COURT GIVES JACOB KAMM A NEW TRIAL

A new trial in the case of the heirs of Thomas Rees of Pittsburg against Jacob Kamm of Portland was granted this morning by Judge Wolverton of the federal court at the instance of the defendants. At a former hearing judgment was rendered in favor of the plaintiffs for the full amount of their claim, \$16,117.42. March 4 was set for the time of rehearing.

For the Snake River Transportation company Jacob Kamm bought steam engine machinery to the amount of \$131,73. The machinery was bought in his name, so when the transportation company became defunct and its one boat was wrecked, the heirs of Thomas Rees from whom the equipment had been bought, entered suit against Kamm and obtained judgment in full.

The case is an instance of the accumulative power of money. The original amount was little more than \$700, drawing part of the time interest at 6 per cent and the remainder at 8 per cent, more than doubled since 1892, when the suit was filed.

CITY TO HAVE LABOR TEMPLE

Law Passed by Last Legislature Permits Unions to Cooperate.

Patterned after the California statute, Oregon now has a law validating cooperative societies which was drawn by H. J. Parkinson, editor of the Labor Press, and under which the various labor unions in Portland have cooperated for the purpose of building a labor temple in this city. A committee representing the union is looking into the question of a site for the proposed temple. While it is known that several different sites are being considered by the committee it is not believed that the location has been selected.

Nothing definite has been done with reference to the size and character of the building to be erected by the labor unions, nor will any action be taken, say the labor leaders, along this line until the site is bought and paid for. The various labor unions in the city will finance the project by selling memberships in the building society to members of all labor organizations.

The bill passed by the legislature is said to be broad enough in its scope to permit the establishment of cooperative stores by the labor unions similar to those in operation throughout central and southern California. However, it is said not to be the intention of the Portland labor bodies to embark in the mercantile business at this time.

Whiskey for Colds. The increased use of whiskey for coughs and colds is causing considerable discussion among the medical fraternity. It is an almost infallible cure when mixed with certain other ingredients and taken properly. The following is the formula:

To one-half pint good whiskey, add one ounce syrup sarsaparilla and one ounce Toris compound, and you are secured of any drugist. Take in teaspoonful doses before each meal and after retiring. Immediate results in this treatment are apparent, although it would be a mistake to discontinue its use until the health is fully recovered.
