# TWO ELECTRICS TO PENDLETON?

## O. R. & N. Said to Be Considering Traction Line Out of Walla Walla.

(Special Dispatch to The Journal.)

Walla Walla, Wash., March 20.—Rumors of electric lines still waft on the breezes of the Garden City. The latest story is that the O. R. & N. will electrify 40 miles of road between here and Pendleton, getting power from the many mountain streams near here. The cost of the change would be almost met by bonuses granted along the line of the company.

The matter was tipped off through the purchase of 140 acres of land just south of Walla Walla. This land was bought up at $500 an acre and completes a block of about 600 acres that has been quietly bought by local capitalists, who are to promote a fruit acreage business in that section. John Langdon is the purchaser of the last tract and is heavily interested.

A proposition was made the Walla Walla Valley Traction company to build its line in that direction, but that company already had all the construction work it could handle. Without an electric line the promoters felt they had no show to get their land on the market at an increase and they have been making investigations elsewhere.

It was in that way the negotiations with the O. R. & N. Co. became known. The story is not confirmed by local railroad officials, who state they know nothing of the proposition.

However, if the O. R. & N. did take this step, it would save the field between this city and Pendleton, which now stands an excellent chance of being captured by the Washington-Oregon company, whose line, if built, would tap the same territory. It would also give a chance for the later electrification of the road to Wallula, which in time must either be done, or the O. R. & N. will lose that territory.

## CROP CONDITION REMAINS GOOD

(Continued from Page Ten).

cent prediction of James J. Hill that we are not increasing our production of wheat as fast the the population is growing and that prices must continue to advance. It is from near this section that there was a reported advance sale of wheat at a dollar a bushel, which is a record price for the northwest.

### FRUIT CROP DAMAGED

**Expert Says That 15 to 60 Per Cent Loss Will Be Noted Along Snake.**

Spokane, Wash., March 20.—It has been discovered in the vicinity of Pullman, Wash., both peach and apricot crops on the Snake river have been damaged to the extent of 15 to 60 per cent by the hard freeze in January and the recent frosts that have struck that country. W. L. LaFollette, the fruit king of that section, who has about 250 acres in bearing orchards and generally ships all the way from 50 to 100 carloads of fruit per season, declares that he will have no more than 40 per cent of the normal yield in apricots, and less than 85 per cent of customary peach crop this year.

The damage to fruit crops, especially peach and apricots, has been greatest above and below Kelley's Bar, on the Snake river. At Wawawai the injury seems to be the least, and in the vicinity of Clarkston it is feared by some of the fruit growers that their peach and apricot orchards will not yield more than 40 and 20 per cent, respectively, of the normal crop.

The outlook for crops in the hardier fruits, such as cherries, apples, plums and prunes, is considered very good, according to Mr. LaFollette, who is conceded to be an authority. The fruit king has just made a tour of the southern and middle western states and declares that the outlook at the present time is favorable for high prices for the fruit growers' product this year. Mr. LaFollette's orchards a few seasons ago yielded 23,000 boxes of peaches, which was more than was produced in all the country north of California that season.

### Add to Cherry Acreage.

Cleone, Or., March 20.—The owner of the Webb farm has just planted 10 more acres of Lambert cherries on her place. Miss Webb says that she finds cherry raising a very profitable business and that the Lambert cherry possesses qualities superior to those of any other variety, the main points of superiority being the large size, the late maturity and the hardiness, making them a good variety to ship to eastern points.

Last season 40 tons of cherries were harvested from the Webb orchard of 10 acres. The bulk of this crop was hauled to Portland.

### Klamath Crop News.

(Special Dispatch to The Journal.)

Klamath Falls, Or., March 20.—Spring farm work is going on actively in Klamath county. The fine weather of the past two weeks has made the roads almost dusty, and put the ground in fine condition for plowing.

Much new land is now being gotten ready for cultivation. A great deal of the stock thrown out of work on account of the completion of the railroad to water is being used on large contracts for clearing and plowing.

Farmers all over the basin are greatly encouraged over the prospects of a fine crop season.

## STATEMENT OF NEW YORK BANKS

New York, March 20.—The statement of the associated banks for the week ending today shows the following changes:

Reserve on all deposits, increase $453,525.

Reserve on all deposits other than United States deposits, increase $1461.

Loans, decrease $3,718,300.
Specie, increase $189,800.
Legal tenders, increase $342,800.
Deposits, decrease $3,681,700.
Circulation, increase $22,200.
Total loans, $1,301,625,400.

