be known as the "Four Ps." were filed with the county clerk and secretary of state to day. Only Five Days of Session Remain and Desks Piled High With Business-Many Good Measures Likely to Fail.

Forty new laws are on the books and the legislature is on the home stretch. Five days are yet remaining, in which the legislature can work and draw pay the legislature can work and draw pay for doing so and both houses have their desks jammed and crammed with business which must be hastly considered and railroaded through to passage, or dumped into the waste basket. In the senate there are now 96 house bills awaiting action while the house has hardly begun to get down to the bottom of its own pile sof bills. In the house are 62 senate bills ready for discussion, while the committees are loaded down with senate measures that have just come in for the consideration of the lower branch.

Temorrow no house bill can go to

of the lower branch.

Temorrow no house bill can go to the senate for consideration and no senate bill can cross the hall to the house except by unanimous consent. This in itself is sure to kill off many measures which, had they been acted upon earlier in the session, would have stood good chances of enactment.

Pew Laws of Interest.

Up to the present time the legislature has enacted few laws of interest to the whole state. The Bean bill providing for the incorporation of ports is now filled with the secretary of state. The emergency tax law is already in effect. The Jaeger bill providing for a circuit judge in Multhomah county, and the Hart bill providing for two new supreme court justices are also in effect. The Nottingham bill providing that yoters may register when away from the state is in the secretary's office. That about ends the list of important bills that have become laws.

During the coming week the legislature will spend its most important moments on the consideration of appropriation bills. This will be the big occupation for the closing days of the session.

Aside from these bills comes in the appropriations for the state institutions, the colleges, the general appropriation bill, the deficiency bill, the Celilo appropriation of \$75,000, the Crater lake road bill with \$100,000, the scalp bounty bill with \$40,000 and a number of other smaller grants. Although the senate committee on ways and means joined in the recommendation of these various appropriations, it is safe to say that the senate will make a big effort to pare the amount down.

Weeds Steady Grinding.

It will take steady grinding night and day on the part of both houses to get from under the avalanche of business waiting to be disposed of during the last week. Night sessions will be the order of the week and it is hoped by this means to force through all of the important measures. The house has limited its debate to five minutes for each member, and the members have reached that stage of vocal exhaustion from nearly 40 days of incessant talking when they are ready to allow their measures to go to a final vote without prolonged debate.

An effort will be made to adjourn on Friday night, but even if it is possible to clear away the desks by that time the two houses will be compelled to re-main in session officially in order that the enrolling committees may transcribe the bills as passed and send them in for the signatures of the speaker and presi-dent. It will be near to Saturday night therefore before the twenty-fifth bien-nial session will be declared at an end.

ASKS FOR PARDON OF COLE YOUNGER

Minneapolis, Feb. 13.—Absolute pardon for Cole Younger, one of the famous Missouri bandits, is requested in a letter to Governor Johnson from James A. Reed, former mayor of Kansas City, Mo. He says Younger is now promoting a suburban railroad scheme and is handicapped by the fact that his Minnesota parole, granted several years ago, carried conditions. Reed recites that the bank robbery at Northfield, Minn., for which crime two of the Younger boys were sent to the penitentiary, grew out of conditions creaced by the civil war. He says Younger has been a good citizen and claims he has observed the conditions of his pardon. The Younger boys were formerly identified with Jesse and Frank James. Cole Younger and his brother Jim, now dead, were released from the state penitentiary on parole in 1901, but the parole forced them to live in Minnesota.

After Jim committed suicide the state board of pardons allowed Cole to go on condition that he never engage in any public paragraphs. (United Press Leased Wire.) After Jim committed suicide the state board of pardons allowed Cole to go on condition that he never engage in any public performance to exploit his past misdeeds. Though he is held to have broken that promise, the pardon is not revoked and there is no way Minnesota can force him to return.

EUGENE ROBBERS ARE CAUGHT AT STARBUCK

(Special Dispatch to The Journal.)
Eugene, Feh. 13.—Two men who broke into Savage & Lawrence's music store in Eugene ten days ago and stole over \$400 worth of musical instruments, including guitars, violins, mandolins, talking machines and cornets, were captured at Starbuck, Wash., today. Officers in Eugene located the stolen plunder in the express office at Portiand several days ago.

It was then shipped to Spokane and the express agent there received a message to ship it to Starbuck. Officers from Spokane went there, waited till the goods were called for and placed the men under arrest. They gave their names as Joseph Brown and F. G. Lawrence. An officer started from Eugene tonight for Olympia to secure requisition papers and will then
