

TURN ENGINES ON NEW CRAFT

Steamer H. B. Kennedy Soon Ready for Preliminary Trial.

LOCAL YARDS TURN OUT SPEEDY CRAFT

Steamer Kayak on Ways at Supple's Yard on the East Side Will Soon Be Ready for Initial Spin—Both Vessels Go to Puget Sound.

For the first time the engines on the new steamer H. B. Kennedy were turned this morning. They worked fully up to the expectations, and in about two weeks the craft will be ready for the preliminary trial trip.

AIDS TO NAVIGATION.

Lighthouse Department Replaces Many Missing Buoys and Lights. Captain Charles F. Pond, lighthouse inspector of the Thirteenth district, has issued a circular notice to mariners announcing that the La Du light, Columbia river, was temporarily replaced on the single pile dolphin from which it was formerly shown, February 14.

placed on the jetty in the position from which it was formerly shown. Marine light buoys 2 and 4 and Reader crossing buoys 4 and 6 have been replaced and the Coon Island light has been removed to the edge of the bank on Coon Island, and will hereafter be shown 19 feet above the water, from an arm on a white stake at a point about 255 feet 271 degrees true WNW magnetic from its former position.

On Puget sound the following buoys have been replaced: Duvanish Head bell buoy, Snakeland Point buoy. The outer buoy at entrance to Gray Harbor has also been replaced.

WAS ON BEAM ENDS

Officers File Report of Steam Schooner's Exciting Voyage. Details concerning the exciting voyage of the steam schooner Daisy Mitchell from this port to San Francisco, when she nearly turned turtle, have been received here and give confirmation of the telegraph reports sent out when the craft reached San Francisco two days ago.

The Daisy Mitchell left Columbia river February 15, at 2 p. m., and at 2 p. m. ran into a heavy southeast gale and large sea, with long southwesterly motion. The ship rolled heavily, later the wind chopped around to the southwest, blowing a gale. Headed ship to south-west under slow bell as could not steer a course on account of heavy beam sea and fear of losing deckload.

BARK SURCOUF WRECKED.

Portland Bound Vessel Goes Ashore on English Coast. Balfour, Guthrie & Co. received a cablegram yesterday announcing that the French bark Surcouf had gone ashore on the English coast when on the way to Newcastle-on-Tyne to load general cargo for Portland.

months ago and would have been ready to start out for the Columbia in a few weeks had not disaster overtaken her. But as freights are cheap, it will be easy to secure a vessel to fill the vacancy.

WOULD FIGHT RAILROAD.

Coos Bay People Come to Assistance of Steamer Alliance.

Attempts on the part of the Southern Pacific company to freeze out the steamer Alliance from carrying freight to points on Coquille river by charging what is alleged to be excessive wharfage at the railroad company's dock at Marshfield, is causing shippers of Coos Bay to raise the assistance of the Alliance.

But the Southern Pacific company, it is asserted, wants to drive the Alliance off the run, if possible, and so far starter has placed a heavy toll on freight to be carried from Coos Bay to Coquille river points over the Coos Bay breakwater.

ALONG THE WATERFRONT

The steam schooner Nome City cleared today for San Francisco with 160,000 feet of lumber and 800 tons of wheat.

The Harriman liner Rose City, Captain George, sails for San Francisco this afternoon for San Francisco. The North Pacific Steamship company's liner Rossmore, Captain Gunn, sails for San Pedro and way ports tomorrow night.

Johnny Knows What's White.

Teacher—"Now, children, do any of you know anything as white as this beautiful snow we have this morning?" Little Johnny—"I do, Teacher. It's our white clothes when mama washes them with Fels-Naptha. They're just as white as white can be." Anty Drudge—"I guess Johnny is right, Miss Teacher. Washing with Fels-Naptha in lukewarm water will make white clothes as white as snow and it saves his mother loads of work."

Fels-Naptha acts on dirt like sunshine on a bank of snow—only quicker.

Fels-Naptha actually dissolves the dirt while soaking in lukewarm water.

Boiling only softens dirt and leaves it for you to hard-rub out on the washboard.

That's one reason why Fels-Naptha is so much superior to the wash-boiler way of washing.

Another reason is that you have no steam in washing with Fels-Naptha. No steam to fill your kitchen like a Turkish bath and give you a bad cold if you step outside for a minute. No steam to redden your face and chap your hands.

Still another reason is that the Fels-Naptha saves your clothes. Boiling weakens woollens, cottons or linens and hard-rubbing wears them into holes.

None of this when washing with Fels-Naptha. Clothes last twice as long.

Use Fels-Naptha for flannels, woollens and colored goods as well as white clothes.

Be sure to get the genuine Fels-Naptha, use only lukewarm water, and follow directions on the red and green wrapper.

COURT DISMISSES COBLE'S CHARGES Although Deputy District Attorney Hennessy painted in glowing colors the spell which Miss Jessie Cameron Fisher is alleged to have cast over David H. Coble, Jr., and declared most emphatically that the young woman robbed him and then tried to chloroform him in the Hotel Phillip at Fourth and Burnside streets, all the evidence directly contradicted this story, and Judge Van Zante lost no time in dismissing the charge of larceny against the woman. Coble, who says he is a newspaper man, but had difficulty in remembering the name of the last town in which he conducted a daily paper, told a sensational story of losing all consciousness after drinking a glass of wine with Miss Fisher. The evidence of Officer Riley and two newspaper men who went to Coble's room when his condition was discovered, contradicted Coble's statement, as the young man spoke coherently at that time, admitting that he had attempted suicide, and said nothing about being robbed.