The surplus of the banks is $15,515,875 against $49,481,250 last year and $8,837,475 two years ago.

# SPLENDID TALENT IS SECURED FOR ANNUAL MUSICAL FESTIVAL

On the evenings of April 30, May 1 and 2, and the afternoons of May 1 and 2, the second annual musical festival will be given at the Armory in this city. The first festival of this kind ever given in Portland took place last April at the same place and by the same two organizations that will be heard this year, the Chicago Symphony orchestra and the Portland Festival chorus. The orchestra of 60 musicians under the direction of Adolph Rosenbecker, who made such a decided impression with the music lovers last year, will again be the conductor, and our own W. H. Boyer will likewise again wield the baton for the festival chorus of 300 voices.

Coming from the east with the orchestra will be the well known soprano, Aida Hemmi, who has appeared in Portland on numerous occasions with operatic organization and is pronounced by the music loving people of this community one of the greatest singers it has ever been their pleasure to hear. This clever artist has been in several grand opera organizations since her last appearance in this city, among them the Sheehan Grand Opera company.

Frank Arthur Preisch, the basso, has recently returned from Europe, where he sang for three years at Covent Garden, London, England. Julia Henreich, daughter of the celebrated musical artist and composer, Max Henreich, will be the contralto. The tenor will be announced later, as the management are negotiating with a big favorite and have not as yet closed their contract. Together with the above splendid array of artists will be the world renowned pianiste, Myrtle Elvyn, of whom the west has read and heard a great deal but has never seen.

Included in the list of 10 instrumental soloists are Guy Woodard, solo violinist and concertmaster, and Frans Wagner, the scholarly cellist, who made every one who heard him play last season a friend for life. The chorus will be heard at every concert. The complete programs will be announced later.

Permits for season tickets are now being sold at Ellers piano house and by the different members of the festival chorus. These permits entitle the purchaser to obtain a season ticket by paying an additional $1 or $1, according to the location desired, beginning Monday, March 22, at Ellers. The cost of the permit is $1, which gives the owner an opportunity of hearing the five concerts for $3 or $2, according to the location desired. By this means the festival will be made an assured financial success and the purchaser receives tickets for the five concerts which if bought separately would amount to $7.50, if for the best seats, for $3; or if the next best seats were taken, five concerts would have amounted to $5 and with the permit, the cost will be $2 all told. Tickets for the individual concerts will cost $1.50 and $1 with a few at 75 cents.

Anyone can readily see the advantage of securing a permit. They not only make by it from their own standpoint, but help make a success of an undertaking that commends itself to the good of music in the northwest. After the sale of permits closes on April 5, no more season tickets will be sold except at regular individual concert prices.

# RESOLUTION TO ELIMINATE PROPORTIONAL REPRESENTATION

(Special Dispatch to The Journal.)

Astoria, Or., March 20.—A resolution has been introduced in the Astoria chamber of commerce providing that the secretary prepare an initiative petition for presentation to the voters of the state, to the end that the constitution may be changed so that each county in the state shall have one senator and two representatives. In other words, the proposed amendment to the state constitution would do away with the present proportional system of representation in the state legislature, and, if made a law, would give Multnomah county no greater representation than the least densely populated county in the state.

When introduced, the resolution did not meet with entire favor, and instead of adopting it, the secretary was instructed to communicate with the various commercial bodies throughout the state for the purpose of securing their views. Numerous responses have come, already, and as a rule they are favorable.

### PRODUCE IN SAN FRANCISCO

(United Press Leased Wire.)

## ARGUMENT SETTLED BY OFFICE CYNIC

To the Editor of The Journal.—Will you kindly publish in your paper what is the least amount of wages a man and wife can live upon, enabling them to dress fairly well, having plenty to eat and no rent to pay? I should like to know your opinion on this as I am having an argument with a friend who is thinking of getting married.

ARGUMENT.

If you are a common mortal of clay, $25 a month should be plenty for you and the average helpmate to live upon, providing the gods and the groceryman are willing and the fashions agreeable. If merriwiddur hats remain in vogue and the sheath gown stays with us the best possible figure is $150 a month.

