BRISTOL CASE UP BEFORE REGENTS

Inquiry into the Bristol hazing affair at the University of Oregon was begun yesterday in the office of F. V. Holman. The full investigating committee of the board of regents, consisting of F. V. Holman, Judge William Smith and J. C. Alingworth were present at the hearing. N. E. Bristol, father of the victim of the hazing, was present and was represented by M. L. Pipes as his attorney. In opening the hearing it was stated by Judge Pipes that it was the desire of Mr. Bristol to go only so far into the incident as to establish whether or not the students implicated in the hazing had done right or wrong. He desired to limit the scope of the hearing to the infraction of the rules of the university by the hazers and not let it go beyond into the previous condition of health or habits of life of young Bristol. The boy had been put in the bath tub, Judge Pipes contended, and subsequently he had lost his mind. It was the contention of Mr. Bristol that this condition was the approximate result of the hazing. Judge Smith, speaking for the committee, ruled that the purpose of the investigation was to determine the responsibility for the present condition of Ralph Bristol. If it would be admitted by Judge Pipes, Judge Smith said, that the previous habits and condition of the boy were responsible for the present condition, then the request would be granted. Judge Pipes would make no such admission, and the request was not allowed. The committee ruled that to grant the request of Judge Pipes would be to prejudge the case. After some further argument on the scope of the evidence, S. U. Downs, father of Chester Downs, one of the young students who participated in the hazing of Bristol, asked that Dr. J. E. Hall be allowed to testify regarding the character of Downs. Dr. Hall said that he had known Chester Downs for four years, and that he had a high regard for him. He considered him to be a conscientious young man, of good habits and earnest endeavor. Following this testimony the hearing was adjourned until this morning at 10 o'clock, when the committee will meet at Eugene at the university, and listen to the testimony of a long list of witnesses who have been summoned to attend the hearing there.

PARAGON HUNTER DOESN'T SHOW UP

William Doyle, the Boyd, Or., rancher, who yesterday searched the city for a girl who cared more for chickens than for the latest fashions, was not afraid to work on a ranch, after engaging a room at the New Western hotel for last night, failed to make his appearance.

Doyle started out in the morning full of bright hopes, but whether he met with disappointment or success remains his own secret. If success was his he certainly forgot to invite his friends to "smoke up" owing probably to his impatience to find out if the fair one came up to requirements.

SHUBERT'S OPEN WAR ON THEATRE TRUST

(Edited Press Leased Wire.)
New York, April 9.—The step taken by the Shuberts in withdrawing from the Theatre Managers' association is believed to be the opening gun of the war which they have declared against that organization. With the 14 theatres which they control in this city, and backed by wealthy men who are said to be ready to furnish a fund of \$10,000,000, the Shuberts feel that they are in a position to throw down the gauntlet to the association.

The proposed Crater Lake road, not being local, but a state highway under the interpretation of the courts in this state, will not come under this provision of the constitution.

Lee Shubert and Max Anderson of the Shubert company withdrew from the association yesterday. They allege that they received unfair treatment from the association, which, they say, investigated the grievances of other managers, but ignored the claims of the Shuberts. It is stated here that there is a possibility of the Shubert concern, assisted by other independent managers, forming a rival managerial association.

The WARM AIR FURNACES sold by us are not to be confounded with other apparatus of inferior merit sold at prices, which at first sight, appear cheap, but in reality are only low-priced, and therefore dear at almost any figure. Heat that escapes up the chimney, having performed no more useful function than the creation of a draft, is exactly so much heat lost for the actual heating of the house. THINK IT OVER — CONSIDER THE RESULT. REMEMBER, "IT'S SATISFACTION THAT COUNTS."
