

### PAPER MILLS SLASH PRICES

#### Two Big Concerns Attempt to Throttle New Oregon City Company.

The backbone of the local paper market was broken yesterday, a decrease of 3 cents a pound becoming effective in all coarse stock, such as paper bags and wrappers, and 1 1/2 cents on print paper. This makes the price of coarse stock 3 1/2 cents per pound and print paper 3 cents per pound. The cause of the break is attributed by Portland paper dealers to an effort being made by the Crown-Columbia Paper Company, and the Willamette Pulp & Paper Company to drive out the new Hawley Pulp & Paper company at Oregon City. Many local dealers are convinced that the present condition of the market will not continue and have given out the tip that now is the time to buy paper.

The Hawley Pulp & Paper company commenced work at Oregon City about two weeks ago. W. F. Hawley, paper manufacturer of 25 years experience on the Pacific coast, is in charge of the new concern. Mr. Hawley said last night: "I do not recognize the cut in the price of paper. It is not warranted by legitimate market conditions or to influence the supply of the raw product. There is a field of work here for all three of us and paper cannot be profitably manufactured at the price received for it today. Until recently the paper manufactured at Oregon City was not in the hands of the dealer being received by Portland dealers from the east. Anyone who desires may find in the railroad yards cars loaded after cars of eastern paper waiting to be unloaded here. Two years ago eastern mills were implored to help the local mills in supplying the demand."

"I have no feeling toward the people who may be seeking to drive me out of business. I was in charge of the mills they are operating before they were. I have customers and friends who will support me and I am going to stick to the business. My sales already are very satisfactory."

More than this Mr. Hawley would not say. He insisted that he had not been buying back to the operations of his competitors and that he had no present purpose of being governed by any action they might take.

The break in the price of paper caused a flurry among Portland dealers. Conference between the heads of the various firms were in progress all day yesterday. All were convinced after a study of the market that the reduced price would not be effective long.

### ONE MORE DOT ON ESPEE RAIL MAP

#### Trains Will Soon Be Running Into Klamath Falls—Week's Celebration.

(Special Dispatch to The Journal.) Klamath Falls, Or., April 5.—The people of Klamath Falls and county are all excitement the past week, due to their awakening to the fact that the railroad is close to the city and trains will be running within 20 days. The roadbed to this city has been completed, and on Sunday the Southern Pacific started driving piles and constructing a bridge across the straits on the marsh. The bridge was completed and the rails laid across the channel within 24 hours. The driving of the piles for the bridge will close the channel to navigation. It was reported that some of the boat people would serve as injunctions on the railroad company when the attempt was made to close this channel. That was the reason the work was done on Sunday. It is stated, however, that the company secured permission from the war department, through the reclamation service, to bridge the channel connecting the river and the lower lake temporarily, and that later a suspension bridge will be built.

Work is now progressing on the tracklaying across the marsh and the crew will soon reach the mainland at Midland in the Klamath basin. It is announced that everything will be ready for operation into this city by May 1. Plans are already mapped out by the chamber of commerce for a week's celebration, and fully 10,000 people are expected in the city during that week. The farmers throughout the entire county are enthusiastic.

### SPANISH WAR VETERAN ATTEMPTS SUICIDE

(United Press Special Wire.) Oakland, Cal., April 5.—Strapped to a cot in the Receiving hospital, Alexander Bernard, who yesterday twice attempted suicide, and his life is being guarded closely by the attendants. An insanity affidavit has been drawn up by Deputy District Attorney Satterwhite.

As the Southern Pacific ferryboat Berkeley drew away from the Oakland mole yesterday Bernard plunged from the apron into the bay. He was seen by the crew of the ferry Garden City and despite his frantic struggles was hauled aboard. When he fell into the engine room to dry his clothing he made a wild effort to hurl himself into the roaring flames of the furnace. He was stopped by the crew and removed to the hospital.

Bernard is a veteran of the Spanish-American war and is believed to have become insane suddenly while waiting for a ferry train at the First and Broadway station.

with Ferd Niles and Frank Young, became badly intoxicated. Runyon helplessly so. When time came to leave town Runyon was thrown into a wood-rack by his companions, who did not notice that he slid through to the ground. The team was started and the wagon ran over him. He was thrown in again and some distance out in the country again fell out and was run over a second time.

### DRAMATIST DREADED ENTOMBMENT ALIVE

Oakland, Cal., April 5.—William Emmett Coleman, author and playwright, lived in fear that he might be buried alive, as is shown in his will filed in probate court today, in which he ordered that after death his arteries be

opened. While he was on his deathbed, it was learned today, he begged his physicians to see that his request was granted. Dr. Stidham, health officer at Alameda, gave the required promise and saw that it was carried out. The estate left by Coleman consisted principally of books. These he ordered distributed among the public libraries of Oakland, Alameda and San Francisco. He dramatized "East Lynne."