Any one person should be able to live high on 20 cents a day, if such luxuries as milk, butter, bread, sugar, salt and pepper, meat and manufactured deserts are not demanded. One 10 cent package of breakfast food, served with water and a toothpick, should last two persons one day. Or, if you consider breakfast food already prepared as too expensive, you can make your own with a piece of kindling and a jackknife. During the winter months ice cream may be cheaply prepared by tossing a bit of sugar on soft snow and serving cold.

Prisoners of the county and at the rockpile consume 9 cents' worth of fodder each at each meal. Sheriff Stevens believes that if all were couples, and deeply in love—as your friend must be, Mr. Argument (that is, if you are not the girl herself)—he could feed them on 5 cents.

A. GROUCH.

## NEW YORK'S STATE COLONY SITE CHOSEN

Albany, N. Y., March 20.—A site for the Eastern New York Custodian asylum, a new state colony for defectives, has been selected at Thiells, Rockland county.

The commission recommends that the name Letchworth Village be given the colony in recognition of the many and distinguished services of William Pryor Letchworth of Portage to the state, and of his efforts in behalf of its defective wards.

"The opening of this new institution," says the commission, "will afford much-needed relief to the existing state institutions for the feeble minded and epileptic, and in addition will make provision for a large number of cases needing custodial care."

### SEATTLE PRODUCE MARKET

Seattle, March 20.—Butter—per pound—Washington creamery firsts, 35c; ranch, 23c; fresh eastern, 34c; eastern storage, 30@32c; renovated, 25@27c.

Eggs—per dozen—Local ranch, 25c; California, 24@25c; fresh eastern, 22c; Oregon, 24c.

Cheese—Wisconsin twins, 18c; cream brick, new, 18c; wheel Swiss, 18c; block Swiss, 17c; limburger, 18c; California, 17c.

Potatoes—Local, $26@30; Yakima, $30@35; early rose seed, $25; California new, 8@10c per pound; sweets, $2.75@3 per crate.

Onions—Yakima, 2¼@2½c; Oregon, 2⅝@2½c; Fannos, 2½c; green, 30@35c per dozen.

### San Francisco Grain Market.

San Francisco, March 20.—Merchants' exchange quotations:

Cash wheat—Walla Walla White, $1.90; red Russian, $1.87½; Turkey red, $1.91½; bluestem, $1.90@1.97½.

Future wheat—May, $2.02 ask; December, $1.69.

Cash barley—Feed, $1.48¾; brewing, $1.51¼.

Future barley—May, $1.47½ bid; December, $1.27½ bid, $1.28¾ asked.

Cash oats—White, $1.88¾.

Millstuffs—Bran, $29.50; middlings, $33; shorts, $31.

# CHETCO HAS A HAUNTED HOTEL; GHOST COMPANIONABLE CUSS

Chetco, near the California line, is distinguished above other towns in the state, in that it has a real ghost, according to the story told by D. W. Anderp, at the Imperial last night. Weird, long drawn out cries have sent double action shivers chasing themselves up and down the vertebrae of the inhabitants. But a small hotel which in other years did a splendid business for the size of the town, is the center of the ghost's activities, and business at that hotel has gone glimmering.

A San Francisco drummer was the last to sleep in the haunted hostelry. Clad only in pajamas and a frightened stare, he bolted out the front door at 3 o'clock in the morning. He was frightened almost into a delirium and the next day he left town, refusing even to return to the hotel for his grips and sample cases. This is the story the drummer told to Mr. Anderp.

"I don't know when I have liked the treatment I received from a small house, better than in Chetco. The meals were good, the house was cosy and the landlord as genial a man as I ever met. I thought when shown to my room that it was extremely attractive and I expected a pleasant night's rest. Although I thought nothing of it at the time, I remember now that my host had a somewhat nervous expression on his face when he insisted on being allowed to show me where I was to sleep. After I had retired he came and knocked on my door to ask if there was anything more that I desired. I assured him that I appreciated his courtesy, but that I would need nothing more as I was already in bed.

After a few moments I went soundly to sleep. It seems to me now that I must have been asleep for about an hour and a half when I woke suddenly with the sensation that something a little colder than ice had been laid on my forehead. I shivered a little bit, then as I heard no further sound, laughed at my fears and went back to sleep. I had been sleeping perhaps half an hour longer, when I again awoke, this time with a start so violent that I nearly jumped out of bed. I could have sworn that a cold hand had been laid on my forehead.

"Lying there in the darkness I heard the sound as of steps on the stairs. This time I felt rather relieved, thinking it was the landlord coming again. Imagine my horror when the door, which I will swear I locked before retiring, swung silently open and a white figure, clad, it seemed, in grave clothes, came into the room and prepared to get into the bed beside me.

"For a moment, I'll confess, I was so scared I couldn't move. Then I jumped out of bed and not even thinking of the formality of dressing, dashed from the room and down the stairs."

After similar experiences had been related by others who slept in the room, it was closed up and has not been used since. But the story told by the traveling man has in the meantime been circulated to such an extent that the little hotel has all but lost what business it had. No one has yet given an explanation of the apparition. Some are of the opinion that the landlord himself or someone of his family may be a somnambulist, but no one of them has yet had nerve enough to try sleeping in the room.

## OLD MAN WEDS SIX WEEKS' WIDOW

Freeland, Pa., March 20.—William Klose, 61 years old, and Mrs. Frank Vanhorn, 24, were married by Rev. J. J. Kunta, pastor of St. Luke's Lutheran church, here today.

His bride was left a widow six weeks ago. Her husband died after a brief illness. While services were being conducted at the cemetery she was with difficulty restrained from jumping into his grave.

When Klose tried to console the young widow little did the mourners dream that in less than two months she would discard her mourning robes to become his bride.

**STRONG MEN ARE Successful Men**

DR. TAYLOR, The Leading Specialist

The man who is weak and worn out in vitality, whose strength is being constantly sapped by secret drains, who rests badly at night and goes about feeling half dead during the day, is not the man who is a success in any field. His usefulness is constantly handicapped by the black specter of unfitness which hovers over him. He has neither the healthy mental faculty nor the powers of physical endurance to compete with the man who is not paying the penalty of early dissipation or whose vital forces were not undermined by disease. In my long years of practice I have heard many pitiful tales from men suffering from LOST VIGOR, SPERMATORRHOEA, VARICOCELE, HYDROCELE, CHRONIC DISCHARGES, CONTRACTED DISORDERS AND CONTAGIOUS BLOOD POISON, and it is hard for a man in normal health to realize the blight that has been cast upon the lives of these sufferers. And right here I want to say that these afflictions are brought on slowly and insidiously. Often the beginning is a very simple ailment which is neglected or improperly treated.

**In Seeking Health, Don't Experiment**

In the first place don't expect a regular doctor of all diseases to do Specialist's work. He cannot be prepared either in experience or equipment. Don't go to surgeon, nor the osteopath, nor the electric doctor. Don't experiment with patent medicines, your friend's prescriptions, nor your druggist's guesswork. IN THE VERY FIRST PLACE it is CHEAPEST, QUICKEST and BEST to consult the SPECIALIST of known standing and reputation.

**YOU CAN PAY ME WHEN CURED**

**The Reason I Cure**

Because my methods are direct and SURE. I do not have to resort to any uncertainties in the few disorders I treat, because over 20 years' experience has perfected my knowledge of EXACT METHODS which never fail. Particular attention is given to each particular case. Each individual is given medical care, according to the symptoms indicated in his SINGLE case. The result is sure, quick and thorough, and the entire system benefits when the healthy action of the affected part is restored.

**Weakness**

I have completely demonstrated the fact that derangement of the masculine functions is a curable ailment. By the closest observations in thousands of cases I have ascertained that only in rare instances is the nervous system or general constitution involved to any noticeable degree whatever, and that weakness in all its phases is merely a symptom of local disorder. In by far the greater number of cases I find the condition entirely due to a state of inflammation or congestion in the prostate gland, or at some other vital point of the organic system, brought on by early dissipation or lingering as a result of some contracted disorder. Such cases may show temporary improvement under stimulating processes of treatment, but ultimate relapse and injury are certain to follow all such methods. The only radical cure is the absolute removal of the abnormal conditions responsible for the functional disorder, and this I accomplish through carefully directed local measures.

My treatment is entirely distinctive and original. No other physicish employs like methods, nor approaches my success in curing. The results I obtain are thorough and lasting, and strength and vigor are restored in the full and normal degree.

**Contracted Diseases**

Fully one fourth of the cases of organic weakness with which I come in contact are a direct result of the improper treatment of some contracted disease. This should be sufficient warning against patent nostrums and other uncertain methods. I never dismiss a patient until I know that every possibility of relapse or evil result has been removed.

The remedies I employ are known to myself alone, and I have reason to regard them as the surest and safest ever devised for the cure of contracted diseases.

**Varicocele**

My treatment for Varicocele is a painless one, and in most instances the patient need not be detained a single day from his business. Even in advanced cases, a cure by my method is a matter of but a very few days. There is no doubt or guesswork, but absolute certainty of a thorough and lasting cure, with complete return of that degree of health and vigor that existed before the disease began.

**EXAMINATION FREE**

I offer not only FREE Consultation and Advice, but of every case that comes to me I will make a Careful Examination and Diagnosis without charge. No ailing man should neglect this opportunity to get expert opinion about his trouble.

If you cannot call, write for Diagnosis Chart. My offices are open all day from 9 a. m. to 9 p. m., and Sundays from 10 to 1.

Corner Second and Morrison Sts. PORTLAND, OREGON

**DOCTORS FOR MEN**

THE PRESENT AGE

WHEN you think of the great advances in every line in the last 20 years, do you stop to think of the recent accomplishments in medicine?

In this lecture I am going to cover a few points as rapidly and as concisely as possible and ask you to refer to the leading pathologists as reference for the minutia of the subject to be discussed.

Neurasthenia means a functional disturbance of the nervous system caused in most instances by impaired vitality. Sir Astley Cooper, the greatest physician that England ever produced, once said: "Show me an unsuccessful business man, and I will show you a person who has been guilty of early indiscretions or later excesses." Gentlemen, this is true, and every man of you knows it.

During this age of progress and competition the young boy from infancy is instilled with a desire that prompts him to push ahead, and if guilty of transgression of the laws of nature he does that with the same speed as though he were following out her requirements. That same young man, just at the time when he should be assisting nature, disregards her laws almost entirely, and reaches manhood in a debilitated condition, to say the least. He then does one of the two things: He either enters into the vocation of his choice and begins to overtax his mental force by overwork or overstudy, or he does that and as well attempts to be a worldly man and "burns the candle at both ends"; and after a day's labor he enters into a life of dissipation; and, no matter how little he dissipates, it tells on him, and nine out of ten young men are partial wrecks before starting out on such a life.

My method is one, as you know, that never fails, for by it new life is imparted to the nerve cells, strength is given to the muscles, new tissue is formed, and thereby new health and strength are given to every organ of the body, and the victim becomes a strong, hearty and vigorous man.

In treating any case, remember that the secret instructions that I have given must be followed in every detail without a single exception, for by its use I have cured thousands of cases, and the time for experimenting has passed into oblivion. This is an age of specialists.

To any man suffering from the effects of early follies or later indiscretions I would say consult a physician who has devoted his entire professional life to the study and treatment of such cases as these. If suffering with an affection of the eyes, I would consult an oculist; he can treat you more successfully than I. If suffering from toothache, consult a dentist, or ill from fever go to your family physician; but when suffering from the effects of any of the above diseases, come and have a friendly talk with me, and lay your case before me, and I will tell you frankly what I am prepared to do for you without one penny of charge.

**Read Below My Description and New System Cure FOR THE FOUR DISEASES THAT WRECK MEN**

**Varicocele**

Cured by absorption. No pain. The enlarged veins are due to mumps, bicycle or horseback riding, disease, etc. In time it weakens a man mentally as well as physically. I will cure you for life or make no charge.

**Blood Disorders**

Overcome in 90 days or no pay. Symptoms overcome in 7 to 21 days, without chemicals or poison. If suffering from ulcers, sore mouth or throat, falling hair, bone pains, come and I will drive the poison from your blood forever by my New System Treatment.

**I Do Not Patch Up I Cure Forever**

**The St. Louis Dispensary is the father of specializing in Portland**

Not a doctor in any specialist's office of Portland, above First street, who has not previously occupied some minor position with us

Moral: Come to headquarters

**Lost Vitality**

Cured in a few weeks. Improvement from the start. If you suffer from loss of energy and ambition, feel tired when you arise in the morning, lame back, dizziness, spots before the eyes, and feel you are not the man you once were, I will cure you for life.

**Stricture**

Cured by absorption in a short time; no pain, no cutting, no operation. By my method the urethral canal is healed and entire system restored to its healthy state. No failures, no pain or loss of time.

**I Diagnose by Exclusion No Mistakes Made**

MEDICINES FROM $1.50 TO $6.50 A COURSE. WITHIN ANY MAN'S REACH.
DAILY HOURS: 9 A. M. TO 8 P. M. FREE CONSULTATION. SUNDAY HOURS: 10 A. M. TO 12 M.
